FORWARD LOOKING STATEMENT

This presentation includes estimates or projections that constitute “forward-looking statements” within the meaning of the U.S. federal securities laws. Generally, the words “believe,” “expect,” “intend,” “anticipate,” “project,” “will,” and similar expressions identify forward-looking statements, which generally are not historic in nature. Although the Company believes that the assumptions upon which its forward-looking statements are based are reasonable, it can give no assurance that these assumptions will prove to be correct. Important factors that could cause actual results to differ materially from the Company’s historical experience, and present projections and expectations are disclosed in the Company’s filings with the Securities and Exchange Commission (“SEC”). These factors include, among others, impact of competitive pricing and product pressures; health of the beer industry and our brands in our markets; economic conditions in our markets; pension plan costs; availability or increase in the cost of packaging materials; our ability to maintain manufacturer/distribution agreements; our ability to implement our strategic initiatives, including executing and realizing cost savings; our ability to successfully integrate our Central Europe business; changes in legal and regulatory requirements, including the regulation of distribution systems; increase in the cost of commodities used in the business; our ability to maintain brand image, reputation and product quality; our ability to maintain good labor relations; changes in our supply chain system; additional impairment charges; the impact of climate change and the availability and quality of water; risks relating to operations outside North America; success of our joint ventures; lack of full-control over the operations of MillerCoors; and other risks discussed in our filings with the SEC, including our Annual Report on Form 10-K for the year-ended December 31, 2013, which are available from the SEC. All forward-looking statements in this press release are expressly qualified by such cautionary statements and by reference to the underlying assumptions. You should not place undue reliance on forward-looking statements, which speak only as of the date they are made. We do not undertake to update forward-looking statements, whether as a result of new information, future events or otherwise.

UNDERLYING EARNINGS GROWTH IN TOUGH TIMES…

MCBC Underlying Pretax Income (*)

Pretax income growth over the past 8 years totaled 96%

* Non-GAAP underlying pretax income is calculated by excluding special and other non-core items from the nearest U.S. GAAP earnings. See reconciliation to nearest U.S. GAAP measures on our website.
…AND STEADY, STRONG, GROWING EBITDA

Underlying EBITDA\(^1\)

2013: +5.1%, to nearly $8 per share; 2014 1H: +9%

\(^1\) Non-GAAP underlying EBITDA (Earnings before interest, taxes, depreciation and amortization) is calculated excluding special and other non-core items from U.S. GAAP earnings. See reconciliation to nearest U.S. GAAP measures on our website. Includes 42% of MillerCoors.
GROWING CASH RETURNS VIA DIVIDENDS

New dividend payout ratio of 18%-22% of trailing underlying EBITDA
COST REDUCTIONS HELP TO DRIVE TOP LINE AND BOTTOM LINE

Nearly $1.2 billion of cost savings delivered in past 9 years

* Including 42% of MillerCoors cost savings
Ongoing cost efficiencies will fuel growth investments

Long-term sustainability

• Captured more than $70 million of savings in 2013*
• Savings of $40-$60 million/year for at least the next 4 years*
  • Near the high end of the range for the next 1-2 years
• Includes Central Europe deal synergies

Driven through: efficiency and effectiveness

• Restructuring U.K., Canada, International
• Reduced overhead expenses, primarily Canada
• Global procurement

Substantial % of savings reinvested for profitable growth

* Excludes MillerCoors cost savings.
Capital Spending

- 2014 outlook: $315 million*
  - Supply chain work in Canada
  - Innovation in Canada and Europe
  - Higher than maintenance capital
- Expect to maintain similar capital spend levels in 2015

Maintaining working capital improvements

- Accounts payable
- Accounts receivable
- Inventories

* Excludes MillerCoors capital spending
INCREASING WORKING CAPITAL EFFICIENCY

Day Sales Outstanding

Days Payables Outstanding

Days Inventory Outstanding

Cash Conversion Cycle (*)

Driving future improvements, including in supply chain financing

* Note: Cash Conversion Cycle = DSO+DIO-DPO
Totals may not sum due to rounding
Very cash generative business, even after substantial investments in brands, etc.

* Underlying free cash flow is defined as operating cash flow, less capital spending, plus or minus investing cash from/to MillerCoors and plus or minus the cash impact of special and other non-core items. See reconciliation to nearest U.S. GAAP measures on our website.

(1) Forecast, plus or minus 10%.
SHORT-TERM CASH USE PRIORITY: DELEVERAGE

S&P Adjusted Debt/EBITDA*  Moody’s Adjusted Debt/EBITDA  Net debt/EBITDA

* In August 2014, S&P changed its rating methodology to include proportional consolidation of MillerCoors results and give MCBC credit for 90% of balance sheet cash (rather than 75% of balance sheet cash previously). S&P’s YE 2009-2013 ratios and MCBC’s 2015 goal reflect this change in methodology.

(1) Total debt less cash, divided by the sum of underlying pretax income, plus interest and depreciation & amortization expense (incl. 42% of MillerCoors). See reconciliations to nearest US GAAP measures on our website.
Cash use priorities

• Strengthen balance sheet by reducing liabilities
• Return cash to shareholders
• Brand-led growth opportunities

Short-term focus: Balance sheet, especially debt (to pre-Central Europe levels)

• 16% increase in dividend 1st Q 2014
• New payout ratio: 18-22% of trailing year EBITDA
• Share buy-backs can be considered after deleverage

Consistent return-driven criteria

• Short-term earnings accretion
• ROIC/WACC within 3-5 years
