Forward-Looking Statement

This presentation includes “forward-looking statements” within the meaning of the federal securities laws, and language indicating trends, such as “trend improvements,” “progress,” “anticipated,” “expected,” “improving sales trends” and “on track.” Although the Company believes that the assumptions upon which the financial information and its forward-looking statements are based are reasonable, it can give no assurance that these assumptions will prove to be correct. Important factors that could cause actual results to differ materially from the Company’s projections and expectations are disclosed in the Company’s filings with the Securities and Exchange Commission. These factors include, among others, changes in consumer preferences and product trends; price discounting by major competitors; failure to realize anticipated results from synergy initiatives; and increases in costs generally. All forward-looking statements in this press release are expressly qualified by such cautionary statements and by reference to the underlying assumptions. We do not undertake to update forward-looking statements, whether as a result of new information, future events or otherwise.

Molson Coors Canada Managed Through a Challenging 2009

Key Challenges

- Economy & weather drive 0.4% decline in industry volumes
- Strong consumer response to price & value

Accomplishments

- Comparable COGS/HL flat
- 3 new brands & Granville Island Brewing added
- Molson Canadian revitalization underway
- Quarter point share gain in Q4
Molson Coors Canada - Priorities

- Brand portfolio development
- Deliver cost savings
- Optimize price/volume balance
Molson Coors Canada is largest brewer in the key Ontario & Quebec markets.
The Industry in Canada is Still Dominated by the Premium / Premium Light Segment

- Strong in Premium/Premium light
- Opportunity exists for MCC in the Above Premium & Value segments
- Gaining fair share would yield:
  - 1 million hl in volume
  - $200 million in revenue
  - 4 share points
Coors Light – Continuing the Momentum

- Strong start to Q1 2010 with Olympic programming
- Rocky Mountain Cold obsession
- Engage consumers through improved retail presence and innovation
- Leverage North America scale to drive efficiency

Coors Light has more than doubled in size since 2000 while industry up only 10%
Molson Canadian Repositioned

• Organize the brand around “Made From Canada”
• Molson Canadian is made from the best this land has to offer – Canadian water, prairie barley and no preservatives
• Updated brand design / graphics
Molson Canadian 67 Launched

• Health & wellness single largest consumer trend
• 1/2 the calories of mainstream beer
• 1/2 the calories of wines and spirits
• All brand elements well received
Launched Molson M in Quebec to Address Consumer Shift to Easy Drinking Mainstream

- Brewing technology (microcarbonated™)
- Consumer appeal high in concept testing and taste testing
- Launched in Quebec Nov 2009
- Introductory period exceeding expectations
- Strong trial behind solid execution
- Opportunity to expand geographic distribution within Canada
We Will Continue to Focus on Above Premium Segment with Our Leading Portfolio

...and also Drive for Our Fair Share of the Value Segment

- Carling redesign completed in Q4 / 2009
- Keystone Light/Lager launch in West and Ontario - Q1 / 2010
  - Strong brand in the US (#10), growing at double digit rates
  - Leverage US insights and marketing investment
Price Competitiveness Restored

• Aggressive price discounting impacted the Quebec market in 2008
  • Fully competitive beginning Q2, 2009
• We will be price competitive in all markets
• We will win in the market by delivering value to consumers in the form of innovative products & packaging
• MCC comparable net sales revenue per hectoliter ended 2009 up 1.8%; Q4 flat

Molson Coors Canada has Established the Platform for Growth in 2010

• We strengthened our brand portfolio in late 2009, providing platform for brand led growth

• Innovation based on consumer insight will drive more consumer excitement and value

• Price / value issues are being actively managed across the country to ensure the right balance of price and volume

• Cost are being addressed to provide the resources necessary for top and bottom line growth

Stronger Canada business driving profit, cash, and shareholder returns

Chief Executive Officer, Molson Coors U.K.
The UK Beer Market and Economy Remain Challenging

