

Datech Solutions Strengthens Autodesk Partnership in Malaysia with AutoCAD

Malaysia, February 24, 2023 – Datech, a specialized solutions business unit of [Tec D Malaysia](#), a TD SYNEX (NYSE: SNX) company, today announced a new milestone of becoming the value-added distributor (VAD) of AutoCAD & AutoCAD LT for Autodesk in Malaysia, adding to its portfolio of Autodesk vertical industry solutions.

By having the expanded VAD agreement with Autodesk in Malaysia effective February 1, Datech can now open the door to local partners and their customers to access Autodesk's entire solutions and services portfolio through its exclusive offerings.

“This opportunity strengthens the partnership between Autodesk resellers, Datech and Autodesk in the Asia Pacific and Japan region even more.”, said **Mr. Yoon Kam Fei, Vice President and Country General Manager, Malaysia for Tec D**. “Now that we are positioned to deliver the entire Autodesk solutions portfolio, we continue to support the development of the Autodesk strategy, by recruiting more partners and offer them our enablement, implementation, consulting and automation services. This extended partnership is a testament to our position as the top provider of end-to-end services to Autodesk, and their trusted channel in Malaysia.”

“Datech continues to enable Autodesk resellers with our value-add Datech program and our web-services based, digital distribution platform, Datech Portal.”, stated **Monawar Hashmi, Associate Sales Director, Datech ASEAN**. The Datech Portal is a global cloud-based reseller enablement tool, which provides easy access to business-critical Autodesk contract information, business intelligence, end-user data analysis and end-users license life-cycle management through the FLAER – Find, Land, Adopt, Expand, Renew – methodology, in support of a scalable, successful and growing Autodesk subscription and SaaS business.

AutoCAD, with its Industry-Specialized Toolsets, supports users in Architecture, Mechanical, Electrical, MEP and Plant design to achieve their ultimate productivity enhancements in 2D

and 3D design by giving them the access to seamless workflows, specialized industry toolsets, and new automations.
