Compensation and Incentives Committee

Summary of Responsibilities. The Compensation and Incentives Committee (the "Compensation Committee"), which held six (6) meetings in 2012, is responsible for (i) overseeing the Company's overall compensation program and philosophy, (ii) reviewing and approving the compensation of the Chief Executive Officer and senior management of the Company, (iii) administering the Company's short- and long-term incentive plans and other stock or stock-based plans, (iv) overseeing the Company's executive compensation disclosure and issuing the Compensation Committee's report as required by the applicable rules and regulations governing the Company's annual proxy statement, (v) reviewing and making recommendations to the Board regarding director compensation, and (vi) overseeing the Company's various benefit plans. For a complete description of the Compensation Committee's power, duties and responsibilities, see the charter of the Compensation Committee which may be found on the Company's website at www.dennys.com.

Process for Determination of Executive and Director Compensation. Executive compensation is determined by the Compensation Committee pursuant to the authority granted to it by the Board. Director compensation is determined by the Board upon recommendation by the Compensation Committee. The Compensation Committee has engaged independent consultant Towers Watson and considered data and analysis prepared by this consultant regarding competitive pay practices among the Company's peer group and restaurant industry to determine the appropriate level of director and executive officer compensation. The Compensation Committee has assessed the independence of Towers Watson in their capacity as the compensation consultant to

the Compensation Committee pursuant to SEC rules and concluded that no conflict of interest exists that would prevent Towers Watson from independently representing the Compensation Committee. Additionally, the Compensation Committee considered the recommendation of the Chief Executive Officer of Denny's Corporation (the "CEO") with respect to compensation levels of executive officers other than the CEO.

When making compensation decisions, the Compensation Committee annually analyzes tally sheets prepared for each of the named executive officers. These tally sheets were prepared by our human resources department and Towers Watson. Each of these tally sheets presents the dollar amount of each component of the named executive officers' compensation, including current cash compensation (base salary and bonus), accumulated deferred compensation balances, outstanding equity awards, retirement benefits, perquisites and any other compensation. These tally sheets reflect the annual compensation for the named executive officers (both target and actual), as well as the potential payments under selected performance, termination, and change-in-control scenarios.

The overall purpose of these tally sheets is to bring together, in one place, all of the elements of actual and potential future compensation of our named executive officers, as well as information about wealth accumulation, so that the Compensation Committee may analyze both the individual elements of compensation (including the compensation mix) as well as the aggregate total amount of actual and projected compensation. For additional information regarding the process and procedures for determining executive and director compensation, see the "Executive Compensation – Compensation Discussion and Analysis" section elsewhere in this Proxy Statement.

Compensation Risk Assessment. For 2012, a group of senior management from various departments of the Company completed a process by which an assessment was made of the level and materiality of identified risks associated with the Company's compensation practices and policies for its employees. This assessment was under the direction of the Compensation Committee and resulted in the assessment's findings being reviewed and discussed with the committee. Specifically, this group assessed the Company's incentive plans against a set of indicators that included pay mix, performance metrics, target setting/pay determination and governance/administration. Based on this assessment, the Compensation Committee determined that the risks arising from the Company's compensation practices and policies are not reasonably likely to have a material adverse impact on the Company.

Compensation Committee Interlocks and Insider Participation. The following persons served as members of the Compensation Committee during the fiscal year ended December 26, 2012: Gregg R. Dedrick, Donald C. Robinson, Louis P. Neeb and Debra Smithart-Oglesby. Other than Ms. Smithart-Oglesby, who served as our Interim Chief Executive Officer from June 8, 2010 until January 31, 2011, none of the members of the Compensation Committee were officers or employees of the Company during 2012 or anytime prior thereto. During 2012, none of the members of the Compensation Committee had any relationship, directly or indirectly, with the Company requiring disclosure under Item 404 of Regulation S-K, and none of our executive officers served on the compensation committee (or equivalent) or the board of directors of another entity whose executive officers served on our Board or Compensation Committee.

Compensation Committee Report. The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis section of this Proxy Statement and based on this review and discussion, the Compensation Committee has recommended to the Board that the "Executive Compensation – Compensation Discussion and Analysis" section be included in the Company's Annual Report on Form 10-K for the year ended December 26, 2012 and in this Proxy Statement.

The Company’s Corporate Governance Policy is posted on the Company’s website at www.dennys.com.

Director Nominations Policy and Process. The Governance Committee will consider director-nominees recommended by stockholders. The Governance Committee did not receive any stockholder director-nominee recommendations by December 6, 2012 (120th day before the first anniversary of the date of release of the 2012 Proxy Statement).

In addition, in accordance with the Company’s Bylaws, stockholders may directly nominate persons for election to the Board of Directors at an annual meeting. Such nominations must be sent by written notice to the Secretary of Denny’s Corporation at the corporate address set forth above and must comply with the applicable timeliness and information requirements of the Company’s Bylaws. Please see the “Other Matters – 2013 Stockholder Proposals” section elsewhere in the Proxy Statement for more information. The Company’s Bylaws were amended on November 12, 2008, to, among other things, clarify and present in greater detail the requirements for stockholders to nominate directors or present other items of business at an annual meeting.

The Governance Committee believes that a nominee recommended for a position on the Board must meet the following minimum qualifications:

The Governance Committee will evaluate a potential nominee by considering whether the potential nominee meets the minimum qualifications identified by the committee, as well as considering the following factors:

- whether the potential nominee has leadership, strategic, or policy setting experience in a complex organization, including any scientific, governmental, educational, or other non-profit organization;
- whether the potential nominee has experience and expertise that is relevant to the Company's business including any specialized business experience, technical expertise, or other specialized skills, and whether the potential nominee has knowledge regarding issues affecting the Company;

- any factor affecting the ability or willingness of the potential nominee to devote sufficient time to the Board's activities and to enhance his or her understanding of the Company's business; and
- how the potential nominee would contribute to diversity, with a view toward the needs of the Board.

The manner in which the Governance Committee evaluates a potential nominee will not differ based on whether the potential nominee is recommended by a stockholder.

Additionally, with respect to an incumbent director whom the Governance Committee is considering as a potential nominee for re-election, the committee will review and consider the incumbent director's service during his or her term, including the number of meetings attended, level of participation, and overall contribution to the Company.

