# THE PROXY PROCESS

This proxy statement, mailed to holders of CarMax, Inc. common stock on or about May 15, 2003, is furnished in connection with the solicitation of proxies by the board of directors for use at the 2003 annual meeting of shareholders to be held on June 24, 2003. The proxy also will be effective at any adjournments of the annual meeting. A copy of the company's annual report for the fiscal year ended February 28, 2003, is being mailed to you with this proxy statement.

Your board of directors encourages you to vote in favor of all the director nominees.

## Record Date

## Voting

**Record Holders.** If you are a record holder (i.e., if you hold shares in your name), you may vote in person at the annual meeting or by proxy. For these shares, you have three ways to vote by proxy:

1. Connect to the Internet at [www.eproxy.com/kmx](http://www.eproxy.com/kmx);
2. Call 1-800-240-6326; or
3. Complete the proxy card and mail it back to us.

Complete instructions for voting your shares can be found on your proxy card. If you return your proxy card but do not provide instructions, your shares will be voted **FOR** the election of director nominees named in this proxy statement.

If you change your mind on any issue after you vote, you may revoke your proxy at any time before the close of voting at the annual meeting. There are four ways to revoke your proxy:

1. Connect to the Web site listed above;
2. Call the 800 number listed above;

3. Write to our Corporate Secretary at 4900 Cox Road, Glen Allen, Virginia 23060; or
4. Vote your shares at the annual meeting.

**Beneficial Owners.** If your shares are held through a broker or other nominee (i.e., in "street name"), please follow the instructions found on the voting instruction card sent to you by your broker. Because the only item on the agenda for the annual meeting is routine, your broker may vote your shares **FOR** the election of director nominees named in the proxy statement if you do not return instructions.

**Employee Stock Purchase Plan Participants.** If you are a participant in the CarMax, Inc. employee stock purchase plan, you will receive a form on which to provide voting instructions to Computershare Trust Co., Inc. ("Computershare"), the administrator for the plan. The share amounts listed on that form include the full and fractional shares in your plan account. If you also own shares as a record holder, the form will also allow you to vote those shares by proxy. You may instruct the administrator by:

1. Connecting to [www.eproxy.com/kmx](http://www.eproxy.com/kmx);
2. Calling 1-800-240-6326; or
3. Returning your voting instructions in the enclosed envelope.

Complete instructions can be found on the voting instruction card included with the proxy statement sent to plan participants. Computershare will vote according to your instructions. If you sign and return the voting instruction card without instructions, Computershare will vote your shares in accordance with the recommendations of the board. If you do not return a signed voting instruction card for your shares, Computershare will vote your shares in accordance with recommendations of the board.

**Rights.** You are entitled to cast one vote for each share of common stock you hold.

**Quorum.** A majority of the shares outstanding on April 30, 2003, constitutes a quorum for this meeting. Abstentions and shares held by broker or nominee that are voted on any matter are included in determining a quorum.

**Vote Required.** The five nominees for director receiving the most votes will be elected. Votes that are withheld and shares held in street name that are not voted in the election of directors will not be included in determining the number of votes cast and, therefore, will have no effect on the election of directors.

## Attending the Meeting

Shareholders who plan to attend the meeting this year will be asked to present valid picture identification, such as a driver's license or passport. If you hold stock in street name, you must bring a copy of a brokerage statement. If you are an authorized proxy or if you want to vote in person the shares that you hold in street name, you must present the proper documentation. Cameras, recording devices and other electronic devices will not be permitted at the meeting.

## Solicitation and Tabulation

The company will pay for the solicitation of proxies from our shareholders, and some of our employees may contact shareholders after the initial mail solicitation by telephone, by e-mail or in person. We have also retained Morrow & Co., Inc. of New York, New York, to assist in the solicitation of proxies for a fee of \$7,500 and reimbursement of expenses. In addition, we may reimburse brokerage firms and other custodians, nominees and fiduciaries for their reasonable expenses in sending proxy materials to the beneficial owners of stock. Wells Fargo Bank Minnesota, N.A. will tabulate the proxies and assist with the annual meeting.

