

Sensata First Quarter 2024 Earnings Presentation

April 2024

Forward-Looking Statements and Non-GAAP Measures

Safe Harbor Statement

This presentation includes "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements may be identified by terminology such as "may," "will," "could," "should," "expect," "anticipate," "believe," "estimate," "predict," "project," "forecast," "continue," "intend," "plan," "potential," "opportunity," "guidance," and similar terms or phrases. Forward-looking statements involve, among other things, expectations, projections, and assumptions about future financial and operating results, objectives, business and market outlook, megatrends, priorities, growth, shareholder value, capital expenditures, cash flows, demand for products and services, share repurchases, and Sensata's strategic initiatives, including those relating to acquisitions and dispositions and the impact of such transactions on our strategic and operational plans and financial results. These statements are subject to risks, uncertainties, and other important factors relating to our operations and business environment, and we can give no assurances that these forward-looking statements will prove to be correct.

A wide variety of potential risks, uncertainties, and other factors could materially affect our ability to achieve the results either expressed or implied by these forward-looking statements, including, but not limited to, risks related to public health crises, instability and changes in the global markets, supplier interruption or non-performance, the acquisition or disposition of businesses, adverse conditions or competition in the industries upon which we are dependent, intellectual property, product liability, warranty, and recall claims, market acceptance of new product introductions and product innovations, labor disruptions or increased labor costs, and changes in existing environmental or safety laws, regulations, and programs.

Investors and others should carefully consider the foregoing factors and other uncertainties, risks, and potential events including, but not limited to, those described in Item 1A: Risk Factors in our most recent Annual Report on Form 10-K and as may be updated from time to time in Item 1A: Risk Factors in our quarterly reports on Form 10-Q or other subsequent filings with the United States ("U.S.") Securities and Exchange Commission (the "SEC"). All such forward-looking statements speak only as of the date they are made, and we do not undertake any obligation to update these statements other than as required by law.

Non-GAAP Financial Measures

Where we have used non-GAAP financial measures, reconciliations to the most comparable GAAP measures are provided, along with a disclosure on the usefulness of the non-GAAP measure, at the back of this presentation as well as in the "Investor Relations" section of the Company's website, www.investors.sensata.com.

Key Performance Highlights Q1-2024

Solid financial performance at high end of guidance

- **Revenue of $1,007M in Q1-24, an increase of 0.9% YoY** (increase of 2.3% YoY on a constant currency basis)
- **Adj. Operating Profit of $189M or 18.7%** of revenue, up from 18.5% in Q4
- On a **constant currency basis, Adj. Operating Profit was $198M or 19.4%** of revenue, an increase of 2.5% YoY
- **Adj. EPS of $0.89, decrease of 3.3% YoY** (increase of 1.1% on a constant currency basis)

Capital deployment strategy is focused on delivering shareholder returns

- Paid **dividend of $0.12** per share to shareholders
- **Repurchased $10M** of Sensata's shares
- **ROIC at 9.7%**, consistent with year end
- Disciplined strategy to **prioritize highest ROIC** opportunities
- Net **leverage of 3.3x** with a target to reduce **below 3x by 12/31/2024**

Sensata Technologies

Solid start to 2024 despite continuing market headwinds

Automotive

- Platform mix moving favorably due to EV demand fluctuations, particularly in Europe
- Share gains on ICE vehicles offsetting lower market take rates of EV's
- IHS projecting market down ~1% for FY24

Industrial

- A2L leak detection sensor on track to deliver market outgrowth in the second half
- As expected, destocking pressuring revenue; likely to continue through most of 2024

Heavy Vehicle, Off-Road

- Tire pressure sensor launches in Europe on track to deliver second half market outgrowth
- Market expected to be down ~6% in 2024 according to third party data

