

Hyve Solutions Develops Advanced Network Switches to Accelerate Rack-Level AI Deployment at Scale

2024-10-14

FREMONT, Calif.--(BUSINESS WIRE)-- **Hyve Solutions Corporation**, a wholly owned subsidiary of **TD SYNNEX Corporation** (NYSE: SNX) and a leading provider of hyperscale digital infrastructures, is pleased to announce the design and development of advanced network switches to accelerate rack-level AI deployment at scale, addressing the rapidly growing demand for high-performance AI workloads.

Hyve Solutions is leveraging its design and manufacturing expertise as well as its global footprint to deliver AI infrastructure that meets the most demanding performance requirements. By integrating Broadcom's Tomahawk® 5 series (BCM78900) of 51.2 Tb/s devices into the new network switch designs, Hyve can efficiently design customer-specific requirements into their products, helping organizations deploy AI technologies faster and more effectively.

"Hyve's new network switches are designed to enhance data flow, performance, and scalability for AI and machine learning applications," said Steve Ichinaga, president of Hyve Solutions. "This reflects our commitment to working closely with the AI ecosystem to drive rack-scale design and deployment, ensuring that customers can capitalize on the latest advances in AI technology."

Broadcom's Tomahawk 5 series doubles the bandwidth compared to other silicon available on the market and includes advanced features specifically designed to accelerate AI/ML workloads. With its cutting-edge Cognitive Routing capabilities, the industry's most flexible 100G PAM4 SerDes, and the best energy efficiency among data center switches, Tomahawk 5 delivers unmatched performance for AI/ML clusters, as well as for general-purpose compute and storage environments. This revolutionary technology ensures that Hyve Solutions is at the forefront of high-performance, energy-efficient AI deployments.

Please visit the Hyve Solutions booth during the 2024 OCP Global Summit held Oct. 15-17 at the McEnergy

Convention Center in San Jose, California. Look for us in Booth A17. And for more information on Hyve's advanced network switches, please visit www.HyveSolutions.com.

About Hyve Solutions Corporation

Hyve Solutions Corporation is a leader in the design to worldwide deployment of hyperscale digital infrastructures. In partnership with customers, Hyve leverages deep-seated industry experience and strong vendor partnerships to design and deliver purpose-built server, storage, and networking solutions to meet datacenter demands for today and beyond. Hyve Solutions is a wholly owned subsidiary of TD SYNNEX Corporation (NYSE: SNX). For more information about Hyve Solutions, visit hyvesolutions.com or email sales@hyvesolutions.com.

About TD SYNNEX Corporation

TD SYNNEX (NYSE: SNX) is a leading global distributor and solutions aggregator for the IT ecosystem. We're an innovative partner helping more than 150,000 customers in 100+ countries to maximize the value of technology investments, demonstrate business outcomes and unlock growth opportunities. Headquartered in Clearwater, Florida, and Fremont, California, TD SYNNEX's 23,000 co-workers are dedicated to uniting compelling IT products, services and solutions from 2,500+ best-in-class technology vendors. Our edge-to-cloud portfolio is anchored in some of the highest-growth technology segments including cloud, cybersecurity, big data/analytics, AI, IoT, mobility and everything as a service. TD SYNNEX is committed to serving customers and communities, and we believe we can have a positive impact on our people and our planet, intentionally acting as a respected corporate citizen. We aspire to be a diverse and inclusive employer of choice for talent across the IT ecosystem. For more information, visit www.TDSYNNEX.com, follow our newsroom or find us on [LinkedIn](#), [Facebook](#) and [Instagram](#).