### Director Compensation and Other Programs

**Fees.** Directors who are employees of the company receive no compensation for service as members of the board or board committees. In fiscal year 2003, the compensation of non-employee directors had both cash and equity components. The annual cash retainer amount for non-employee directors was established at \$28,500 for

fiscal 2003. However, because these directors did not begin serving until October 1, 2002, they were paid \$14,250, or half of the approved fiscal 2003 cash retainer amount. Each non-employee director also received a stock grant with a fair market value of \$10,000 on the date of grant and stock options with a value of \$43,300 on the date of grant based on the Black-Scholes pricing model. The fiscal 2003 date of grant was the date the director became a member of the board. In the future, it is contemplated that the stock portion of the non-employee directors' annual compensation will be paid on the date of the annual meeting of shareholders. If a director is elected between annual meetings, the director will generally receive the stock portion of his or her compensation as of the date service begins. Cash retainer amounts will be prorated in these circumstances. Committee chairpersons receive an additional \$2,500 per year and directors receive \$1,500 for each board or committee meeting attended. The company reimburses all directors for travel and other necessary business expenses incurred in the performance of their services to the company and extends coverage to them under the company's health insurance policies.

**Deferred Compensation Plan.** Directors may elect to defer receipt of both the cash and stock portions of their annual retainers under the company's deferred compensation plan.

**Stock Incentive Plan.** The company pays the stock portion, including options, of each non-employee director's compensation under the CarMax, Inc. 2002 Non-Employee Directors Stock Incentive Plan.

# AUDIT COMMITTEE REPORT AND AUDITOR INFORMATION

## Audit Committee Report

Our committee operates under a written charter adopted by the board. The charter, which is attached to this proxy statement as Appendix A, incorporates the effective requirements of the Sarbanes-Oxley Act of 2002, the SEC and the NYSE. We are reviewing the latest audit committee requirements adopted April 9, 2003, by the SEC for NYSE companies and believe we are already in compliance with most of them. We expect to be in full compliance with the new requirements well before their 2004 effective date.

We review and discuss the following with management and the company's independent auditors:

- Quarterly and year-end results, consolidated financial statements and reports prior to public disclosure;
- The company's disclosure controls and procedures, including internal controls; and
- The independence of the auditors.

We meet with the internal and independent auditors, with and without management present, whenever appropriate.

We note for shareholders that our committee has oversight responsibilities only and that we are not acting as experts in accounting or auditing. We rely without independent verification on the information provided to us and on the representations made by management and the independent auditors. Accordingly, our committee's oversight does not provide an independent basis to determine that the company's consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America or that the audit of the company's consolidated financial statements by the independent auditors has been carried out in accordance with auditing standards generally accepted in the United States of America.

Management has represented that the company's consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States of America. We reviewed and discussed the audited consolidated financial statements with management and the independent auditors. In

accordance with the requirements established by the Statement on Auditing Standards No. 61, *Communication with Audit Committees*, this discussion included a review of significant accounting estimates and controls and the quality of the company's accounting practices.

We have received written disclosures and a letter from the independent auditors required by Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*, and have discussed with the independent auditors and considered among ourselves the issue of their independence from the company, including whether their performance of non-audit services is compatible with maintaining their independence.

## Fiscal Year 2003 Consolidated Financial Statements

Relying on these reviews and discussions, we recommended to the board of directors that the audited consolidated financial statements be included in the company's Annual Report on Form 10-K for the fiscal year ended February 28, 2003, for filing with the SEC.

## Independent Auditors for 2004

KPMG LLP ("KPMG"), independent certified public accountants, served as the company's independent auditors for the fiscal year ended February 28, 2003. Our committee has retained KPMG as the company's independent auditors for fiscal year 2004. Retaining KPMG for any non-audit services will require prior approval by our committee.

# COMPENSATION AND PERSONNEL COMMITTEE REPORT

## Compensation Philosophy

The company targets total compensation opportunities that are competitive with executives of similar responsibility at other retailers. Company performance dictates whether executives can earn above or below that level. The committee believes that the use of company-wide performance in setting goals promotes a unified vision for senior management and creates common motivation among the executives. Short- and long-term incentive opportunities are tied to the company's financial performance and stock price performance.

