DES MOINES, Iowa, May 10, 2018 /PRNewswire/ -- Meredith Corporation (NYSE: MDP; meredith.com) – the leading media and marketing company with national brands serving 175 million unduplicated Americans and 17 local television stations in fast-growing markets — today reported fiscal 2018 third quarter and nine month results.

Since reporting its fiscal 2018 second-quarter earnings on January 31, 2018, Meredith:

- Closed on its acquisition of Time Inc. and began operations as a combined company (February 1, 2018).
- Closed on the sale of Golf (February 7, 2018) and Time Inc. UK (March 15, 2018).
- Announced it is exploring the sale of TIME, Sports Illustrated, Fortune, Money and affiliated media brands (March 21, 2018), as well as its equity investment in Viant. Acquired properties already sold and those currently held for sale have been classified as Assets Held for Sale, and are reflected as Discontinued Operations in Meredith's fiscal 2018 third-quarter and nine-month results.
- Completed a sales restructuring plan including naming publishers for all Time Inc. acquired brands, and delivered a new go-to-market strategy to the advertising and marketing community at Meredith's NewFronts presentation (May 3, 2018).
- Now expects to achieve over \$500 million of annual cost savings in the first two full years of operations.

Looking more closely at Meredith's fiscal 2018 third-quarter results compared to the prior-year quarter:

- Meredith recorded pre-tax special items of \$170 million, primarily comprised of restructuring, financing and transaction costs related to its acquisition of Time Inc. As a result, Meredith reported a loss from continuing operations of \$95 million and a net loss of \$110 million, compared to net earnings of \$40 million.
- Excluding special items, earnings from continuing operations were \$33 million, compared to \$40 million. (See Tables 1-5 for supplemental disclosures regarding non-GAAP financial measures.)
- Adjusted EBITDA was \$111 million, compared to \$83 million.
- Total company revenues from continuing operations were \$649 million, compared to \$425 million.

Looking more closely at Meredith's fiscal 2018 nine-month results compared to the prior-year period:

- Meredith reported earnings from continuing operations of \$97 million, compared to \$146 million.
- Excluding special items, earnings from continuing operations were \$117 million, compared to \$133 million.
- Adjusted EBITDA was \$261 million, compared to \$271 million.
- Total company revenues from continuing operations were \$1.5 billion, compared to \$1.3 billion.

"Our legacy Meredith businesses are performing in-line with our stated expectations, and we are aggressively focused on successfully integrating the acquired Time Inc. properties; strengthening our leading national and local media brands; executing our planned asset divestitures; and delivering on our synergy targets, which we now expect will exceed \$500 million annually," said Meredith Corporation Executive Chairman Stephen M. Lacy. "With these initiatives, we have set a goal to reduce our debt by \$1 billion by the end of fiscal 2019, and generate \$1 billion of EBITDA in fiscal 2020. These achievements are expected to reduce our debt level to 2x EBITDA, and meaningfully contribute to total shareholder return."

Key Strategic and Financial Benefits of the Time Inc. Acquisition (excluding assets sold or held for sale):

- Creates an unparalleled portfolio of national media brands with greater scale and efficiency – Combined, Meredith's brands now reach over 175 million unduplicated American consumers, including 80 percent of U.S. adult millennial women. Meredith is the No. 1 U.S. magazine operator, possessing leading positions in entertainment, food, lifestyle, parenting, and home content creation, as well as enhanced positions in the beauty, fashion, and luxury advertising categories.
- Continues the strong and growing contribution from Meredith's Local Media Group – Meredith's portfolio of 17 high-performing television stations in 12 markets is a consistent generator of strong cash flow. Meredith's stations – which reach 11 percent of U.S. television households – are primarily Big 4 network affiliates located in fast-growing markets.
- Advances Meredith's digital position by adding significant scale – Meredith is now a Top 10 digital media

company with approximately 140 million monthly unique visitors in the U.S. and over 9 billion annual video views. Last month, People.com recorded a record 75 million monthly unique visitors. Meredith now operates the No. 1 premium content digital network for American consumers.