The Company paid fees in 2012 to a professional search firm to help identify and evaluate potential nominees for director.

Board Diversity. The Governance Committee and Board are committed to a diversified membership, with a particular emphasis on individuals who satisfy the factors outlined above and individuals with a wide variety of management, operating, and restaurant experience and skills, in addition to other attributes such as race, gender and national origin. The Governance Committee continually looks for opportunities to develop its diversity initiatives further.

Board Leadership Structure and Risk Oversight

Over the past twelve years, the Company has separated the positions of CEO and Board Chair and has appointed an independent Board Chair. During a seven-month period (June 2010 – January 2011), Ms. Smithart-Oglesby, in addition to her role as Board Chair, also held the position of Interim CEO while the Company conducted the hiring process for a permanent CEO. At the conclusion of that seven-month period, and with the hiring of Mr. Miller as the Company's CEO, the two positions were again separated. Ms. Smithart-Oglesby now serves solely as Board Chair. The Company believes having a separate CEO and Board Chair is an important part of its overall commitment to the highest standards of corporate governance and believes that it allows the Board to effectively develop and oversee its business strategy and monitor risk. The separate positions also allow the Board to freely perform its management oversight function. Additionally, each member of the Board, with the exception of Messrs. Miller and Wolfinger, is independent under the applicable standards. It is the Board's policy to appoint a Lead Director during any time when the Board Chair position is not held by an independent director. Consequently, during the seven-month period referenced above, Mr. Neeb, as an independent director, was appointed by the Board to serve as the Lead Director. As Lead Director, Mr. Neeb's responsibilities included (i) regularly meeting (by phone or in person) with the Interim CEO to discuss the financial and operational status of the Company, (ii) staying abreast of Company issues in greater depth than required of other Board members in order to assist, if necessary, during the period of transition of Company leadership, and (iii) leading periodic executive sessions of the independent Board members.

The Board has the ultimate responsibility for risk management. However, the Board has delegated the responsibility of risk assessment and risk management to the Audit Committee. Periodically, with the assistance of management, the Audit Committee undertakes an extensive Company-wide risk assessment. This extensive risk assessment identifies the main strategic, operational and financial risks the Company is facing based on its strategic objectives. The assessment also identifies the steps that management is or should be taking to address and mitigate exposure to such risks, and the Audit Committee will periodically receive reports from management regarding the steps that management is taking to address and mitigate such risks.

Board Meeting Information

During 2012, there were six (6) meetings of the Board. Each director serving on the Board in 2012 attended at least 75% of the meetings of the Board (and, as applicable, committees thereof) during the year.

Communications Between Security Holders and Board of Directors

The process for security holders of Denny's Corporation to send communications to the Board is as follows. Security holders may send written communications to the Board or any one or more of the individual members of the Board by directing such communication to the Secretary of Denny's Corporation by mail in the care of the Secretary, at our principal executive offices, or by e-mail to smelton@dennys.com. All written communications will be compiled by the Secretary and promptly submitted to the individual directors being addressed or to the Chair of the committee whose areas of responsibility includes the specific topic addressed by such communication, or in all other cases, to the Board Chair.

Board Member Attendance at Annual Meetings of Stockholders

It is the policy of Denny's Corporation that all of the members of the Board and all nominees for election to the Board at the annual meeting of stockholders attend such meeting except in cases of extraordinary circumstances. All current directors attended last year's annual meeting of stockholders, with the exception of José M. Gutiérrez, who was appointed on January 23, 2013.

Director Compensation

For a description of the compensation of directors, please see "Executive Compensation – Director Compensation Table" elsewhere in this Proxy Statement.

THE BOARD UNANIMOUSLY RECOMMENDS A VOTE "FOR" EACH OF THE ELEVEN NOMINEES TO THE BOARD OF DIRECTORS OF DENNY'S CORPORATION.

SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

As a result of the adoption of the Sarbanes-Oxley Act of 2002, and related regulations adopted by the SEC, and by each national securities exchange, audit committees of public companies are formally charged with the responsibility for the appointment, compensation, retention and oversight of the independent registered public accounting firm that serves as the Company's independent auditor. The Audit Committee takes this responsibility very seriously and for the year 2013, the Audit Committee has selected KPMG as the independent registered public accounting firm of the Company. This selection is submitted for ratification of and approval by the stockholders at the Annual Meeting. Representatives of KPMG are expected to attend the Annual Meeting. They will have an opportunity to make a statement, if they so desire, and to respond to appropriate questions. If the stockholders do not ratify this selection, other independent registered public accounting firms will be considered by the Audit Committee.

2012 and 2011 Audit Information

KPMG served as the Company's independent registered public accounting firm to audit the Company's financial statements for the fiscal years December 28, 2011 and December 26, 2012. The fees billed in the fiscal years ended December 28, 2011 and December 26, 2012 for KPMG's services to the Company were:

| | <u>Year ended December 28, 2011</u> | <u>Year ended December 26, 2012</u> |
|--------------------------|---|---|
| Audit Fees | \$590,000 | \$633,000(1) |
| Audit-Related Fees | 45,000 | 45,000 |
| Tax Fees | — | — |
| All Other Fees | — | — |
| Total Fees | <u>\$635,000</u> | <u>\$678,000</u> |

(1) \$43,000 of this amount represents additional audit billing related to the 2011 audit.

In the above table, in accordance with applicable SEC rules:

- "audit fees" are fees billed by the independent registered public accounting firm for professional services for the audit of the annual Consolidated Financial Statements included in the Company's Form 10-K and review of the Condensed Consolidated Financial Statements included in the Company's Form 10-Qs, and for services that are normally provided by the independent registered public accounting firm in connection with statutory and regulatory filings or engagements, including

comfort letters, consents, registration statements, statutory audits and reports on internal controls required by the Sarbanes Oxley Act of 2002;

- “audit-related fees” are fees billed by the independent registered public accounting firm for assurance and related services that are reasonably related to the performance of the audit or review of the financial statements, and generally include fees for audits of the Company’s employee benefit plans and audit or attest services not required by statute or regulation;
- “tax fees” are fees billed by the independent registered public accounting firm for professional services for tax compliance, tax advice, and tax planning; and
- “all other fees” are fees billed by the independent registered public accounting firm to the Company for any services not included in the first three categories above.

