

SemGroup and DCP Midstream Extend Open Season for Light Crude Transportation Solution from Cushing to Gulf Coast Markets

Tulsa, Okla. and Denver, Colo. – January 31, 2019 – SemGroup® Corporation (NYSE:SEMG) and DCP Midstream, LP (NYSE:DCP) today announced that, due to ongoing shipper interest, they have extended by one month the open season to solicit binding commitments for the development of a new pipeline system to transport segregated, light batches of crude oil originating in Cushing, Okla. and terminating in Houston, Texas. All potential shippers must submit binding commitments by 5 p.m. Central Time on February 28, 2019.

The proposed Gladiator Pipeline would originate at SemGroup's Cushing terminal and provide crude oil service to Gulf Coast markets. The Cushing origin would provide potential shippers the connectivity to source barrels from key pipelines that converge in Cushing, including the White Cliffs Pipeline, which serves Colorado's DJ Basin.

At the pipeline's destination, potential shippers would have many options for connecting barrels to a variety of demand centers, including refineries in the Houston area or to crude oil storage and export facilities, such as SemGroup's HFOTCO Terminal. If sufficient commitments are obtained, subject to the receipt of all of the necessary approvals, permits and force majeure, the proposed Gladiator Pipeline is anticipated to be operational by the third quarter of 2020, following the potential construction of new NGL capacity by DCP.

Prospective shippers should contact Grant Najera, Director of Commercial - Pipelines for SemGroup, at 918-524-8525 or gnajera@semgroup.com, and Nick Dark, Commercial Asset Manager for SemGroup at 918-524-7311 or ndark@semgroup.com. At DCP Midstream, potential shippers should contact Brittany Wright, Business Development Manager, at 713-735-3657 or bwright@dcpmidstream.com.
