

Underground Geologist

Rubicon Minerals Corporation is an advanced exploration company that owns the Phoenix Gold Project, located in the prolific Red Lake gold district in northwestern Ontario, Canada. Additionally, Rubicon controls over 280 square kilometres of prime exploration ground in Red Lake and more than 900 square kilometres of mineral property interests in the emerging Long Canyon gold district that straddles the Nevada-Utah border in the United States.

Rubicon is currently seeking an Underground Mine Geologist at the Phoenix Gold Project. The ideal candidate will possess the following:

Academic Requirements and Experience:

- College or University Education in Geology/Earth Sciences required
- Underground experience in narrow vein gold mining
- Minimum three (3) years' experience
- Team work oriented with Strong Communication skills
- Excellent written and verbal communication skills

Required Knowledge, Skills and Abilities:

- Adhere to Rubicon procedures and protocols including sample controls, logging procedures, QA/QC procedures, documentation, drill target proposals etc.
- Mapping and sampling,
- Core logging,
- Ore and waste solid modelling,
- Database entry and reporting,
- Weekly and monthly reporting

Rubicon Minerals Corporation fosters a work environment in which all individuals are treated with respect and dignity. The Company does not discriminate on the basis of race, colour, religion, gender, national origin, age, sexual orientation or disability or any other category protected by Canadian federal or provincial laws and regulations.