The Audit Committee has considered and determined that the services for which audit-related and tax fees were billed were compatible with KPMG maintaining its independence.

Audit Committee’s Pre-approval Policies and Procedures

It is the policy of the Audit Committee to pre-approve all audit and permitted non-audit services proposed to be performed by the Company’s independent registered public accounting firm. The process for such pre-approval is typically as follows. Audit Committee pre-approval is sought at one of the committee’s regularly scheduled meetings following the presentation of information at such meeting detailing the particular services proposed to be performed. Additionally, the Chair of the Audit Committee has been delegated the authority by the committee to pre-approve, where necessary, such services requiring pre-approval in between regularly scheduled committee meetings. The Chair will report any such decisions at the committee’s next scheduled meeting. In 2012, the services described above were pre-approved by the Audit Committee pursuant to policy of the Audit Committee, and none of such services were approved pursuant to the exception provided by Rule 2-01(c)(7)(i)(C) under Regulation S-X.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE “FOR” RATIFICATION AND APPROVAL OF THE SELECTION OF KPMG AS THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM OF THE COMPANY FOR THE YEAR 2013.

ADVISORY VOTE ON EXECUTIVE COMPENSATION

As required by Section 14A of the Exchange Act, the Company provides stockholders with the opportunity to vote to approve, on a non-binding advisory basis, the compensation of our named executive officers as disclosed in this Proxy Statement. This proposal, commonly referred to as a “say on pay” proposal, gives our stockholders the opportunity to express their views on the compensation of our named executive officers. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our named executive officers and our compensation program.

As described in further detail in “Executive Compensation – Compensation Discussion and Analysis,” our compensation program is designed to attract, motivate and retain top quality leadership talent while ensuring that their interests are aligned with the interests of our stockholders and that their efforts are focused on the Company’s key strategic objectives.

It is our firm belief that our executive compensation program, with its balance of annual cash incentives designed to reward the achievement of key performance goals set for the year and longer-term equity vehicles designed to reward executives for stock price performance over a longer term, compensates our executives for performance directly linked to stockholder value creation.

In addition, the Board of Directors has enacted a number of policies – including share ownership requirements, incentive clawbacks, the elimination of employment contracts and the elimination of tax gross-ups (except for certain limited gross-ups available to most salaried employees under the Company’s broad-based relocation policy) – which ensure that the Company’s practices are aligned with market-based best practices.

Stockholders are encouraged to read the “Compensation Discussion and Analysis” section of the Proxy Statement and the accompanying compensation tables and related narrative disclosure included in the “Executive Compensation” section of this Proxy Statement for more information regarding our compensation program.

We are asking stockholders to approve the compensation of our named executive officers as disclosed herein by adopting the following advisory resolution at the 2013 Annual Meeting:

“RESOLVED, that the compensation paid to the Company’s named executive officers, as disclosed in the Proxy Statement for the 2013 Annual Meeting of Stockholders pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative discussion, is hereby APPROVED.”

Although this vote is non-binding, the Board and the Compensation Committee will take into account the outcome of the vote when considering future executive compensation decisions.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE “FOR” THE RESOLUTION TO APPROVE THE COMPENSATION PAID TO THE COMPANY’S NAMED EXECUTIVE OFFICERS, AS DISCLOSED IN THIS PROXY STATEMENT PURSUANT TO ITEM 402 OF REGULATION S-K, INCLUDING THE COMPENSATION DISCUSSION AND ANALYSIS, COMPENSATION TABLES AND NARRATIVE DISCUSSION.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

This is an overview and analysis of the compensation objectives and policies for our executive officers and the material compensation decisions we made with respect to such officers for 2012. This information should be read in conjunction with the compensation tables, related narratives, and notes contained later in this Proxy Statement. This discussion focuses on the compensation awarded to, earned by, and paid to the following individuals, who were our named executive officers for 2012:

- John C. Miller, our President and Chief Executive Officer
- F. Mark Wolfinger, our Executive Vice President, Chief Administrative Officer and Chief Financial Officer
- Frances L. Allen, our Executive Vice President, Global Brand Strategy and Chief Marketing Officer
- Robert Rodriguez, our former Executive Vice President and Chief Operating Officer

Executive Summary

Our Business. We are the franchisor and operator of one of America's largest full-service restaurant chains. As of December 26, 2012, the Denny's brand consisted of 1,688 restaurants, 1,524 (90%) of which were franchised/licensed restaurants and 164 (10%) of which were Company operated.

2012 Performance Highlights. At the core of our compensation philosophy and strategy is the goal of compensating and rewarding our executives for performance that is aligned with the Company's strategic objectives and creating value for our stockholders. Our 2012 Company performance highlights include:

- System-wide same-store sales grew 1.3%, comprised of a 1.5% increase at franchised restaurants and a 0.2% increase at company restaurants, thus achieving, for the second consecutive year, positive franchise and company same-store sales.
- Opened 40 new system-wide restaurants, including six international locations, and refranchised 36 company restaurants, thus completing the Franchise Growth Initiative started in 2007 and achieving our target of operating approximately 10% of the Denny's system as company restaurants.
- Adjusted EBITDA(1) margin, as a percentage of total operating revenue, increased 0.8 percentage points to 16.0% compared with the prior year.
- Adjusted Income Before Taxes(1) grew 26.2% to \$47.0 million compared with the prior year.
- Generated \$48.8 million of Free Cash Flow(1) used primarily to reduce outstanding term loan debt by \$28.0 million and repurchase 4.8 million shares for \$22.2 million.

2012 Compensation to Our Executive Officers Reflects Our Performance. Performance goals were achieved at or above target levels under our 2012 Corporate Incentive Plan with respect to the following plan metrics: System-Wide Same-Store Sales, System-wide Guest Satisfaction, and Adjusted Income Before Taxes, resulting in above-target payouts to our named executive officers. Additionally, we believe our strong 2012 performance, highlighted above, is consistent with increases in our stock price during 2012 and over the past several years. The Company's total shareholder return (the sole metric utilized under our existing Long-Term Incentive ("LTI") programs) was in the 74th percentile compared to our peer group for the three-year period

⁽¹⁾ Please refer to the historical reconciliation of net income to Adjusted Income Before Taxes, Adjusted EBITDA, and Free Cash Flow which is attached to this Proxy Statement as Appendix A.

ending December 26, 2012, resulting in payouts for the LTI cycle ending in 2012 to Mr. Wolfinger, the sole named executive officer eligible for a LTI payout in 2012, of 129.9% of target amounts.

