NEWS RELEASE

Lumentum To Exhibit At Four Tradeshows In The Next Three Months

2019-04-05

MILPITAS, Calif., April 5, 2019 /PRNewswire/ -- Lumentum Holdings Inc. ("Lumentum") announced its presence at four tradeshows in Europe and North America in the next three months. Lumentum will display numerous advanced products addressing the optical communications, cloud, 3D sensing, and laser micromachining and macromaterials processing markets. Attendance at these shows demonstrates Lumentum's commitment to and support of these dynamic markets and its product managers and sales team will be available to meet with customers, suppliers, and industry experts.

About the Events:

Image Sensors Auto EU 2019 — April 9–10, 2019, in Berlin, Germany at the Melia Hotel. The 6th annual conference concentrates on image sensors for automobile imaging systems from optics, to processing, to OEM requirements for auto manufacturing. Lumentum will display its advanced laser technology for a variety of 3D sensing applications and participate in a speaking engagement highlighting key technology for next-generation automotive LiDAR systems.

Tuesday, April 9, 2019
"Laser Diode Solutions for Automotive LiDAR Systems"
Speaker: Dr. Tomoko Ohtsuki, Product Line Management, 3D Sensing

NGON & DCI World 2019 — May 21–23, 2019, in Nice, France at the Nice Acropolis Convention Center. NGON & DCI addresses a variety of topics in optical communications including capacity increase, disaggregation and transport SDN strategies, data center inter- and intra-connect discussions, subsea cable architecture, and what the advent of 5G will mean for the optical network. Lumentum will showcase advanced solutions for the optical communications and datacom industry and participate in speaking engagements.

Tuesday, May 21, 2019
"An Adaptive Network I Strategies to Deliver Coherent Transmission"
Panelist: Scott Swail, Business Development, Telecom Transmission

Wednesday, May 22, 2019

"The Role of DCO in Overcoming Bandwidth and Reach Limitations"
Speaker: Scott Swail, Business Development, Telecom Transmission

Advanced Laser Application Workshop (ALAW) 2019 — June 4–6, 2019, in Plymouth, Michigan at The Inn at St. John's. The 26th annual ALAW conference focuses on a variety of laser materials processing technologies including cutting, welding, and additive manufacturing. Lumentum will showcase next-generation high-power fiber lasers with industry-leading brightness.

LASER World of PHOTONICS Munich 2019 — June 24–27, 2019, in Munich, Germany at the Messe München, Hall A2 – Stand: #318. The event is held every two years and hosts a combination of research, innovative technology, and industrial application sectors for photonics. It is one of the largest global conferences and exhibitions for the lasers and photonics community. Lumentum will feature a broad spectrum of innovative laser solutions for the materials processing and 3D sensing markets.

About Lumentum

Lumentum (NASDAQ: LITE) is a market-leading designer and manufacturer of innovative optical and photonic products enabling optical networking and laser applications worldwide. Lumentum optical components and subsystems are part of virtually every type of telecom, enterprise, and data center network. Lumentum lasers enable advanced manufacturing techniques and diverse applications including next-generation 3D sensing capabilities. Lumentum is headquartered in Milpitas, California with R&D, manufacturing, and sales offices worldwide. For more information, visit www.lumentum.com.
