

## **TD SYNnex Hosts 2022 Virtual Investor Day and Outlines Key Strategic Growth Initiatives and Medium-Term Outlook**

**FREMONT, Calif. and CLEARWATER, Fla., March 29, 2022** – TD SYNnex (NYSE: SNX), a leading global distributor and solutions aggregator for the IT ecosystem, will host its virtual Investor Day today beginning at 11:00 a.m. EDT.

Rich Hume, CEO, and other members of the executive leadership team will outline the company's strategy to expand its position and addressable market in the evolving IT distribution marketplace via core and high-growth technologies. In conjunction with the event, the company is also unveiling its medium-term financial outlook.

"TD SYNnex plays a vital role at the center of the IT business partner ecosystem," said Hume. "We believe we have unparalleled end-to-end offerings across core and high-growth technologies and are poised to drive enhanced shareholder returns moving forward as we continue to deliver value to our customers and vendors."

### **Medium-Term Financial Targets**

Over the medium-term, which is defined as the next three to four years, the company expects to achieve:

- Revenue growth of 6-7% at a compounded annual growth rate
- Total shareholder return of 15-20%
- Non-GAAP operating margin<sup>(1)</sup> of approximately 3%

### **Virtual Investor Day**

The event, which will consist of prepared presentations followed by a live question-and-answer session, may be accessed via the Investor Relations website, [ir.synnex.com](http://ir.synnex.com). The event is expected to conclude by 2:15 p.m. EDT. A webcast replay will be available after the event on the Investor Relations website, where the accompanying presentation slides may also be accessed.

### **About TD SYNnex**

TD SYNnex (NYSE: SNX) is a leading global distributor and solutions aggregator for the IT ecosystem. We're an innovative partner helping more than 150,000 customers in 100+ countries to maximize the value of technology investments, demonstrate business outcomes and unlock growth opportunities.

Headquartered in Clearwater, Florida, and Fremont, California, TD SYNEX' 22,000 co-workers are dedicated to uniting compelling IT products, services and solutions from 1,500+ best-in-class technology vendors. Our edge-to-cloud portfolio is anchored in some of the highest-growth technology segments including cloud, cybersecurity, big data/analytics, IoT, mobility and everything as a service. TD SYNEX is committed to serving customers and communities, and we believe we can have a positive impact on our people and our planet, intentionally acting as a respected corporate citizen. We aspire to be a diverse and inclusive employer of choice for talent across the IT ecosystem. #### **<sup>(1)</sup>Use of Non-GAAP Financial Information**

In addition to the financial results presented in accordance with GAAP, TD SYNEX also uses adjusted selling, general and administrative expenses, non-GAAP operating income, non-GAAP operating margin, non-GAAP net income, and non-GAAP diluted earnings per share, which are non-GAAP financial measures that exclude acquisition, integration and restructuring costs, the amortization of intangible assets, share-based compensation expense, purchase accounting adjustments and the related tax effects thereon. The Company also uses adjusted earnings before interest, taxes, depreciation and amortization ("Adjusted EBITDA") which excludes other income (expense), net, acquisition, integration and restructuring costs, share-based compensation expense and purchase accounting adjustments. In prior periods, TD SYNEX has excluded other items relevant to those periods for purposes of its non-GAAP financial measures.

Acquisition, integration and restructuring costs typically consist of acquisition, integration, restructuring and divestiture related costs and are expensed as incurred. These expenses primarily represent professional services costs for legal, banking, consulting and advisory services, severance and other personnel related costs, share-based compensation expense and debt extinguishment fees. From time to time, this category may also include transaction-related gains/losses on divestitures/spin-off of businesses, costs related to long-lived assets including impairment charges and accelerated depreciation and amortization expense due to changes in asset useful lives, as well as various other costs associated with the acquisition or divestiture.

TD SYNEX' acquisition activities have resulted in the recognition of finite-lived intangible assets which consist primarily of customer relationships and lists and vendor lists. Finite-lived intangible assets are amortized over their estimated useful lives and are tested for impairment when events indicate that the carrying value may not be recoverable. The amortization of intangible assets is reflected in the Company's Statements of Operations. Although intangible assets contribute to the Company's revenue generation, the amortization of intangible assets does not directly relate to the sale of the Company's products. Additionally, intangible asset amortization expense typically fluctuates based on the size and timing of the Company's acquisition activity. Accordingly, the Company believes excluding the

amortization of intangible assets, along with the other non-GAAP adjustments, which neither relate to the ordinary course of the Company's business nor reflect the Company's underlying business performance, enhances the Company's and investors' ability to compare the Company's past financial performance with its current performance and to analyze underlying business performance and trends. Intangible asset amortization excluded from the related non-GAAP financial measure represents the entire amount recorded within the Company's GAAP financial statements, and the revenue generated by the associated intangible assets has not been excluded from the related non-GAAP financial measure. Intangible asset amortization is excluded from the related non-GAAP financial measure because the amortization, unlike the related revenue, is not affected by operations of any particular period unless an intangible asset becomes impaired or the estimated useful life of an intangible asset is revised.