Aerospace

- Market outlook remains strong with solid revenue growth

Overall Q1-24 market outgrowth of ~300bps

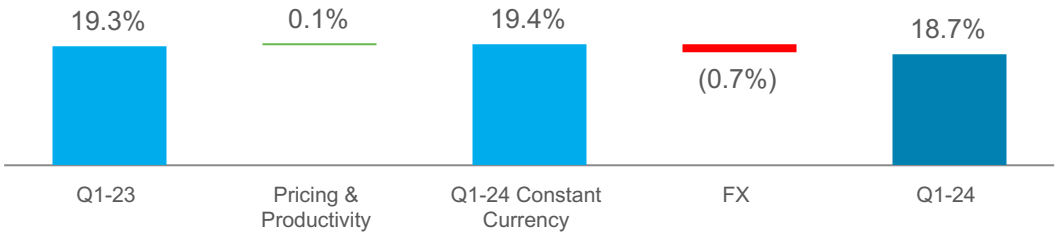
Sensata Technologies

Q1-2024 FINANCIALS AND Q2-2024 FINANCIAL GUIDE

Q1-2024 Financial Summary

$ in millions, except EPS	Q1-2024	Q1-2023	YoY B/(W)
Revenue	$1,006.7	$998.2	0.9%
Adjusted Operating Income	$188.5	$192.9	(2.3%)
% Revenue	*18.7%*	*19.3%*	
Adjusted Net Income	$134.6	$140.7	(4.3)%
% Revenue	*13.4%*	*14.1%*	
Adjusted EPS	$0.89	$0.92	(3.3)%

ADJUSTED OPERATING MARGIN WALK Q1-23 TO Q1-24



Revenue increase of 0.9% year over year. On a constant currency basis, Revenue increased 2.3% as foreign exchange negatively impacted revenue by 140bps.

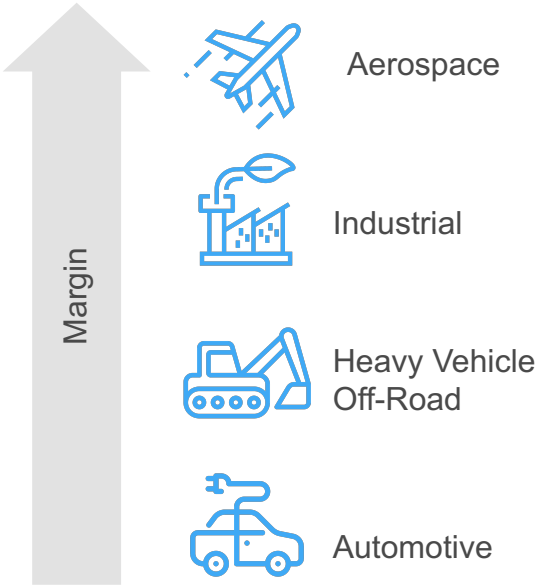
Adjusted Operating Margin increased to 18.7% from 18.5% in Q4-2023. Q1 result represents high end of previous guidance. Adjusted operating margin of 19.4% on a constant currency basis compared to 19.3% in Q1-2023.

