

Hyve Solutions Expands Manufacturing Footprint With Reno and North Las Vegas Campuses

2026-08-19

New Campuses Grow Hyve's U.S. Advanced Manufacturing Footprint to Meet Rising Digital Infrastructure Demand

FREMONT, Calif.--(BUSINESS WIRE)-- [Hyve Solutions Corporation](#), a US-based design and manufacturing partner for compute, storage, and networking systems in AI, cloud, and digital infrastructure, and a wholly owned subsidiary of TD SYNnex Corporation (NYSE: SNX), today announced two new advanced manufacturing campuses in Nevada, one in Reno and one in North Las Vegas, to support increased customer demand.

The Reno campus will serve as Hyve's flagship site in the state, occupying approximately 624,000 square feet of advanced manufacturing space and expands the company's current domestic SMT (surface-mount technology) capacity. This site is paired with an additional Hyve facility in North Las Vegas, extending the company's footprint into Southern Nevada. Together, the two campuses are expected to create approximately 3,000 new jobs.

"Nevada gives us the space, the workforce and the business climate to grow our manufacturing capability at the scale our customers need," said [Jerry Kagele](#), President of Hyve Solutions. "Expanding our advanced manufacturing capacity lets us add this work here in the United States, and we're proud to be creating good, long-term careers as we do it."

Economic Impact and Workforce Growth

Open roles will span production, engineering, quality, supply chain, warehouse and operations positions, offering both hourly and salaried opportunities across permanent, trade and contingent roles. Compensation includes wages above Nevada's statewide average, along with medical, vision and dental benefits, and room to grow into new roles as the campuses scale.

Hyve is actively recruiting for these positions and is ramping hiring as quickly as possible, drawing on Nevada's workforce and university talent to fill key roles across both campuses. Open roles can be found on [HyveSolutions.com](#).

Hyve worked with the Economic Development Authority of Western Nevada (EDAWN), the Las Vegas Global Economic Alliance (LVGEA) and the Governor's Office of Economic Development (GOED) throughout the site selection process, with the company's applications approved by the GOED Board.

The investment reflects Nevada as a growing hub for advanced manufacturing.

About Hyve Solutions Corporation

Hyve Solutions transforms complex engineering challenges into production reality for technology innovators building AI, cloud, and connected infrastructure. As a US-based design and manufacturing partner, the company rapidly delivers fast, agile execution through deep technical partnerships and co-innovation, and supply chain clarity. Hyve's integrated ODM, CM, and SI capabilities eliminate vendor complexity while accelerating time-to-market with single-partner accountability from design through scale. The company co-innovates with deep engineering expertise, treating customer success as its own while building tomorrow's digital infrastructure.

Hyve Solutions is a wholly owned subsidiary of TD SYNnex Corporation (NYSE: SNX). For more information, visit hyvesolutions.com, email sales@hyvesolutions.com, or call (855) 869-6973.
