${ }^{(1)}$ Percentages based on rounded numbers.
${ }^{(2)}$ As a result of the Auto Businesses' results being included in discontinued operations in the three and nine months ended March 31, 2011, the prior comparative period has been reclassified to conform with the current period presentation.
${ }^{(3)}$ The earnings/(losses) from continuing operations before income taxes for the nine months ended March 31, 2011 for the Lifestyle segment includes a $\$ 258$ noncash goodwill impairment charge recognized in the fiscal 2011 second quarter for the Burt's Bees business.
${ }^{(4)}$ The decrease in corporate losses for the three and nine months ended March 31, 2011, as compared to the three and nine months ended March 31, 2010, is primarily due to lower employee compensation costs, gains on low-income housing properties and lower interest expense, primarily due to a decline in average debt balances. These factors were partially offset by the incremental investments for information technology projects.