## Compensation Program

The company's executive compensation program consists of three key elements:

- Base salary
- Annual incentives
- Long-term incentives

In assessing the effectiveness and competitiveness of the company's executive compensation structure, the committee regularly reviews compensation practices of other retailers, with the assistance of the outside executive compensation consultant. This comparison group of retailers represents not only firms that compete in the company's industry, but also those with which the company competes for talent.

In making compensation decisions for officers other than the CEO, the committee takes under advisement the recommendations of the CEO in addition to external competitive benchmarks. The committee makes compensation decisions taking into account internal and external factors.

## Base Salary

The committee annually reviews and establishes salaries for executive officers. The committee evaluates recommendations based on individual performance results, future potential as a key executive, scope of responsibilities and experience, the company's financial performance for the prior year and competitive benchmarking.

## Annual Incentives

The Annual Performance-Based Bonus Plan ("Bonus Plan") is designed to motivate and reward executive officers that are in a position to materially contribute to the success of CarMax. Competitive target award opportunities are established for each executive. Individuals may earn awards above or below their target based on performance versus goals.

The Bonus Plan permits the committee to establish annual performance goals based on pretax earnings, earnings per share, or both. At the end of the year, the committee certifies in writing the performance level achieved. Annual performance goals are established with the purpose of fostering long-term superior performance against competitors.

For fiscal 2003, award opportunities for executive officers were based solely on performance against pretax earnings goals. The company did not meet the pretax earnings goals for the year but did come sufficiently close so that partial bonuses were earned.

## Long-Term Incentives

Equity compensation opportunities are provided through stock option grants and comprise a significant portion of total compensation. The committee administers the equity program within the total number of shares authorized by stockholders for compensation purposes and with the goal of providing competitive total compensation opportunities. The committee considers equity grants as an important tool for ensuring key executives have ongoing incentive to increase the company's return to shareholders. Equity grants also aid in retention of key executives with future leadership potential.

Fiscal 2003 stock options generally vest and become exercisable ratably over the four-year period following grant. Grant guidelines are set annually based on an assessment of competitive practices. Annual award sizes are determined annually based on an assessment of the guidelines for each position, scope of responsibility, individual performance and long-term potential.

## Chief Executive Officer Compensation

In fiscal 2003, the committee commissioned an independent executive compensation study to compare Mr. Ligon's pay opportunities against other publicly traded retailers. Based on the independent study results, Mr. Ligon's overall total compensation opportunities (base salary, plus target bonus, plus the economic value of stock option grants) for fiscal 2003 were somewhat below competitive levels.

With regard to the actual bonus earned based on fiscal 2003 performance, Mr. Ligon's amount was below target because pretax earnings goals were not achieved.

## Deductibility of Compensation

Section 162(m) of the Internal Revenue Code limits the company's tax deduction to \$1 million for compensation paid to executive officers listed in the Summary Compensation Table on page 16, unless the compensation qualifies as performance-based in accordance with specific guidelines. The company's policy is to comply with the requirements of Section 162(m). Accordingly, the company has taken appropriate actions to preserve full deductibility and has qualified the Bonus Plan and the 2002 Stock Incentive Plan as performance-based compensation.

In general, the company's policy is to preserve full deductibility of executive compensation. However, notwithstanding this general policy, the committee has the authority to authorize payments or equity grants that may not be fully deductible, if it believes the arrangements are in the best interests of both the company and its shareholders.

**8-Year History of Options.** The following table provides a historical perspective on the options which are now outstanding under the company's stock incentive plans. The options in the table were originally granted in Circuit City Stores, Inc.—CarMax Group Common Stock and were replaced by grants under the company's plans at the time of the separation of the company from Circuit City Stores on October 1, 2002. The purpose of providing this information is to inform CarMax, Inc. shareholders of the manner in which Circuit City Stores' compensation committee granted the predecessor options and the distribution of the currently outstanding options among the company's senior executives, other employees and non-employee directors. The company's Compensation and Personnel Committee will make future grants based on its own compensation philosophy, and the historical information should not be relied on as indicative of future actions. \* The number of shares outstanding has been calculated by adding the actual number of shares of CarMax Group Common Stock outstanding plus the number of shares that would have been outstanding if Circuit City Stores' retained interest in the CarMax Group had been represented as actual shares outstanding. For fiscal 1996, which predated the creation of the CarMax Group Common Stock, the number of shares outstanding has been calculated by adding the number of shares that were issued in the 1997 initial public offering of CarMax Group Common Stock plus the number of shares that would have been outstanding at the time of the public offering if Circuit City Stores' retained interest had been represented as actual shares outstanding.