- Provides consumer revenue diversification and growth – Meredith's national media brands now have a readership of more than 120 million and paid circulation of more than 45 million paid magazine subscribers. Meredith expects to increase consumer revenue through ownership of affinity marketer Synapse, which it purchased as part of the acquisition of Time Inc., as well as from diversified streams, including bundled circulation, brand licensing and e-commerce activities.
- Enhances financial scale and flexibility – Meredith anticipates generating annual cost synergies that exceed \$500 million in the first two full years of combined operations. Meredith has an excellent track record of achieving cost synergies with prior acquisitions, and is confident in its ability to optimize the cost structure of the combined business.
- Positions Meredith for increased Total Shareholder Return – Meredith remains committed to delivering top-third Total Shareholder Return. On January 27, 2018, Meredith raised its annual dividend 4.8 percent to \$2.18 per share, the 25th straight year it has raised its dividend. Meredith has now paid a dividend for 71 consecutive years.

"We have created the premier U.S. media and marketing company serving 175 million American consumers that's positioned for growth across industry-leading digital, television, print, video, mobile and social platforms," said Meredith Corporation President and CEO Tom Harty. "Our portfolio includes many of the media industry's strongest national brands, along with a powerful local television business that is generating record earnings."

OPERATING GROUP DETAIL

NATIONAL MEDIA GROUP

Fiscal 2018 third quarter National Media Group operating profit was \$9 million. Excluding special items, operating profit was \$44 million and adjusted EBITDA was \$75 million. Revenues were \$479 million. For the first nine months of fiscal 2018, National Media Group operating profit was \$50 million. Excluding special items, operating profit was \$104 million and adjusted EBITDA was \$143 million. Revenues were \$966 million. Results exclude discontinued operations in both periods. (See Tables 1-5 for supplemental disclosures regarding non-GAAP financial measures.)

Meredith is pursuing the following strategies with a goal of successfully integrating its acquisition of Time Inc. and maximizing the value of the combined media portfolio by:

- Improving the advertising and circulation performance of the acquired Time Inc. properties to at least industry norms. Meredith is implementing its proven strategies, standards and discipline across the legacy

Time Inc. portfolio to improve performance, including aligning it with Meredith's successful sales structure. Meredith expects to see meaningful improvement in advertising results for the acquired Time Inc. brands starting in fiscal 2019. Regarding circulation, Meredith has launched a large-scale initiative to use its much larger subscription database to cross-promote titles to increase circulation revenue and lower subscription acquisition costs.

- Aggressively growing revenue and raising the profit margins on the acquired Time Inc. digital properties to Meredith's mid-to-high teens level. Meredith believes this can be accomplished by leveraging the increased scale of the combined digital portfolio to enhance sales initiatives and through more disciplined cost management. Meredith is now well-positioned to benefit from fast-growing advertising platforms, including native, video, shopper marketing, programmatic and social.
- Divesting media assets not core to Meredith's business. Meredith has retained advisors to explore the sale of the TIME, Sports Illustrated, Fortune, Money and affiliated brands, and has seen strong in-bound interest from credible and well-funded potential buyers. These multi-platform brands have different target audiences and advertising bases than the rest of the portfolio, and Meredith believes each may be better suited for success with a new owner or investor. Meredith is also exploring a sale of its 60 percent equity investment in Viant.
- Exceeding \$500 million of annual cost synergies within the first two full years of operation. Approximately half of these savings are expected to come from reductions in headcount, and the remaining half from savings in vendor contracts, real estate, and other non-headcount-related activities.

"We are aggressively integrating the acquisition and forging a path for the 'New Meredith' in the marketplace," said Harty. "Most notably, we have named publishers for all legacy Time Inc. premium-content brands. On the synergy front, we are well underway identifying cost savings that should push us beyond the \$500 million level."