2012 Compensation Changes. Changes to our 2012 compensation structure, consistent with our capital allocation strategy over the longer-term, included an adjustment to the mix of awards under the 2012 LTI program resulting in the elimination of stock option awards. Thus, the 2012 LTI program consisted of a mix of 50% performance shares and 50% performance cash awards, all of which are contingent on our total shareholder return (“TSR”) relative to our industry peers. Additionally, the maximum payout under the 2012 LTI program was increased from 150% to 200% of target award levels.

Our Pay Governance Reflects Best Practices. Denny’s has been diligent listening to its stockholders and monitoring and adopting best practices in pay governance. Denny’s maintains the following compensation and pay governance best practices as integral parts of the Company’s compensation philosophy:

- Stock ownership guidelines for the Company’s executive officers and directors,
- Compensation clawback policy applicable to the Company’s executive officers and other key employees,
- A majority of named executive officer compensation is contingent on corporate performance,
- The elimination of all employment agreements for executive officers and other key employees,
- Anti-hedging policy that prohibits executive officers and directors from engaging in certain transactions such as puts, calls or other derivatives relating to the Company’s securities,
- Equity awards to newly hired executives include restricted stock units that vest based on stock price increases,
- Severance benefits following a change-in-control, including equity awards, have a “double-trigger” provision, which requires both a change in control and a qualifying termination within a specified period following the change in control,
- No special retirement benefits for executive officers other than participation (on the same basis as other employees) in a 401(k) plan or nonqualified deferred compensation plan,
- Elimination of all tax gross-ups, except for certain limited gross-ups available to most salaried employees pursuant to the Company’s broad-based relocation program.

Consideration of Last Year’s Advisory Stockholder Vote on Executive Compensation

At the annual meeting of stockholders on May 16, 2012, over 99% of the shares cast were voted to approve the compensation of the Company’s named executive officers, as discussed and disclosed in the 2012 Proxy Statement. The Board and the Compensation Committee appreciate and value the views of our stockholders. In considering the results of this advisory vote on executive compensation, the Committee concluded that the compensation paid to our executive officers and the Company’s overall pay practices have strong stockholder support.

In light of the strong stockholder support of the compensation paid to our executive officers as evidenced by the results of this advisory vote, the Compensation Committee has decided to retain our general approach to executive compensation and does not intend to make significant changes to our executive compensation programs for 2013. Going forward, future advisory votes on executive compensation will serve as an additional tool to guide the Committee in evaluating the alignment of the Company’s executive compensation programs with the interests of the Company and its stockholders.

At the 2011 annual meeting, our stockholders expressed a preference that advisory votes on executive compensation occur annually. Consistent with this preference, the Board determined to implement an advisory vote on executive compensation every year until the next required vote on the frequency of stockholder votes on the compensation of executive officers, which is scheduled to occur at the 2017 annual meeting.

Compensation Objective and Design

The Compensation Committee has developed compensation programs for the Company’s executive officers with guidance and analysis from its independent consultant, Towers Watson. The overall design objectives of our compensation programs are to attract, develop, motivate and retain top quality leadership talent while ensuring that their interests are aligned with the interests of our stockholders and that their efforts are focused on the Company’s key strategic objectives. When evaluating and designing compensation programs, the Committee reviews market survey data, proxy statements filed by our restaurant peer group companies, and industry compensation practices.

The Company’s reward strategy is designed to be integrated across different timeframes, performance metrics and types of payout. The goal is to reward executives for the achievement of performance goals that are directly linked to stockholder value creation. Our annual cash incentives are designed to reward the achievement of key Company performance targets set for the fiscal year. Longer-term equity vehicles reward executives for stock price performance relative to the Company’s restaurant peer group over a three-year period and are settled in both stock (performance shares) and cash (performance cash awards).

During 2012, executive officers were provided with a compensation package that included the following elements: (i) base salary, (ii) annual cash incentive opportunities (bonus), (iii) long-term equity incentives, and (iv) other benefits and limited perquisites. Each of these compensation elements is described and analyzed in further detail in the table below and the narrative that follows:

| Compensation Element | Description | Objectives/ Performance Linkage | Performance Time Horizon |
|--------------------------------|---|---|---|
| Base Salary | Fixed portion of cash compensation | Provide competitive compensation for day-to-day responsibilities and performance | Salary levels are based on individual performance sustained over a substantial period of time |
| Annual Cash Incentives (Bonus) | Cash payments based on the Company’s achievement of performance targets (for 2012, these included System-Wide Same-Store Sales, System-Wide Guest Satisfaction, and Adjusted Income Before Taxes) | Provide incentive to achieve key annual performance goals critical to the Company’s overall success | Payouts are based on annual Company performance |

| Compensation Element | Description | Objectives/Performance Linkage | Performance Time Horizon |
|---|---|--|---|
| Long-Term Incentive Compensation | Performance shares and target performance cash awards which vest based on the Company's total shareholder return (TSR) vs. peer companies' TSR | Directly align executive interests with the long-term success of the Company (as measured by stock price appreciation) and provide incentive for key leadership talent to remain with the Company | Performance grants vest over a 3-year period providing an aligned, long-term link to stock price performance |
| Benefits and Perquisites | Retirement, health and other benefits designed to provide financial safeguards to executives; perquisites such as telecom allowances that have a direct business use | Provide health care and financial security benefits to our executive officers similar to those provided to all our management employees; allow executives to focus on company business without incurring significant personal expense; provide market competitive package to recruit and retain executive talent | Most benefits are provided to all salaried employees on essentially the same terms, so there is no direct performance linkage |
| Discretionary Bonuses, Awards and Inducements | Typically paid in cash or restricted stock units (RSUs) to recognize individual performance or for inducement during hiring process. While there were no such awards made in 2012, two of our executive officers hold performance-based RSUs awarded as an inducement during the hiring process, that will vest and convert to stock upon the attainment of certain stock price levels. | Reward extraordinary performance and attract top executive talent while retaining executives through long-term vesting and potential wealth accumulation | Immediate recognition of extraordinary efforts leading to tangible and significant company outcomes |