\* For 2003, the Internal Revenue Code limit on annual retirement benefits that may be paid from the pension plan was \$160,000, and the limit on the amount of compensation that may be recognized by the pension plan was \$200,000. The maximum benefit payable under the Restoration Plan is \$400,000 in 2003. The benefits shown above have not been limited by these caps.

The Pension Plan covers employees who satisfy certain age and service requirements. Benefits are based on a designated percentage of the average of compensation for the five highest of the last 10 consecutive years of employment, weighted according to years of credited service and integrated with Social Security covered compensation. For pension plan purposes, compensation of participants includes base pay, bonuses, overtime and commissions and excludes amounts realized under any stock purchase plan or stock incentive plan. For pension plan purposes, compensation for those individuals listed in the Summary Compensation Table on page 16 is substantially the same as the amounts listed under the Salary and Bonus headings.

**Benefit Restoration Plan.** To maintain compensation competitiveness and to create a retirement program that restores benefits for the company's more senior executives who are affected by the Internal Revenue Code limits on benefits provided under the company's pension plan, the company maintains a retirement benefit restoration plan. Subject to an annual limit, the benefit restoration plan and the pension plan together provide benefits to all employees affected by the Internal Revenue Code limits at approximately the same percentage of compensation as for other employees. The named executive officers participate in this plan.

For purposes of the pension plans for CarMax, credited years of past and future service at age 65 will be 25 years for Mr. Ligon, 35 for Mr. Browning, 37 for Mr. Folliard, 17 for Mr. Dolan, and 30 for Mr. Kunkel.

## Other Executive Agreements and Arrangements

CarMax has employment agreements with each of its executive officers. Generally, these agreements provide for annual salary review and participation in CarMax's bonus, stock incentive and other employee benefits programs. These agreements, except for Mr. Ligon's

agreement, also provide for continuation of base salary for one year following termination by CarMax without cause, including a termination by the employee due to a reduction in base salary, significant reduction in responsibilities or a required job transfer to another market area. Except for Mr. Ligon, CarMax's salary continuation obligation will decrease by up to 50% if the individual secures alternative employment. Mr. Ligon's agreement provides for continuation of base salary, target bonus and continued participation in employee benefit plans for two years following termination without cause. In such circumstances, Mr. Ligon's agreement also provides that he will be paid any prorata bonus to which he would otherwise be entitled for that year. Mr. Ligon's salary continuation benefits extend for another year under the agreement if, following a change in control, Mr. Ligon is terminated, demoted or voluntarily terminates employment in the thirteenth month. Each agreement contains provisions confirming the employee's obligation to maintain the confidentiality of proprietary information and not to compete with CarMax for a specified period after the termination of his employment (two years for Mr. Ligon, one year for the other named executive officers) or solicit CarMax employees for two years. The employment agreements with the executive officers became effective as follows: Mr. Ligon – 2002, Mr. Browning – 1996, Mr. Folliard – 1996, Mr. Dolan – 1996 and Mr. Kunkel – 1998.

## CARMAX, INC. AUDIT COMMITTEE CHARTER

### Purpose

The purpose of the Committee will be to:

- Assist in the Board's oversight of (i) the integrity of the Company's financial statements, (ii) the Company's compliance with legal and regulatory requirements, (iii) the independent auditor's qualifications and independence and (iv) the performance of the Company's internal audit function and independent auditor; and
- Prepare the Committee report to be included in the Company's proxy statement in accordance with applicable rules and regulations.