• Continuing underlying volume decline
  – 14% decline 2000-2009 with rate of decline slowing 2008 to 2009
• Continuing industry overcapacity
  – Estimated at 6 million barrels with capacity being cut
• Shift of volume to major off-premise customers
  – Multiple grocers growth of 72% 2000-2009
• Retail price deflation in growing channels
  – Off-premise retail pricing improved in 2009 but comparable to 1997
• Excise duty escalator – inflation +2% through 2013
  – Cider excise review announced
In 2009, We Exceeded our Performance Expectations Despite a Tough Beer Industry and Economic Backdrop

- 49% underlying pretax income growth in local currency (£)
  - 36% in US$, including 14% of currency headwinds in 2009*
- Pricing growth for 12 consecutive quarters
- Gross margin growth for 5 straight quarters
- Doubled our free cash flow
- Created the Cobra Beer Partnership
- Delivered a full year’s benefit from the Heineken UK brewing contract
- Closed the Defined Benefit pension plan
- Significantly improved people engagement

Business Strategies Drive Long-Term Value

- Innovation builds brands and margins
- MCBC cost reduction program updates: RFG and RFG2
- MillerCoors synergy program and additional cost reduction highlights
- Strategies strengthen balance sheet, generate cash and drive value
- Disciplined cash use strategies drive returns
Innovation: Accelerate to Differentiate Brands, Achieve Financial Targets

We define innovation as:

- A new brand to a country, new package structure, new category
- A new draught technology in home or on-premise or a new promotional technology
- A product improvement or enhancement that offers a distinctive consumer benefit

Innovation will drive results by:

- Attracting new drinkers, increasing share of occasions and retaining current consumers
- Securing incremental retail execution
- Enhancing margin

We will succeed by following our innovation success formula

- Innovations are anchored in brand positioning
- They are driven by compelling consumer insights, dramatize point of difference vs. competition, and provide a reason to believe

Our global innovation to drive top line

- Combination of local and global projects
- 6 major projects currently in-market
Enterprise Collaboration Drives Innovation Projects

- On target to deliver $450 million of cumulative synergies by year end, and $500 million by the end of the program mid-year 2011

**MillerCoors’ additional cost savings** – with a goal of $200 million by the end of 2012 -- already delivered $26 million in 4th quarter 2009
2009 Underlying Free Cash Flow

2009 Reported FCF = $691 million

Incremental MillerCoors-related cash: $93 million

MillerCoors cash held in margin: ($55) million

2009 Underlying FCF = $729 million*

* Versus 2009 underlying FCF goal of $575 million, +/- 10%. Underlying free cash flow is defined as operating cash flow, plus asset sale proceeds, less capital spending and one-time cash uses, plus or minus investing cash from/to MillerCoors.
Building Cash Flow and Balance Sheet Strength

2010 Underlying Free Cash Flow Goal: $760 million, +/- 10%

- 32% higher than 2009 goal
  - 12% over 2009 actual without $53 million Canadiens sale

- Driven by:
  - Operating earnings
  - Changes in working capital
  - MillerCoors cash generation continues to ramp up

- Excludes one-time MillerCoors capital & charges:
  - ~$27 million (at 42%)

Underlying free cash flow is defined as operating cash flow, plus asset sale proceeds, less capital spending and one-time cash uses, plus or minus investing cash from/to MillerCoors.
Cash Use Priorities Drive Long-Term Value

• Growth opportunities
  – Recent examples: MillerCoors, Cobra (U.K.), Granville (Canada)
  – Selectively considered and brand-led, all shapes and sizes, investments in high-return innovation and capital projects
  – Value-enhancing in-market and select strategic or transformational

• Balance sheet strength
  – High-return, voluntary pension funding ($885 million under-funded*), debt maturing ($300 million due Sept. 2010), Brazil amnesty (TBD)

• Return free cash to shareholders
  – Increased dividend 25% in 2008 and 20% in 2009
  – Consider further dividend increases, possibility of share repurchases

* Including 42% of MillerCoors underfunded position.
Business Strategies Drive Long-Term Value

- Innovation programs build brands and margins
- Exceeded cost reduction targets – MCBC and MillerCoors
  - New aggressive goals
- Ramping up cash generation
- Strategies strengthen balance sheet, generate cash