Use of Market Data and Peer Groups

To assist in evaluating and determining competitive levels of compensation for the various elements of pay in 2012, the Compensation Committee reviewed and considered various sources of data which included:

- Published compensation surveys from the Chain Restaurant Total Rewards Association (covering the chain restaurant industry) and Towers Watson U.S. CDB General Industry Executive Database, which provide aggregated information on base salary, total cash compensation (base salary and bonus), and total direct compensation (base salary, bonus and long-term incentives) for various executive positions.
- Additional data on long-term incentive opportunities in the hospitality, restaurant and retail industries, for a general understanding of current compensation practices.
- Data from proxy statements collected and analyzed from a peer group of 22 restaurant companies operating in the family dining, casual and quick service segments. This restaurant peer group(1) consisted of the following companies:

| | | |
|---|------------------------------|---------------------------------|
| BJ's Restaurants, Inc. | DineEquity, Inc. | Papa John's International, Inc. |
| Bob Evans Farms, Inc. | Domino's Pizza, Inc. | P.F. Chang's China Bistro, Inc. |
| Brinker International, Inc. | Einstein Noah Restaurant | Red Robin Gourmet Burgers, Inc. |
| Buffalo Wild Wings, Inc. | Group, Inc. | Ruby Tuesday, Inc. |
| Caribou Coffee Company, Inc. | Jack in the Box, Inc. | Sonic Corporation |
| Chipotle Mexican Grill | Krispy Kreme Doughnuts, Inc. | Texas Roadhouse, Inc. |
| Cracker Barrel Old Country Store, Inc. | O'Charley's, Inc. | The Cheesecake Factory, Inc. |
| | Panera Bread Company | The Wendy's Company |

The Company strives to provide total pay opportunities that are within a competitive range relative to the median of our restaurant peer group and aligned with survey based data. Company incentive plans are designed to have significant differentiation in payouts based on performance. As a result, actual compensation payouts are intended to be market-appropriate given our performance for the applicable year or period. The Compensation Committee annually analyzes tally sheets for each executive officer (as further described in the "Compensation Committee" section elsewhere in this Proxy Statement). This review helps ensure that executive compensation decisions are aligned with stockholder interests, that termination provisions are appropriate and aligned with market practices, and that the value of executive share holdings and unvested incentives track changes in stockholder value.

Base Salary

How Amounts are Determined. In general, the Compensation Committee considers a variety of factors when setting base salaries for executive officers, including market salary information, experience, tenure with the Company, individual performance and internal pay equity. The Compensation Committee annually reviews the performance of executive officers and scope of responsibility to determine whether adjustments to base salaries are appropriate in light of individual and Company performance, as well as overall market conditions and proxy peer data.

Salary Adjustments for 2012. In early 2012, based upon a review of competitive market data, including salaries of CEOs among Denny's peer group, the Compensation Committee increased Mr. Miller's base salary from his initial annual salary of \$550,000 to \$650,000 in recognition of the Company's overall positive performance, positive trends in 2011 under Mr. Miller's leadership, and the below market positioning of his base salary. No other adjustments to the base salaries of other executive officers were made for 2012.

(1) The peer group above includes public restaurant companies which are similar to the Company in terms of revenue, system-wide sales, geographic coverage, and mix of franchised and corporate-owned stores. The Committee believes that this peer group presents an accurate picture of industry practices. We use data from the peer group to assess market practices for executive pay, the use and mix of pay devices, and perquisites and benefits.

In alignment with the Company’s pay-for-performance philosophy and in an effort to position Mr. Miller more competitively among his peers, the Committee again reviewed Mr. Miller’s salary and total direct compensation early in 2013 for further adjustment if supported by, and if consistent with, the Company’s pay philosophy and continued positive performance. As a result of this review, based upon continued positive trends and strong Company performance in 2012 (as highlighted on page 21) under Mr. Miller’s direction and leadership, and the continuing gap between his base salary and competitive market rates, the Compensation Committee increased Mr. Miller’s salary from \$650,000 to \$750,000 for 2013.

Annual Cash Incentives

2012 Corporate Incentive Plan

Overview. For the 2012 fiscal year, the Compensation Committee adopted the Denny’s 2012 Corporate Incentive Program (the “2012 CIP”), which provided our non-field management and staff, including each of our named executive officers, with an opportunity to earn an annual cash bonus based on the Company’s achievement of specified performance objectives. The performance metrics established under the 2012 CIP include System-Wide Same-Store Sales and Adjusted Income Before Taxes, which are the same two performance metrics that have been utilized under the 2009, 2010 and 2011 annual incentive bonus programs. Additionally for 2012, a System-Wide Guest Satisfaction metric was added to emphasize the importance of delivering a consistent positive guest experience in our restaurants. This metric tracks the achievement of overall guest satisfaction, as compiled by an independent customer experience research firm through surveys of Denny’s guests that rate the guest’s dining experience based on various service factors such as speed, taste, attentiveness, and restaurant atmosphere.

Target Incentive Opportunities. Under the 2012 CIP, a participant was eligible to earn a target incentive award (“Target Award”) equal to a percentage of his or her base salary, with the percentage varying depending on the participant’s position. Target Awards were determined for participants based upon a review of competitive market practices and internal equity, including published survey data and proxy information from our restaurant peer group. The Target Award for Mr. Miller was \$650,000, or 100% of his base salary. The Target Awards for Ms. Allen, Mr. Rodriguez and Mr. Wolfinger, were \$318,750, \$318,750 and \$367,500 respectively, or 75% of their respective base salaries.

