NEWS RELEASE

Boosting Performance at Hoyle Pond: What Our New Loader Means for Porcupine's Future

2025-07-10

We recently took delivery of a new loader at our Hoyle Pond mine — an example of our continued investment in growth and improved performance at our Porcupine operations.

As we focus on re-establishing Porcupine as a top-tier asset in the global gold mining industry, our CEO and our Mine Manager-Hoyle Pond, share their views on what this addition means for the future of our operations.
