FORWARD LOOKING STATEMENT

This presentation includes estimates or projections that constitute “forward-looking statements” within the meaning of the U.S. federal securities laws. Generally, the words “believe,” “expect,” “intend,” “anticipate,” “project,” “will,” and similar expressions identify forward-looking statements, which generally are not historic in nature. Although the Company believes that the assumptions upon which its forward-looking statements are based are reasonable, it can give no assurance that these assumptions will prove to be correct. Important factors that could cause actual results to differ materially from the Company’s historical experience, and present projections and expectations are disclosed in the Company’s filings with the Securities and Exchange Commission (“SEC”), including in ”Risk Factors” in our Annual Report on Form 10-K for the year-ended December 31, 2015. These factors include, among others, our ability to successfully close, finance and integrate the acquisition; our ability to achieve expected tax benefits, accretion and cost synergies; our ability to obtain necessary regulatory approvals for the acquisition; impact of increased competition resulting from further consolidation of brewers, competitive pricing and product pressures; health of the beer industry and our brands in our markets; economic conditions in our markets; additional impairment charges; our ability to maintain manufacturer/distribution agreements; changes in our supply chain system; availability or increase in the cost of packaging materials; success of our joint ventures; risks relating to operations in developing and emerging markets; changes in legal and regulatory requirements, including the regulation of distribution systems; fluctuations in foreign currency exchange rates; increase in the cost of commodities used in the business; the impact of climate change and the availability and quality of water; loss or closure of a major brewery or other key facility; our ability to implement our strategic initiatives, including executing and realizing cost savings; our ability to successfully integrate newly acquired businesses; pension plan costs; failure to comply with debt covenants or deterioration in our credit rating; our ability to maintain good labor relations; our ability to maintain brand image, reputation and product quality; lack of full-control over the operations of MillerCoors and other risks discussed in our filings with the SEC, including our Annual Report on Form 10-K for the year-ended December 31, 2015. All forward-looking statements in this presentation are expressly qualified by such cautionary statements and by reference to the underlying assumptions. You should not place undue reliance on forward-looking statements, which speak only as of the date they are made. We do not undertake to update forward-looking statements, whether as a result of new information, future events or otherwise.

TOTAL SHAREHOLDER RETURN (TSR)
Up 2% in first half 2016.

(1) Non-GAAP underlying pretax income is calculated by excluding special and other non-core items from the nearest U.S. GAAP earnings. See reconciliation to nearest U.S. GAAP measures in our 10-K.
CUMULATIVE ANNUALIZED COST SAVINGS

Over $1.4 billion of cumulative annualized cost savings delivered.

(1) Includes 42% of MillerCoors cost savings.
LONG-TERM SUSTAINABILITY

- Captured almost $65 million of savings in 2015 (1)
- Expect cost savings of $50-$70 million/year for at least the next 2 years (1)

DRIVEN THROUGH EFFICIENCY AND EFFECTIVENESS

- Canada Supply Chain and China Restructuring
- U.S.: Eden brewery closure announced
- Europe: Alton and Plovdiv Closures, Burton South agreement
- Canada: Vancouver sale, Montreal under review

Substantial % of savings reinvested for profitable growth.

(1) Excludes MillerCoors cost savings.
Commitment to maintaining investment-grade debt ratings.

(1) Pro forma net debt/underlying EBITDA. Non-GAAP underlying EBITDA (Earnings before interest, taxes, depreciation and amortization) is calculated excluding special and other non-core items from U.S. GAAP earnings. See reconciliation to nearest U.S. GAAP measures in our 2015 10-K, as well as pro forma financial results in our 8-K filed on May 12, 2016. Does not include transaction-related cash tax benefits.

Note: Years 2011 through 2015 include 42% of MillerCoors underlying EBITDA.
Will revisit dividend policy once deleveraging is well underway.

More than $250 million of cash tax benefits in each of first 15 years.

---

<sup>(1)</sup> Based on May 12, 2016, pro forma financial information, including 216.3 diluted shares outstanding, as well as estimated cash tax benefits of $250 million/year, but excludes Miller Global brands business. See our website (www.molsoncoors.com) for a reconciliation to nearest U.S. GAAP measure.

<sup>(2)</sup> Net income from continuing operations attributable to MCBC from Exhibit 99.3 of 8-K filed on May 12, 2016, has been adjusted to take into account transaction-related permanent financing completed in July 2016 (which drove a decrease of $199.8 million to PF interest expense), as well as the related tax impact (an increase of $75.8 million to PF income tax expense).

<sup>(3)</sup> Assumed 38% tax rate.