### Role of the Audit Committee

This charter assigns oversight responsibilities to the Audit Committee. Management is responsible for the preparation, presentation and integrity of the Company's financial statements; accounting and financial reporting principles; internal controls; and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The independent auditor is responsible for performing an independent audit of the consolidated financial statements in accordance with generally accepted auditing standards.

The members of the Committee are not acting as experts in accounting or auditing and rely without independent verification on the information provided to them and on the representations made by management and the independent auditor. Accordingly, the Committee's oversight does not provide an independent basis to determine that the Company's financial statements have been prepared in accordance with generally accepted accounting principles or that the audit of the Company's financial statements by the independent auditor has been carried out in accordance with generally accepted auditing standards.

### Membership and Qualifications

The Audit Committee is a committee of the Board of Directors and will regularly report on actions taken by it

to the full Board. The Nominating and Governance Committee will recommend for election by the full Board the members and Chair of the Committee, who shall serve at the pleasure of the Board.

The Committee shall consist of at least three members. All Committee members must meet the applicable independence requirements of the New York Stock Exchange. In addition, (i) directors' fees (including Committee fees) are the only compensation a Committee member may receive from the Company; (ii) no Committee member may be an "affiliated person" of the Company or any of its subsidiaries; (iii) members of the Committee and its Chair must meet the experience and financial literacy requirements of the New York Stock Exchange; (iv) at least one member of the Committee must have accounting or related financial management expertise, as the Board interprets such qualifications in its business judgment; and (v) if a Committee member simultaneously serves on the audit committee of more than three public companies, the Board must determine that such simultaneous service would not impair the member's ability to serve on the Committee and must disclose this determination in the annual proxy statement. With respect to sub-paragraph (i) above, in recognition of the substantial workload of the Audit Committee required to ensure compliance with the Sarbanes-Oxley Act, as well as related rules and regulations promulgated by the Securities and Exchange Commission and the New York Stock Exchange, members of the Audit Committee shall be given consideration by the Compensation and Personnel Committee to receive an increased Director's fee as recommended by the Compensation and Personnel Committee and approved by the Board.

### Authority and Organization

The Committee may delegate any of its functions to a subcommittee or its Chair, provided that any decisions approving non-audit engagements are presented to the full Committee at its next meeting.

The Committee is authorized to obtain advice and assistance, as it believes necessary from corporate personnel and from external legal, accounting and other

advisors. The Company shall pay for the independent auditor, as well as any advisors retained by the Committee.

The Committee will establish, with the assistance of management and the internal auditor, a calendar incorporating regular reporting items it requires from independent auditors, the internal auditor and management during the year.

## Duties and Responsibilities

The Committee will have the following duties and responsibilities:

### Oversight of the Independent Auditor

1. Retain and terminate the Company's independent auditor (subject, if applicable, to shareholder ratification). The independent auditor shall report directly to the Committee.
2. Pre-approve all audit engagement fees and terms and all non-audit engagements with the independent auditor.
3. On an annual basis, obtain and review a report by the independent auditor describing: (i) all relationships the independent auditor has with the Company, including any management consulting services and related fees provided to the independent auditor (so that the Committee may assess the independent auditor's independence); (ii) the firm's internal quality-control procedures; and (iii) any material issues raised by the most recent internal quality-control review, or peer review, of the firm, or by any inquiry or investigation by governmental or professional authorities within the preceding five years respecting one or more independent audits carried out by the independent audit firm, and any steps taken to deal with any such issues. In connection with its evaluation of the independent auditor, the Committee should, in addition to assuring the regular rotation of the lead audit partner as required by law, consider whether, in order to assure continuing auditor independence, there should be regular rotation of the independent audit firm itself.
4. Review with the independent auditor any audit problems or difficulties and management's response. This review must include any restrictions on the scope of the independent auditor's activities or on access to requested information and discussion of any disagreements with management. It should also include accounting adjustments proposed by the independent auditor but not adopted; communications between the audit team and the audit firm's national office with regard to auditing or accounting issues presented by the engagement; and any management or internal control letter issued or proposed to be issued by the independent auditor.
5. Receive any reports from the independent auditor under the provisions of Section 10A of the Securities Exchange Act of 1934, as amended, relating to a determination by the independent auditor upon audit that an illegal act has or may have occurred, and review with management and recommend to the Board appropriate remedial action to be taken by the Company.
6. Establish hiring policies with respect to employees or former employees of the independent auditor.
7. Review legal and regulatory matters that may have a material impact on the Company's financial statements and related corporate compliance programs and policies. As part of this review, the Committee will receive regular reports from the Company's counsel on significant litigation in which the Company is involved and the anticipated impact of such litigation.