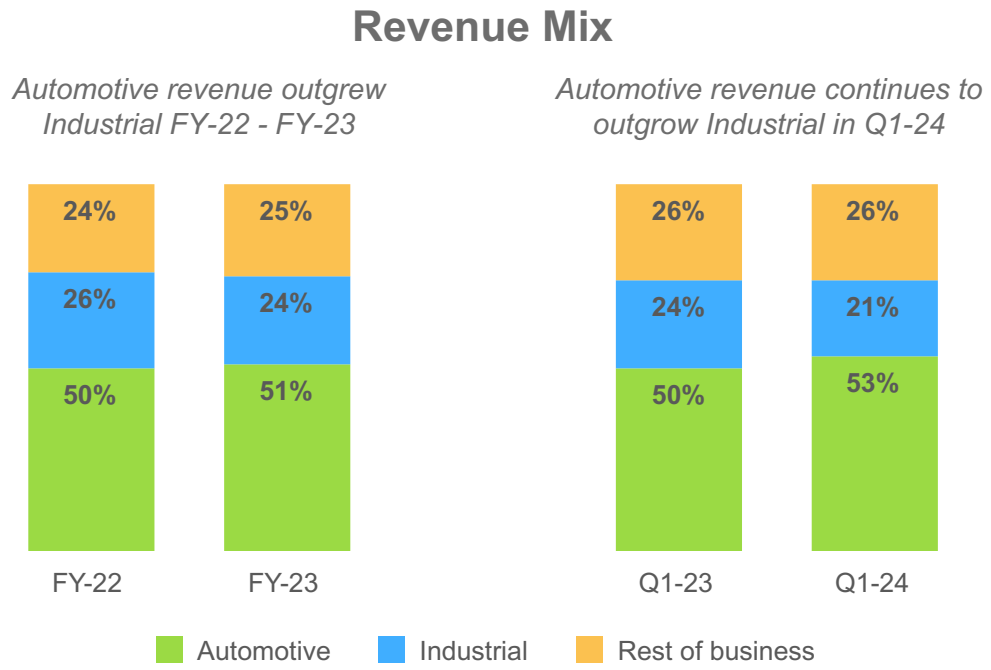
Adjusted Operating Income decreased 2.3% and index decreased 60bps primarily due to unfavorable foreign exchange.

Adjusted EPS benefited from de-leveraging and share repurchases.

Sensata Technologies

Segment mix continues to challenge operating margins:
Automotive revenue grows while Industrial is in a market down-cycle





Sensata Technologies

Q1-24 Segment Performance

Segment	$ in millions	Q1-2024	Q1-2023	YoY B/(W)	Revenue Growth Reported	Revenue Growth Organic
Performance Sensing[(1)]	Net Revenue	$713.3	$667.8	$45.6	6.8 %	8.6 %
	Adj. Operating Margin	$185.1	$169.1	$16.1		
	% Revenue	*26.0 %*	*25.3 %*	*0.7 %*		
	% Revenue constant currency	*26.6 %*	*25.3 %*	*1.3 %*		
Sensing Solutions	Net Revenue	$257.8	$283.5	$(25.6)	(9.0)%	(8.3)%
	Adj. Operating Margin	$72.5	$84.0	$(11.5)		
	% Revenue	*28.1 %*	*29.6 %*	*(1.5)%*		
	% Revenue constant currency	*28.1 %*	*29.6 %*	*(1.5)%*		
Other[(1)]	Net Revenue	$35.6	$47.0	$(11.4)	(24.3)%	(24.4)%
	Adj. Operating Margin	$6.8	$5.0	$1.8		
	% Revenue	*19.1 %*	*10.6 %*	*8.5 %*		
	% Revenue constant currency	*19.2 %*	*10.6 %*	*8.6 %*		
Corporate and other	Operating Expenses	$80.3	$62.4	$(17.9)		
	% Revenue	*8.0 %*	*6.3 %*	*1.7 %*		
	Adj. Operating Expenses	$74.5	$63.4	$(11.1)		
	% Revenue	*7.4 %*	*6.4 %*	*1.0 %*		

Performance Sensing revenue increases on content growth across both Automotive and Heavy vehicle off-road, partially offset by unfavorable FX. Operating margins improve on volume leverage and productivity.

Sensing Solutions revenue decreases primarily on Industrial down-cycle, and unfavorable FX, partially offset by Aerospace growth. Operating margins decline on lower volume.

Corporate and other adjusted operating expenses increase primarily due to higher employee costs, including merit, benefits, and variable compensation.

[(1)]Effective January 1, 2024 we moved Insights from Performance Sensing, creating another operating segment, which is reported in "Other". Prior year information in the tables above has been recast to reflect this realignment.

