Safe Harbor Statement

SANMINA

Certain statements made during this presentation, including the Company's outlook for the first quarter fiscal 2019 results and statements regarding the expected impact of the new revenue recognition standard, constitute forward-looking statements within the meaning of the safe harbor provisions of Section 21E of the Securities Exchange Act of 1934. Actual results could differ materially from those projected in these statements as a result of a number of factors, including adverse changes to the key markets we target; significant uncertainties that can cause our future sales and net income to be variable; reliance on a small number of customers for a substantial portion of our sales; risks arising from our international operations; finalization of the manner of adoption of the new revenue recognition standard; and the other factors set forth in the Company's annual and quarterly reports filed with the Securities Exchange Commission ("SEC"). In addition, during the course of today's presentation, we will refer to certain non-GAAP financial information. The corresponding GAAP financial information and a reconciliation of the non-GAAP results disclosed during this presentation to the most directly comparable GAAP measures are included on slide 19 of this presentation.

The Company is under no obligation to (and expressly disclaims any such obligation to) update or alter any of the forward-looking statements made in this presentation, our earnings press release, the conference call or the Investor Relations section of our website whether as a result of new information, future events or otherwise, unless otherwise required by law.

SANMINA

Cash and Cash Equivalents

Inventory \$ / Turns

Inventory turns (annualized) are calculated as the ratio of four times non-GAAP cost of sales for the quarter to average inventory.

Cash Cycle Days

Cash cycle days is calculated as days inventory on hand (ratio of average inventory for the quarter to average daily non-GAAP cost of sales for the quarter) plus days sales outstanding (ratio of average net accounts receivable to average daily net sales for the quarter) minus accounts payable days (ratio of 365 days divided by accounts payable turns - ratio of four times non-GAAP cost of sales for the quarter to average accounts payable).

Non-GAAP Pre-Tax ROIC

Refer to slide 20 for non-GAAP pre-tax ROIC reconciliation.