Performance Goals for 2012 Incentives. As noted above, the payouts under the 2012 CIP are earned by participants based on the Company’s achievement of pre-established goals under three performance criteria: (i) System-Wide Same-Store Sales; (ii) System-Wide Guest Satisfaction; and (iii) Adjusted Income Before Taxes. The amount of actual bonus earned could range from 0% of the Target Award, if certain threshold goals are not met, to a maximum of 150% of the Target Award, if targeted goals are exceeded. The performance goals and the levels of associated payouts for 2012 were as follows:

| | At Threshold | | At Target | | At Maximum | |
|---------------------------------------|------------------|-----------|------------------|-----------|------------------|-----------|
| | Performance Goal | Payout(1) | Performance Goal | Payout(1) | Performance Goal | Payout(1) |
| <i>System-Wide</i> | | | | | | |
| Same-Store Sales | +0.1% | 15% | +1.0% | 30% | +5.0% | 55% |
| Guest Satisfaction(2) | N/A | N/A | Various | 20% | N/A | 20% |
| <i>Company</i> | | | | | | |
| Adjusted Income Before Taxes(3) | \$38.7m | 25% | \$ 43.0m | 50% | \$51.6m | 75% |
| Total(4) | | 40% | | 100% | | 150% |

(1) As a percentage of a participant’s Target Award.

(2) Performance goal based upon the achievement of the following targeted quarterly percentages of surveyed guests who express overall guest satisfaction: Q1 – 62.54%, Q2 – 63.19%, Q3 – 63.83%, and Q4 – 64.48%.

(3) Adjusted Income Before Taxes is a non-GAAP financial measure that is calculated by adjusting net income to exclude the impact of income taxes, operating gains and losses, non-operating income and share-based compensation.

(4) Actual results that fell between Threshold, Target, and Maximum performance levels were interpolated to compute payout amounts.

2012 Performance Results. Based upon actual 2012 performance results, (i) achievement of the performance goal relating to System-Wide Same Store Sales was slightly above target levels resulting in payouts of 31.90%; (ii) achievement of the performance goal relating to Adjusted Income Before Taxes was between target and maximum levels, resulting in a payout of 61.60% of each participant’s total Target Award; and (iii) the performance goal relating to Guest Satisfaction was fully achieved at the target level (there being no threshold or maximum levels for this metric), resulting in a 20.0% payout for 2012. As a result, a total payout of 113.50% of each individual’s total Target Award was earned for 2012.

Considering the above performance results as compared to the threshold and target levels of expected performance, the Compensation Committee approved incentive awards for the named executive officers equal to 113.50% of their respective Target Awards. The following two tables set forth (i) the actual results and related payout of each 2012 CIP metric, and (ii) the total target opportunity and annual target award, as well as, the actual payout to each of the named executive officers under the 2012 CIP.

| 2012 CIP Metric | Actual Results | Payout %(1) |
|---------------------------------|----------------|-------------|
| System-Wide Same Store Sales | +1.3% | 31.90% |
| System-Wide Guest Satisfaction | Various(3) | 20.00% |
| Adjusted Income Before Taxes(2) | \$ 47.0m | 61.60% |
| Total All Metrics | | 113.50% |

(1) As a percentage of participant’s annual Target Award

(2) Adjusted Income Before Taxes is a non-GAAP financial measure that is calculated by adjusting net income to exclude the impact of income taxes, operating gains and losses, non-operating income and share-based compensation.

(3) Each of the targeted quarterly percentages of surveyed guests who express overall guest satisfaction was achieved in 2012 with actual results as follows: Q1 – 63.20%, Q2 – 64.48%, Q3 – 65.75% and Q4 – 65.19%.

| Executive Officer | Target Opportunity(1) | Annual Target Award | Actual Payout |
|-------------------|-----------------------|---------------------|---------------|
| John C. Miller | 100% | \$650,000 | \$ 737,750 |
| F. Mark Wolfinger | 75% | \$367,500 | \$ 417,113 |
| Frances L. Allen | 75% | \$318,750 | \$ 361,781 |
| Robert Rodriguez | 75% | \$318,750 | — (2) |
| Total | | | \$1,516,644 |

(1) As a percentage of participant’s base salary.

(2) Mr. Rodriguez’s employment with the Company was terminated as of March 30, 2012. As a result, he did not receive a payout under the 2012 CIP. For information regarding payments to Mr. Rodriguez in connection with his employment, see the “Summary of Termination Payments and Benefits” section later in this Proxy Statement.

Long-Term Incentive Compensation

In General. A key component of the total compensation package of our executive officers is a long-term equity incentive program that is designed to meet the following objectives:

- (i) Reward long-term Company profitability and growth,
- (ii) Promote increased stockholder value and align our executives’ interests with the interests of our stockholders,
- (iii) Offer competitive awards aligned with market practice,
- (iv) Promote stock ownership among executives,
- (v) Encourage a long-term perspective among executive officers, and
- (vi) Provide an incentive for executives to remain with the Company.

Long-Term Incentive Design for 2012. For fiscal year 2012, the Compensation Committee approved a Long-Term Incentive (“LTI”) structure that supports the Company’s strategic business goals, aligns with the interests of stockholders, and improves the competitiveness of the Company’s total executive compensation package. The LTI program design was modified in 2012, consistent with our capital allocation strategy over the longer-term, through an adjustment to the mix of awards and the elimination of stock option awards. Thus, the 2012 LTI program consisted of a mix of 50% performance shares and 50% performance-based cash awards. Additionally, the maximum payout under the 2012 LTI program was increased from 150% to 200% of target award levels.

Fiscal Year 2012 Long-Term Incentive Grants. The Compensation Committee generally makes LTI grants to all eligible Denny’s employees, including named executive officers, in the first quarter of each fiscal year, usually at the first Compensation Committee meeting of the year. The annual LTI grants made at the beginning of 2012 to Company executives and other eligible employees were comprised of two elements: performance shares and performance cash awards. These two elements provide incentive for mid-term and long-term stockholder value creation in excess of peer company results, encourage executive retention, and promote stock ownership, while balancing share dilution and cash expenses.

Ms. Allen and Messrs. Miller, Rodriguez and Wolfinger were the named executive officers who received 2012 LTI program awards. For a description of LTI grants made to our named executive officers in 2012 see the “2012 Grants of Plan-Based Awards Table”.

Performance Shares and Performance Cash Awards. The 2012 annual LTI awards were comprised of performance shares and performance cash awards. The performance shares and performance cash awards will be earned based on the Company’s TSR over a three-year period relative to peer companies’ TSR performance, with no payout at all if relative TSR performance is below a threshold amount.