Sensata Technologies

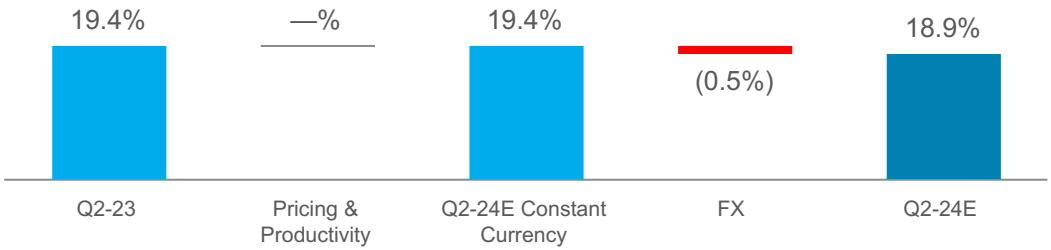
Sensata Technologies

Q2-24 Financial Guidance

$ in millions, except EPS	Q2-24 GUIDANCE	Q2-23	B/(W)
Revenue *organic*	$1,025 – $1,055	$1,062.1	(3%) - (1%) *(2%) - 1%*
Adj. Op Income	$192 – $202	$205.7	(7%) - (2%)
Adj. Net Income	$134 – $144	$149.2	(10%) - (4%)
Adj. EPS	$0.89 – $0.95	$0.97	(8%) - (2%)

ADJUSTED OPERATING MARGIN WALK Q2-23 TO Q2-24



Revenue decline expected as Q2-23 benefited from approximately $25 million in one-time revenue.

Adjusted Operating Margin expected to improve 20-30bps sequentially each quarter in 2024.

Adjusted EPS decline driven by increased tax rate expectations due to new international regulation, partially offset by recent share repurchases.

Sensata Technologies

APPENDIX B: GAAP TO NON-GAAP RECONCILIATIONS

Non-GAAP Measures

We supplement the reporting of our financial information determined in accordance with U.S. generally accepted accounting principles ("GAAP") with certain non-GAAP financial measures. We use these non-GAAP financial measures internally to make operating and strategic decisions, including the preparation of our annual operating plan, evaluation of our overall business performance, and as a factor in determining compensation for certain employees. We believe presenting non-GAAP financial measures is useful for period-over-period comparisons of underlying business trends and our ongoing business performance. We also believe presenting these non-GAAP measures provides additional transparency into how management evaluates the business.

Non-GAAP financial measures should be considered as supplemental in nature and are not intended to be considered in isolation from, or as an alternative to, the related financial information prepared in accordance with U.S. GAAP. In addition, our non-GAAP financial measures may not be the same as, or comparable to, similar non-GAAP measures presented by other companies. Within this presentation we may refer to the below measures which are not determined in accordance with U.S. GAAP (i.e., non-GAAP measures). Reconciliations of each non-GAAP measure to the most directly comparable U.S. GAAP financial measure are included within this Appendix.

Adjusted Net income ("ANI") – is defined as net income (or loss), determined in accordance with U.S. GAAP, excluding certain non-GAAP adjustments including:

a. Restructuring related and other - includes net charges related to certain restructuring and other exit activities as well as other costs (or income) that we believe are either unique or unusual to the identified reporting period, and that we believe impact comparisons to prior period operating results. Such costs include charges related to optimization of our manufacturing processes to increase productivity. This type of activity occurs periodically, however each action is unique, discrete, and driven by various facts and circumstances. Such amounts are excluded from internal financial statements and analyses that management uses in connection with financial planning and in its review and assessment of our operating and financial performance, including the performance of our segments.

b. Financing and other transaction costs – includes losses or gains related to debt financing transactions, losses or gains related to the divestiture of a business, costs incurred, including for legal, accounting, and other professional services, that are directly related to an acquisition, divestiture, or equity financing transaction, mark-to-market losses or gains on our equity investments, expenses related to compensation arrangements entered into concurrent with the closing of an acquisition, and gains related to changes in the fair value of acquisition-related contingent consideration amounts.

c. Deferred loss or gain on derivative instruments – includes unrealized losses or gains on derivative instruments that do not qualify for hedge accounting as well as the impact of commodity prices on our raw material costs relative to the strike price on our commodity forward contracts.

