TD SYNNEX CORPORATION
EXECUTIVE AND DIRECTOR STOCK OWNERSHIP GUIDELINES

Effective as of September 21, 2026

The Board of Directors (the "Board") of TD SYNNEX Corporation (the "Company") has adopted the following stock ownership guidelines to further align the interests of the Company's senior leaders and directors with the long-term interests of its stockholders. These guidelines apply to our Chief Executive Officer, members of the Executive Leadership Team of the Company ("ELT") and any other officer subject to the reporting requirements under Section 16 of the Securities Exchange Act of 1934 (collectively, "Executives"), and members of the Board who are not employed by the Company ("Directors").

Stock Ownership Guidelines

Each Executive and Director is required to hold eligible shares of Company common stock of a value equal to a multiple of the Executive's annual base salary or the Director's annual base cash retainer (excluding additional chair or committee retainers), as set forth below:

Position	Minimum Ownership Requirement Value
Chief Executive Officer	6x base salary
ELT Member	3x base salary
Non-ELT Section 16 Officer	1x base salary
Director	5x annual base cash retainer

The minimum ownership requirement value will initially be measured using the applicable annual base salary (in USD) or annual base cash retainer (in USD) in effect as of the later of September 21, 2026, or the date the person first became subject to these guidelines as an Executive or appointed as a Director. The minimum ownership requirement value will then be measured on an annual basis in the first quarter of each fiscal year using the applicable annual base salary or annual base cash retainer as of the last day of the prior fiscal year (the "Measurement Date").

Share ownership will be measured on an annual basis by converting the minimum ownership requirement value into a required share level, rounded down to the nearest whole share, using the 90-day trailing average of the closing prices (in regular trading) of Company common stock leading up to, but excluding, the Measurement Date.

Compliance Period

Executives and Directors will have five years from the later of September 21, 2026, or the date the person first became subject to these guidelines as an Executive or appointed as a Director to achieve the minimum ownership requirement for their position (the "Compliance Date"). If an Executive's minimum ownership requirement multiple increases following the Compliance Date due to a change in title, a new five-year compliance period will begin as of the date of the Executive's change in title.

If the minimum ownership requirement applicable to an Executive Officer or Director increases owing to the adoption of these stock ownership guidelines from the stock ownership guidelines that applied immediately prior to the adoption of these stock ownership guidelines, then the Executive Officer or Director will remain subject to such prior stock ownership guidelines until the earlier of (i) the Compliance Date or (ii) the date on which the Executive Officer or Director has achieved the minimum ownership requirement under these stock ownership guidelines.

Holding Requirement

Until an Executive or Director has satisfied the stock ownership guidelines described above, he or she will be required to hold 50% of the aggregate number of net after-tax shares of Company common stock vested, retained or otherwise acquired pursuant to awards granted under a Company long-term incentive plan.

Eligible Securities

Shares of Company common stock that count toward satisfaction of these guidelines include:

- shares owned outright by the Executive or Director or his or her immediate family members residing in the same household;
- shares held indirectly, including through a trust or through a nominee for the benefit of the Executive or Director or his or her family members; and
- unvested restricted stock and unvested restricted stock units.

Shares that do not count toward satisfaction of these guidelines include:

- unexercised stock options (whether or not vested); and
- unearned or unvested performance stock units.

Administration

The Compensation Committee of the Board (the "Committee") will review stock ownership levels of each Executive and Director on at least an annual basis. The Company will notify each Executive or Director if their status falls below the applicable minimum ownership requirement. The Committee reserves the right to modify or amend these guidelines at any time. These guidelines are intended to supersede and replace all prior guidelines, policies, and understandings, whether written or oral, regarding the subject matter herein.

Exceptions

The Committee will evaluate whether exceptions should be made for any participant who, due to his or her unique financial circumstances, would incur a hardship by complying with these guidelines, including but not limited to allowing individuals additional time to gain or regain compliance.

Approved by Board of Directors: September 21, 2026