Share-based compensation expense is a non-cash expense arising from the grant of equity awards to employees based on the estimated fair value of those awards. Although share-based compensation is an important aspect of the compensation of our employees, the fair value of the share-based awards may bear little resemblance to the actual value realized upon the vesting or future exercise of the related share-based awards and the expense can vary significantly between periods as a result of the timing of grants of new stock-based awards, including grants in connection with acquisitions. Given the variety and timing of awards and the subjective assumptions that are necessary when calculating share-based compensation expense, TD SYNEX believes this additional information allows investors to make additional comparisons between our operating results from period to period.

Purchase accounting adjustments are primarily related to the impact of recognizing the acquired vendor and customer liabilities related to the merger with Tech Data at fair value. The Company expects the duration of these adjustments to benefit our non-GAAP operating income through fiscal 2022 and through a portion of fiscal 2023 based on historical settlement patterns with our vendors and in accordance with the timing defined in our policy for releasing vendor and customer liabilities we deem remote to be paid.

Trailing fiscal four quarters ROIC is defined as the last four quarters' tax effected operating income divided by the average of the last five quarterly balances of borrowings and equity, net of cash. Adjusted ROIC is calculated by excluding the tax effected impact of non-GAAP adjustments from operating income and by excluding the cumulative tax effected impact of current and prior period non-GAAP adjustments on equity.

TD SYNEX also uses free cash flow, which is cash flow from operating activities, reduced by purchases of property and equipment. TD SYNEX uses free cash flow to conduct and evaluate its business because, although it is similar to cash flow from operations, TD SYNEX believes it is an additional useful measure of cash flows since purchases of property and equipment are a necessary component of

ongoing operations. Free cash flow reflects an additional way of viewing TD SYNEX' liquidity that, when viewed with its GAAP results, provides a more complete understanding of factors and trends affecting its cash flows. Free cash flow has limitations as it does not represent the residual cash flow available for discretionary expenditures. For example, free cash flow does not incorporate payments for business acquisitions. Therefore, TD SYNEX believes it is important to view free cash flow as a complement to its entire Consolidated Statements of Cash Flows.

TD SYNEX management uses non-GAAP financial measures internally to understand, manage and evaluate the business, to establish operational goals, and in some cases for measuring performance for compensation purposes. These non-GAAP measures are intended to provide investors with an understanding of TD SYNEX' operational results and trends that more readily enable investors to analyze TD SYNEX' base financial and operating performance and to facilitate period-to-period comparisons and analysis of operational trends, as well as for planning and forecasting in future periods. Management believes these non-GAAP financial measures are useful to investors in allowing for greater transparency with respect to supplemental information used by management in its financial and operational decision-making. As these non-GAAP financial measures are not calculated in accordance with GAAP, they may not necessarily be comparable to similarly titled measures employed by other companies. These non-GAAP financial measures should not be considered in isolation or as a substitute for the comparable GAAP measures, and should be read only in conjunction with TD SYNEX' Consolidated Financial Statements prepared in accordance with GAAP.

The Company has not provided a reconciliation of medium – term adjusted operating margin outlook to an expected operating margin outlook because certain items that are a component of operating margin cannot be reasonably projected. In particular, sufficient information is not available to calculate certain adjustments required for such reconciliations, including Acquisition, integration and restructuring costs, Amortization of intangibles, Share-based compensation and invested capital comprising of equity and borrowings. These components of operating margin could significantly impact Company's actual operating margin.

#### **Safe Harbor Statement**

Statements in this news release that are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 involve known and unknown risks and uncertainties which may cause the Company's actual results in future periods to be materially different from any future performance that may be suggested in this release. The Company assumes no obligation to update any forward-looking statements contained in this release.

These forward-looking statements may be identified by terms such as believe, foresee, expect, may, will, provide, could and should and the negative of these terms or other similar expressions. These forward-looking statements include, but are not limited to, statements regarding shareholder returns, revenue growth, technology growth, and our expectations and outlook for the next three to four years.

The forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those discussed in the forward-looking statements. These risks and uncertainties include, but are not limited to: the risk that the legacy SYNnex and legacy Tech Data businesses will not be integrated successfully or realize the anticipated benefits of the combined company; new or ongoing effects of the COVID-19 pandemic; the unfavorable outcome of any legal proceedings that have been or may be instituted against us; the ability to retain key personnel; general economic conditions and any weakness in information technology and consumer electronics spending; seasonality; the loss or consolidation of one or more of our significant original equipment manufacturer, or OEM, suppliers or customers; market acceptance and product life of the products we assemble and distribute; competitive conditions in our industry and their impact on our margins; pricing, margin and other terms with our OEM suppliers; our ability to gain market share; variations in supplier-sponsored programs; changes in our costs and operating expenses; changes in foreign currency exchange rates; changes in tax laws; risks associated with our international operations; uncertainties and variability in demand by our reseller and integration customers; supply shortages or delays; any termination or reduction in our floor plan financing arrangements; credit exposure to our reseller customers and negative trends in their businesses; any future incidents of theft; the declaration, timing and payment of dividends, and the Board's reassessment thereof; and other risks and uncertainties detailed in our Form 10-K for the fiscal year ended November 30, 2021 and subsequent SEC filings. Statements included in this press release are based upon information known to TD SYNnex as of the date of this release, and TD SYNnex assumes no obligation to update information contained in this press release unless otherwise required by law.
