5280 Solutions and NET(net) Team to Offer Enhanced Technical Services to Clients

DENVER, July 17, 2007 /PRNewswire-FirstCall via COMTEX News Network/ -- 5280 Solutions, a premier software development, consulting and systems integration organization that serves clients in a variety of industries, announced it has entered into a long-term strategic relationship with NET(net), an industry leader in Supplier Lifecycle Management and Optimization Services. The companies will offer their respective services to one another and collaborate to offer their existing and prospective clients enhanced technical services.

According to the five-year agreement, 5280 Solutions will provide technical consulting services, systems integration and business intelligence services to NET(net) and its clients. In addition, for a minimum of five years, NET(net) will provide its specialized Supplier Lifecycle Management and Optimization Services to 5280 Solutions and its clients.

"The partnership between 5280 Solutions and NET(net) will help us strategically support our clients' needs," said Ray Ciarvella, President of 5280 Solutions. "In today's competitive markets, aligning with the right partners is essential, and we have tremendous confidence in partnering with NET(net)."

"This partnership enables us to offer our clients greater sustainable and ongoing benefits with the inclusion of award-winning managed services from a recognized innovator and specialist in 5280 Solutions," says Steven C. Zolman, NET(net) President and CEO. "Our clients expect to gain material benefits from the way they leverage information assets to produce value and 5280 Solutions can help our clients unlock and exploit greater value from those assets by delivering specific and unique technical consulting services."