LOCAL MEDIA GROUP

Fiscal 2018 third quarter Local Media Group operating profit was \$39 million and adjusted EBITDA was \$48 million. Revenues were \$170 million. For the first nine months of fiscal 2018, Local Media Group operating profit was \$130 million and adjusted EBITDA was \$155 million. Revenues were \$494 million. (See Tables 1-5 for supplemental disclosures regarding non-GAAP financial measures.)

Looking more closely at fiscal 2018 third quarter performance:

- Advertising revenues were \$81 million. Results were impacted by advertiser demand for the XXIII Winter Olympic Games and the Super Bowl, which were both broadcast on the NBC network. Meredith has just one NBC-affiliate.
- Political advertising revenues were \$2 million, reflecting spending in gubernatorial primary elections primarily

in Illinois and Tennessee.

- Other revenues and operating expenses increased, compared to the prior-year period. This was primarily due to growth in retransmission revenues from cable and satellite television operators, partially offset by higher programming fees paid to affiliated networks. Growth was also driven by contribution from MNI Targeted Media (MNI), which was part of the Time Inc. acquisition. MNI offers clients targeted advertising solutions aimed primarily at the local and regional levels.

OTHER FINANCIAL INFORMATION

Cash flow from operations for the nine months ended March 31, 2018 was \$97 million. Total debt was \$3.1 billion and the weighted average interest rate was 6.1 percent at March 31, 2018.

Meredith remains committed to strong capital stewardship, and delivering top-third performance through its successful Total Shareholder Return strategy. This includes:

- Ongoing dividend increases – Meredith raised its regular stock dividend by 4.8 percent to \$2.18 on an annualized basis in January 2018. This marked the 25th straight year of dividend increases for Meredith, which has paid an annual dividend for 71 consecutive years.
- Aggressive debt paydown and management of liabilities – Meredith is targeting a net debt-to-EBITDA ratio of 2.0 to 1 or better by the end of its fiscal 2020. This includes generating \$1 billion of EBITDA and having net debt below \$2.0 billion at that time.
- Share repurchases – Meredith's ongoing share repurchase program has \$59 million remaining under current authorizations as of March 31, 2018.

All fiscal 2018 third quarter comparisons are against the comparable prior-year period unless otherwise stated.

OUTLOOK

Looking more closely at the fourth quarter of fiscal 2018, Meredith expects:

- National Media Group revenues to range from \$590 million to \$600 million.
- Local Media Group revenues to range from \$190 million to \$195 million.
- Total Company net earnings to range from \$32 million to \$44 million. These amounts include estimates for expected special items. Actual results may include additional special items that have not yet occurred and are difficult to predict with reasonable certainty at this time.
- Total Company adjusted EBITDA to range from \$153 million to \$158 million. (See Table 6 for supplemental disclosures regarding non-GAAP financial measures.)

RATIONALE FOR USE AND ACCESS TO NON-GAAP RESULTS

Management uses and presents GAAP and non-GAAP results to evaluate and communicate its performance. Non-GAAP measures should not be construed as alternatives to GAAP measures. Adjusted EBITDA and adjusted EBITDA margin are common supplemental measures of performance used by investors and financial analysts.

Management believes that Adjusted EBITDA provides an additional analytical tool to clarify the Company's results from core operations and delineate underlying trends. Management does not use Adjusted EBITDA as a measure of liquidity or funds available for management's discretionary use because it excludes certain contractual and non-discretionary expenditures. Adjusted EBITDA is defined as earnings (loss) before discontinued operations, interest, taxes, depreciation, amortization, non-operating expense, and special items.

Results excluding special items are supplemental non-GAAP financial measures. While these adjusted results are not a substitute for reported results under GAAP, management believes this information is useful as an aid in further understanding Meredith's current performance, performance trends and financial condition.

Reconciliations of GAAP to non-GAAP measures are attached to this press release and available at meredith.com.