Under the program, participants were awarded an incentive opportunity denominated as a target number of performance shares and a target performance cash awards. Payouts of the 2012 LTI awards will be between 0% and 200% of the target awards based on the Company’s TSR ranking relative to the Company’s peer group (listed previously) over the three-year performance period beginning on December 29, 2011 and ending December 31, 2014 (the Company’s fiscal years 2012, 2013, and 2014). The performance shares and performance cash awards will be earned and vested at the end of the performance period based on TSR performance. The performance shares convert to and are settled in shares of Denny’s stock on a one-for-one basis. The performance cash awards are settled in cash. TSR, which combines share price appreciation and dividends paid to show a total return to the stockholder, will be calculated as follows:

$$\text{TSR} = (\text{ending stock price} - \text{beginning stock price} + \text{reinvested dividends}) / \text{beginning stock price}$$

Denny’s TSR performance ranking compared to its peer group at the end of the three-year performance period determines the payout level as shown below:

| | Denny’s TSR Performance Ranking vs. Peers | Payout as a % of Target(1) |
|-----------------------|--|---------------------------------------|
| Below Threshold | <25 th %ile | 0% |
| Threshold | 25 th %ile | 50% |
| Target | 50 th %ile | 100% |
| Maximum | 90 th %ile | 200% |

(1) Payouts are interpolated between payout levels.

Benefits and Perquisites

In General. Company executives are eligible to participate on the same basis as other salaried employees in health and welfare plans, qualified retirement and savings plans, and other benefit plans intended to provide a financial safety net of coverage for various significant life events, such as death, disability and retirement. Along with other members of the management team, the named executive officers also participate in a non-qualified savings plan intended to allow them to contribute to a retirement plan without regard to IRS limits on the amount of earned compensation that can be voluntarily deferred into a 401k retirement plan. The named executive officers also receive certain perquisites including telecommunication allowances, car allowances and reimbursement for executive physicals. These perquisites serve a business purpose, are limited in value and are consistent with those of restaurant companies and other companies of similar size.

Retirement and Savings Plans

Deferred Compensation Plan/401(k) Plan. Generally, all employees are eligible to participate in the Company's 401(k) Plan, but due to IRS limits, most executives are not eligible to receive the Company's matching contribution of up to three percent of compensation under the 401(k) Plan. Therefore, a non-qualified deferred compensation plan is offered to certain management level employees, including the named executive officers, to provide retirement benefits similar to those available to other Denny's employees. The deferred compensation plan lets participants: (i) defer up to 50% of salary and 100% of annual incentive bonus on a pre-tax basis, and (ii) receive a Company match up to three percent, which is the same match offered to all employees in the Company's 401(k) plan.

Post-Termination Payments

In General. All of our executive officers participate in the Denny's Corporation Executive Severance Pay Plan (the "Severance Plan"). The Severance Plan was adopted in January 2008 to provide severance payments and benefits to our executive officers in a consistent manner. In the event of a participant's employment termination without cause or for good reason (as such terms are defined in the Severance Plan), the Severance Plan provides for, among other items, salary continuation and health benefits for 12 months. Under the Severance Plan's change in control provisions, a participant is entitled to an enhanced severance payment plus health benefits for 24 months. Two events must take place – a change in control of the Company and a qualifying associated termination – before a participant is entitled to these enhanced benefits. Under the Severance Plan, no benefits are payable following a termination for cause or voluntary termination (resignation).

We provide involuntary termination severance benefits to protect individuals from events outside their control and to offer compensation packages similar to those commonly found in our market for competing executive talent. Furthermore, we provide enhanced benefits in the event of a change in control to protect against disruption during change in control activities. Potential benefits under the Severance Plan for Messrs. Miller and Wolfinger, and Ms. Allen are discussed further under the section entitled "Summary of Termination Payments and Benefits" later in this Proxy Statement.

Post-Termination Payments in 2012. Effective March 30, 2012, Mr. Rodriguez's employment with the Company ended, and we subsequently entered into a Confidential Settlement Agreement and Release of All Claims (the "Settlement Agreement") with Mr. Rodriguez. Pursuant to the Settlement Agreement, we paid Mr. Rodriguez a lump sum of \$433,618, consisting of a severance payment and an amount intended to reimburse Mr. Rodriguez on an after-tax basis for the cost of continued group health benefits for a period of 12 months, plus a separate payment in settlement of potential claims alleged by Mr. Rodriguez relating to his termination. For more information regarding the severance benefits paid to Mr. Rodriguez see the "Summary of Termination Payments and Benefits" section later in this Proxy Statement.

Tax Considerations

Section 162(m) of the Internal Revenue Code of 1986, as amended (the “Code”) places a limit of \$1 million on the amount of compensation that we may deduct in any year with respect to any one of our named executive officers. This limitation does not apply to compensation that meets the requirements under Section 162(m) for “qualified performance-based” compensation. The 2012 CIP and the 2012 LTI program were designed to meet the requirements of Section 162(m) and be fully deductible by the Company. The Compensation Committee intends to maximize deductibility of executive compensation while retaining some discretion to compensate executives in a manner commensurate with performance and the competitive landscape for executive talent. During the 2012 fiscal year, the compensation paid to each of the named executive officers was fully deductible by the Company.

Compensation and Corporate Governance Best Practices

Stock Ownership Guidelines. The Company has stock ownership guidelines for its directors and executive officers. The guidelines require that ownership levels for directors and executive officers shall be fixed share amounts equal to:

- (i) for directors and CEO – 3 X annual cash board retainer/base salary;
- (ii) for other executive officers – 2 X base salary.

The fixed share amount shall be determined based upon the closing price of the Company’s stock as of the effective date of these guidelines (January 25, 2011), or in the case of a newly hired or appointed executive officer or director, his or her starting date. Directors and executive officers have 3 years from the later of the effective date of the guidelines or an individual’s start date, as applicable, to acquire the designated amounts. Any executive or director who has not obtained the required level by the required time period will not be permitted to sell Company stock until the required level is obtained and maintained.

