NEWS RELEASE

BitGo Powers AndX U.S. Launch with Regulated Digital Asset Infrastructure and Trading Connectivity

2026-04-09

AndX launches its U.S. platform on BitGo's Crypto-as-a-Service infrastructure to support secure digital asset trading and a streamlined user experience.

NEW YORK--(BUSINESS WIRE)-- BitGo Holdings, Inc., the digital asset infrastructure company (NYSE: BTGO) ("BitGo"), today announced that AndX USA LLC ("AndX"), the U.S. digital asset platform of AndX Global, is launching its U.S. crypto trading platform leveraging BitGo's Crypto-as-a-Service ("CaaS") infrastructure.

Built on the infrastructure of BitGo Bank & Trust, National Association ("BitGo Bank & Trust"), the integration provides AndX with regulated digital asset infrastructure designed to support the secure buying, selling, and holding of digital assets, with institutional-grade security controls, compliance capabilities, and operational safeguards across all 50 states.

As digital asset adoption continues to grow in the United States, platforms entering the market face increasing expectations around security, regulatory alignment, and reliability. Through BitGo's CaaS platform, AndX is able to accelerate its global advanced trading experience in the U.S., while relying on BitGo's OCC regulated infrastructure, API-driven architecture, and custody capabilities with $250 million insurance coverage for BitGo.

"Crypto platforms shouldn't have to choose between speed to market and institutional-grade safeguards," said Frank Wang, Managing Director and Head of Fintech at BitGo. "BitGo's Crypto-as-a-Service enables partners like AndX to launch and scale secure trading experiences on top of a regulated infrastructure foundation, with API-driven systems designed for reliability, control, and compliance."

The partnership enables AndX to focus on its customer experience while benefiting from integrated custody, transfer, and trading workflows that simplify platform operations and support a more unified experience for end users.

“At AndX, our goal is to expand access to financial markets while maintaining the highest standards of security and trust,” said Viru Raparthi, CEO and Founder of AndX. “Partnering with BitGo allows us to build on a proven, regulated infrastructure while focusing on innovation; bringing together AI-driven trading tools, real-world asset tokenization, and global payment capabilities into a single platform designed for modern investors.”

BitGo’s CaaS offering helps partners accelerate deployment through configurable APIs and webhooks, while reducing the complexity of building and maintaining core digital asset infrastructure in-house.

About BitGo

BitGo (NYSE: BTGO) is the digital asset infrastructure company delivering custody, wallets, staking, trading, financing, stablecoins, and settlement services from regulated cold storage. Since 2013, BitGo has focused on accelerating the transition of the financial system to a digital asset economy. BitGo maintains a global presence and multiple regulated entities, including BitGo Bank & Trust, National Association, the first federally chartered digital asset trust bank owned by a publicly traded company. Today, BitGo serves thousands of institutions and millions of investors worldwide. For more information, visit www.bitgo.com.

About AndX

AndX is a global, AI-native Web3 financial platform headquartered in New York City. The company unifies multi-asset trading, tokenization, secure cross-border payments, real-time financial intelligence, and a gamified participation layer into a single, next-generation digital finance ecosystem.

The platform built to democratize global access to digital finance through education, access & inclusion, delivers:

- Tokenized real-world and digital assets
- Secure multi-asset trading across crypto, FX, commodities, derivatives, and tokenized equities
- AI-powered predictive insights and personalized financial pathways
- Cross-border payment and settlement rails
- A gamified participation layer that rewards engagement and financial empowerment
- Access to prediction markets and DeFi tap trading

AndX operates across the United States, Turkey, UAE, India, Brazil, the Philippines, South Africa, and is rapidly expanding into other growing markets. The company combines institutional-grade engineering with user-centric, AI-native design to build a financial ecosystem prepared for the next billion users. For more information, visit www.andx.ai

Forward-Looking Statements

Certain statements in this press release constitute “forward-looking statements” within the meaning of the federal securities laws. Words such as “may,” “might,” “will,” “should,” “believe,” “expect,” “anticipate,” “estimate,” “continue,” “predict,” “forecast,” “project,” “plan,” “intend” or similar expressions, or statements regarding intent, belief, or current expectations, are forward-looking statements. These forward-looking statements are subject to various risks and uncertainties, many of which are difficult to predict, that could cause actual results to differ materially from current expectations and assumptions from those set forth or implied by any forward-looking statements. Important factors that could cause actual results to differ materially from current expectations include, among others, the highly volatile nature of digital assets, technical issues in connection with the

integration of supported digital assets and changes and upgrades to their underlying network, heightened scrutiny of our industry and operations, the theft, loss, or destruction of private keys required to access any digital assets held in custody for our own account or for our clients, errors in executing client transactions or managing our own trading activities, and the other factors discussed in the Company's Final Prospectus filed with the U.S. Securities and Exchange Commission (the "SEC") on January 23, 2026, and its subsequent filings with the SEC, including subsequent periodic reports on Form 10-K, Forms 10-Q and 8-K. Such forward-looking statements are based on facts and conditions as they exist at the time such statements are made and predictions as to future facts and conditions. While the Company believes these forward-looking statements are reasonable, readers of this press release are cautioned not to place undue reliance on any forward-looking statements. The information in this release is provided only as of the date of this release, and the Company does not undertake any obligation to update any forward-looking statement relating to matters discussed in this press release, except as may be required by applicable securities laws.