d. Step-up depreciation and amortization – includes depreciation expense associated with the step-up in fair value of assets acquired in connection with a business combination (e.g., PP&E and inventory) and amortization of intangible assets.

e. Deferred taxes and other tax related – includes adjustments for book-to-tax basis differences due primarily to the step-up in fair value of fixed and intangible assets and goodwill, the utilization of net operating losses, and adjustments to our valuation allowance in connection with certain acquisitions and tax law changes. Other tax related items include certain adjustments to unrecognized tax benefits and withholding tax on repatriation of foreign earnings.

f. Amortization of debt issuance costs - represents interest expense related to the amortization of deferred financing costs as well as debt discounts, net of premiums.

g. Where applicable, the current tax effect of non-GAAP adjustments.

Adjusted EPS – is calculated by dividing ANI by the number of diluted weighted-average ordinary shares outstanding in the period.

Adjusted Operating Income – is defined as operating income (or loss), determined in accordance with U.S. GAAP, adjusted to exclude the following non-GAAP items, if applicable: (1) restructuring related and other, (2) financing and other transaction costs, (3) deferred loss or gain on derivative instruments, and (4) step-up depreciation and amortization. Refer to the definition of ANI for additional information regarding the nature of these non-GAAP adjustments.

Adjusted Operating Margin – is calculated by dividing adjusted operating income (or loss) by net revenue.

We believe that ANI, Adjusted EPS, Adjusted Operating Income, and Adjusted Operating Margin are useful to investors and management in understanding our ongoing operations and in analysis of ongoing operating trends.

Non-GAAP Measures – continued

Free Cash Flow – is defined as net cash provided by operating activities less additions to property, plant and equipment and capitalized software. We believe free cash flow is useful to management and investors as a measure of cash generated by business operations that will be used to repay scheduled debt maturities and can be used to, among other things, fund acquisitions, repurchase ordinary shares, and (or) accelerate the repayment of debt obligations.

Organic or Constant Currency Measures – in discussing trends in the Company's performance, we may refer to the percentage change of certain GAAP or non-GAAP financial measures in one period versus another, calculated on either a reported, constant currency, or organic basis. Changes calculated on a constant currency basis are determined by stating revenues and expenses at prior period foreign currency exchange rates and excludes the impact of foreign currency exchange rates on all hedges and, as applicable, net monetary assets. Changes calculated on an organic basis exclude the period-over-period impact of foreign exchange rate differences as well as the net impact of material acquisitions and divestitures for the 12-month period following the respective transaction date(s). We believe that these measures are useful to investors and management in understanding our ongoing operations and in analysis of ongoing operating trends.

Adjusted EBITDA – is defined as net income (or loss), determined in accordance with U.S. GAAP, excluding interest expense, net, provision for/(benefit from) income taxes, depreciation expense, amortization of intangible assets, and the following non-GAAP adjustments, if applicable: (1) restructuring related and other, (2) financing and other transaction costs, and (3) deferred gain or loss on derivative instruments. Refer to definition of ANI for additional information regarding the nature of these non-GAAP adjustments.

Gross Leverage Ratio – is defined as gross debt divided by last twelve months (LTM) adjusted EBITDA. We believe that gross leverage ratio is a useful measure to management and investors in understanding trends in our overall financial condition.

Net Debt – is defined as total deb and finance lease obligations less cash and cash equivalents. We believe net debt is a useful measure to management and investors in understanding trends in our overall financial condition.

Net Leverage Ratio – is defined as net debt divided by last twelve months (LTM) adjusted EBITDA. We believe that net leverage ratio is a useful measure to management and investors in understanding trends in our overall financial condition.

Adjusted Taxes & Adjusted Tax Rate – adjusted taxes represents the provision for/(benefit from) income taxes, determined in accordance with U.S. GAAP, adjusted to exclude deferred taxes and other tax related items as well as the current tax effect of other non-GAAP adjustments (refer also to definition of ANI). The adjusted tax rate is calculated as adjusted taxes divided by adjusted income before taxes.