### Oversight of Internal Audit Function

8. Consider, in consultation with the independent auditor, the internal auditor and the chief financial officer, the audit scope and plan of the independent auditor and the internal auditor.
9. Review with the independent auditor, the internal auditor and the chief financial officer the coordination of the audit effort with respect to

completeness of coverage, reduction of redundant efforts, and the effective use of audit resources.

10. Discuss with management and the independent auditor the responsibilities, budget and staffing of the internal audit function.
11. Review the appointment and replacement of the senior internal auditing executive. The senior internal auditing executive shall report directly to the Committee.
12. Review significant reports to management prepared by the internal auditing department and management's responses.

#### **Financial Statements, Periodic Reports and Disclosure Matters**

13. Prepare the Committee's report to be included in the proxy statement and the Company's response to any comments of the Securities and Exchange Commission on the report.
14. Review and discuss with management and the independent auditor the Company's annual and quarterly financial statements, including the Company's critical accounting estimates underlying the financial statements and other disclosures discussed in "Management's Discussion and Analysis of Financial Condition and Results of Operation"; the effect of regulatory and accounting initiatives and any off-balance sheet structures on the Company's financial statements; and any certification, report, opinion or review rendered by the independent auditor.
15. Resolve any disagreements between management and the independent auditors regarding financial reporting.
16. Discuss with management and the independent auditor the Company's earnings press releases before their release. In addition, discuss the types of financial information and earnings guidance provided to analysts and rating agencies. In connection with these discussions, management should identify and explain the use of any "pro

forma" or "adjusted" information presented on a basis other than that prescribed by generally accepted accounting principles.

17. Discuss with management and the independent auditor significant risks or exposures that the Company may have and the steps management has taken to monitor and control such risks or exposures.
18. Review and discuss with management and the independent auditor: (i) major issues regarding accounting principles and financial statement presentation, including any significant changes in the Company's selection or application of accounting principles or adoption of new accounting principles; (ii) major issues as to the adequacy of the Company's internal controls and any special audit steps adopted in light of material control deficiencies; and (iii) analyses prepared by management and/or the independent auditor setting forth significant financial reporting issues and judgments made in connection the preparation of the financial statements, including analyses prepared by management and the independent auditor of the effects of applying alternative accounting principles on the financial statements.
19. Review and discuss a quarterly report from the independent auditor concerning all alternative treatments of financial information within GAAP that have been discussed with management, ramifications of the use of such alternative disclosures and treatments, and the treatment preferred by the independent auditor.
20. Review disclosures made to the Committee by the CEO and CFO during the certification process for the 10-K and 10-Q and any fraud involving management or other employees with internal controls responsibilities.

#### **Meetings**

21. Periodically consult with the independent auditor, outside the presence of management, about internal controls and the quality of the Company's financial statements.

22. Meet separately, at least quarterly, with each of management, the internal auditor, and the independent auditor to review the integrity of the Company's financial reporting processes, both internal and external.

**Other**

23. Establish procedures for: (i) the receipt, retention and treatment of complaints received by the Company regarding accounting, internal accounting controls or auditing matters, and (ii) the confidential, anonymous submission by employees of the Company of concerns regarding questionable accounting or auditing matters.
24. Review, and have power to approve or disapprove, any request for a waiver of the Company's Code of Conduct involving an executive officer or director.
25. Perform such other functions as may be assigned by the Board of Directors or as specified in policies adopted or approved by the Board of Directors, including without limitation, receipt of reports regarding any violations of the Code of Conduct relating to accounting, financial reporting or internal controls.
26. Evaluate the Committee's own performance annually and report the results of the evaluation to the Board.
27. Review this charter at least annually and update as necessary (with any amendments subject to approval by the Board).
