

Economic Profit (Unaudited) <sup>(1)</sup>

Reconciliation schedule of earnings from continuing operations before income taxes to economic profit (EP)

Dollars in millions and all calculations on a rounded basis

	FY07	FY06
<b>Earnings from continuing operations before income taxes</b>	<b>\$743</b>	<b>\$653</b>
Non-cash restructuring and asset impairment costs <sup>(2)</sup>	4	0
Interest expense <sup>(3)</sup>	113	127
Earnings from continuing operations before income taxes, non-cash restructuring and asset impairment costs, and interest expense	<u>\$860</u>	<u>\$780</u>
<b>Adjusted after tax profit <sup>(4)</sup></b>	<b><u>\$574</u></b>	<b><u>\$530</u></b>
Average capital employed <sup>(5)</sup>	<u>\$2,165</u>	<u>\$2,024</u>
<b>Capital charge <sup>(6)</sup></b>	<b><u>195</u></b>	<b><u>182</u></b>
<b>Economic profit <sup>(7)</sup> (Adjusted after tax profit less capital charge)</b>	<b><u>\$379</u></b>	<b><u>\$348</u></b>
% increase over prior year	+8.9%	

- (1) In accordance with SEC's Regulation G, this schedule provides the definition of a non-GAAP measure and the reconciliation to the most closely related GAAP measure. Management believes the presentation of economic profit (EP) provides additional information to investors about current trends in the business. EP is used by management to evaluate business performance and will be taken into account in determining management's incentive compensation and the Company's contribution to employee profit sharing plans in fiscal year 2008. EP represents profit generated over and above the cost of paying for assets used by the business to generate that profit.
- (2) Non-cash restructuring and asset impairment costs are added back to earnings and adjusted capital employed to more closely reflect cash earnings and the total capital investment used to generate those earnings.
- (3) Interest expense is added back to earnings because it is included as a component of the capital charge.
- (4) Adjusted after tax profit represents earnings from continuing operations before income taxes, non-cash restructuring and asset impairment costs, and interest expense, after tax. The tax rate applied is the effective tax rate on continuing operations which was 33.2% and 32.1% in fiscal years 2007 and 2006, respectively.
- (5) Total capital employed represents total assets less non-interest bearing liabilities. Adjusted capital employed represents total capital employed adjusted to add back non-cash restructuring and asset impairment costs. Average capital employed represents a two-point average of adjusted capital employed for the current year and total capital employed for the prior year, based on year-end balances. See below for details of the average capital employed calculation:

	FY07	FY06	FY05
Total assets	<u>\$3,666</u>	<u>\$3,616</u>	<u>\$3,617</u>
Less:			
Accounts payable	329	329	347
Accrued liabilities	507	474	614
Income taxes payable	17	19	26
Other liabilities	516	547	618
Deferred income taxes	90	129	82
Non-interest bearing liabilities	<u>1,459</u>	<u>1,498</u>	<u>1,687</u>
<b>Total capital employed</b>	<b><u>2,207</u></b>	<b><u>2,118</u></b>	<b><u>\$1,930</u></b>
Non-cash restructuring and asset impairment costs	4	0	
<b>Adjusted capital employed</b>	<b><u>\$2,211</u></b>	<b><u>\$2,118</u></b>	
<b>Average capital employed</b>	<b><u>\$2,165</u></b>	<b><u>\$2,024</u></b>	

- (6) Capital charge represents average capital employed multiplied by the weighted-average cost of capital. Weighted-average cost of capital is the blended average of the cost of the Company's debt and equity capital. The weighted-average cost of capital used to calculate capital charge was 9% for both fiscal years 2007 and 2006.
- (7) EP represents earnings from continuing operations before income taxes, non-cash restructuring and asset impairment costs, and interest expense, after tax, less a capital charge (as defined above).
