NEWS RELEASE

CleanSpark Ranks in Navigant Research Top 10 Global Microgrid Rankings

2018-04-27

SALT LAKE CITY, April 27, 2018 /PRNewswire/ -- CleanSpark, Inc. (OTC: CLSK), a microgrid company with advanced engineering, software and controls for innovative distributed energy resource management systems, today announced that it has been distinguished by Navigant Research as 'positioned to emerge as Leaders in this market over the next 10 years.'

Navigant research has profiled more than 75 companies operating in the microgrid space. The executive summary for the Navigant Research Leaderboard can be found at **https://www.navigantresearch.com/research/navigant-research-leaderboard-microgrid-controls**. The report based its conclusions on Strategy and Execution with specific focus on Vision, Business Model Innovation, Controls Philosophy, Project Performance, Controls Functionality and Project Portfolio. CleanSpark ranked number 10 in the top 15, trailing such industry-leading companies as Schweitzer Engineering Laboratories and Schneider Electric, but leading powerhouses General Electric, Lockheed Martin, ABB and Eaton.

"We've been fortunate to have been included in multiple microgrid studies by Navigant Research over the past few years," said Bryan Huber, Chief Operations Officer at CleanSpark. "They've traced our early success back to the 'FractalGrid' at Camp Pendleton, closely watched us as we've progressed forward with new innovations for our commercial and industrial REIT clientele, and improved our software and control suite to focus on economic optimization and resiliency," he continued. "To be recognized as 'positioned to emerge as a leader' in this market by such a credible source as Navigant is an honor for all of our stakeholders."

About Navigant Research.

Navigant Research is a market research and consulting team that provides in-depth analysis of global clean

technology markets. The team's research methodology combines supply-side industry analysis, end-user primary research and demand assessment and deep examination of technology trends to provide a comprehensive view of these energy sectors.