Compensation Clawback Policy. The Company has a compensation clawback policy for named executive officers and certain other senior officers that provides for the recoupment by the Company under certain circumstances of annual cash bonuses, stock-based awards, performance-based compensation, and any other forms of cash or equity compensation other than salary. In the event of a restatement of the Company’s previously issued financial statements as a result of an error, omission, fraud or non-compliance with financial reporting requirements (but not including any restatement or adjustment due to a change in applicable accounting principles, rules or interpretations), or a determination by the Compensation Committee that a material error was made in computing the amount of any incentive compensation, the Compensation Committee has discretion to direct the Company to recover from one or more current or former employees the incremental incentive compensation in excess of the incentive compensation that would have been earned, paid or vested based on the related or adjusted financial results.

Anti-Hedging Policy. The Company has a policy that prohibits executive officers and directors from engaging in transactions in puts, calls or other derivatives relating to Company securities on an exchange or any other organized market. The policy also prohibits executive officers and directors from engaging in certain forms of hedging or monetization transactions with respect to Company stock, such as prepaid variable forward contracts, equity swaps, collars, forward sale contracts and exchange funds.

- (1) Amounts in this column are reported as 2012 compensation in the Salary column of the Summary Compensation Table.
- (2) Amounts included in this column are reported as 2012 compensation in the All Other Compensation column of the Summary Compensation Table.
- (3) Aggregate balances as of December 26, 2012 include the following amounts that were reported as compensation to the named executive officers in the Summary Compensation Table for years prior to 2012: \$250,781 Mr. Wolfinger and \$53,044 Ms. Allen.
- (4) Amount includes executive contributions and company contributions for 2011 that were not previously reported in the Company’s prior proxy statement.

The Denny’s, Inc. Deferred Compensation Plan (the “Deferred Compensation Plan”) allows participants to defer current compensation on a pre-tax basis. Participation is restricted to a select group of management or highly compensated employees of the Company.

Under the terms of the Deferred Compensation Plan, a participant may elect to defer up to 50% of base salary and up to 100% of bonus. Denny’s will match 100% of each participant’s deferrals up to 3% of the participant’s compensation. Deferrals will be credited to the participant’s account on a periodic basis consistent with the payroll cycle. Deferral elections will remain in effect from plan year to plan year unless modified or revoked by the participant during an enrollment period.

The participant’s account will be credited with earnings and losses based on the investment options selected by the participant. The participant may request a change in the allocation of an account balance or future deferrals at any time. A participant is at all times 100% vested in his or her deferral account.

Upon termination of employment for any reason (except following a change in control), a participant will receive his or her account balance in a lump sum or in installments based on his or her election. Account balances less than \$50,000 will be distributed in a lump sum. At the death of a participant, the remaining amount in the participant’s account will be paid to his or her beneficiary in accordance with the participant’s election. Upon a termination of employment within two years of a change in control, a participant will receive his or her account balance in a lump sum distribution. In the event of an unforeseen financial emergency, the plan administrator may approve a participant’s withdrawal up to the amount necessary to satisfy the hardship. A participant may change the distribution schedule prior to termination of employment from a lump sum to annual installments, but not from annual installments to a lump sum. All changes must be made at least 13 months prior to termination of employment.

The Deferred Compensation Plan also provides for an “In-Service Distribution” account, typically used to save for specific financial needs at a specified date, such as college tuition payments. A participant may elect to receive some or all of a particular year’s deferral and related earnings on a particular date prior to retirement or termination of employment. Distributions can be made in a lump sum or, if the balance is at least \$10,000, in 2-5 annual installments. A participant may extend an In-Service Distribution date by at least 5 years or may cancel the date, which results in the account balance being combined with the termination of employment account.

As a result of Code Section 409A, certain key employees (including the named executive officers) may be subject to a six-month waiting period for distributions following termination.

Summary of Termination Payments and Benefits

In 2012, Messrs. Miller, Wolfinger and Rodriguez and Ms. Allen were participants in the Severance Plan, which provides for severance payments and benefits in the event of a participant's employment termination without cause or for good reason (as such terms are defined in the Severance Plan), plus enhanced benefits if such termination is in connection with a change in control of the Company.

Effective March 30, 2012, Mr. Rodriguez's employment with the Company ended, and we subsequently entered into a Confidential Settlement Agreement and Release of All Claims (the "Settlement Agreement") with Mr. Rodriguez. Pursuant to the Settlement Agreement, we paid Mr. Rodriguez a lump sum of \$433,618, consisting of a \$400,000 severance payment and an amount (\$33,618) intended to reimburse Mr. Rodriguez on an after-tax basis for the cost of continued group health benefits for a period of 12 months, plus a separate payment in settlement of potential claims alleged by Mr. Rodriguez relating to his termination.

The following table summarizes the approximate value of the termination payments and benefits that each of Messrs. Miller, Wolfinger and Ms. Allen would have received if they had terminated employment at the close of business on December 26, 2012. The amounts shown in the table exclude distributions under our 401(k) retirement plan that is generally available to all of our salaried employees, as well as the executive's accrued but unpaid obligations. The amounts also exclude benefits and payments that are disclosed in the Pension Benefits Table elsewhere in this Proxy Statement and the Nonqualified Deferred Compensation Table elsewhere in this Proxy Statement.

- (2) Reflects a payment pursuant to the Severance Plan equal to the cost of providing continued health and welfare benefits for a period of 12 months following termination, or a period of 24 months following termination within two years of a change in control. For Ms. Allen, the cash severance in the event of termination within two years of a change in control is being reduced due to the application of the "best-net" provision.

- (1) We believe that, in addition to other financial measures, Adjusted Income Before Taxes, Adjusted EBITDA and Free Cash Flow are appropriate indicators to assist in the evaluation of our operating performance on a period-to-period basis. We also use Adjusted Income, Adjusted EBITDA and Free Cash Flow internally as performance measures for planning purposes, including the preparation of annual operating budgets, and for compensation purposes, including bonuses for certain employees. Adjusted EBITDA is also used to evaluate our ability to service debt because the excluded charges do not have an impact on our prospective debt servicing capability and these adjustments are contemplated in our credit facility for the computation of our debt covenant ratios. Free Cash Flow, defined as Adjusted EBITDA less cash portion of interest expense net of interest income, capital expenditures, and cash taxes, is used to evaluate operating effectiveness and decisions regarding the allocation of resources. However, Adjusted Income, Adjusted EBITDA and Free Cash Flow should be considered as a supplement to, not a substitute for, operating income, net income or other financial performance measures prepared in accordance with U.S. generally accepted accounting principles.
