

TOP 5 REASONS WE'RE BETTER

Healthypaws

1. WE DON'T RESTRICT COVERAGE WITH LONG WAITING PERIODS.

Healthy Paws has a 12 month waiting period for any treatment associated with hip dysplasia. And if you enroll your pet after their 6th birthday, they do not offer any coverage for hip dysplasia at all.

2. WE DON'T PENALIZE UNLUCKY PETS...OR THEIR OWNERS.

Healthy Paws does pay a percentage of policyholders' actual invoices, but only to the extent that they deem are "standard" costs. This is important. How are "standard" costs decided, and why should an insurance provider determine this?

3. WE OFFER FINANCIAL FLEXIBILITY.

Healthy Paws has three deductible options available, \$100, \$250, and \$500. This makes it hard to fit coverage into a monthly budget. Also, if even one claim has been filed, policyholders will not be able to decrease their deductible or co-insurance amount, so they have very little choice in deciding what they pay for their coverage.

4. WE'RE HERE 24/7.

Healthy Paws is only available M-F, 6:00am-6:00pm, and Saturday-Sunday, 8:00am-5:00pm PT. That means they're open less than 46% of the week.

5. WE CAN PAY THE HOSPITAL DIRECTLY.

Trupanion is changing the "reimbursement" game by offering payment directly to the hospital, which means pet owners aren't out of pocket. This also means claims can be closed and paid in as little as 5 minutes.

Comparison based on public-facing information as of June 9, 2016.
Please read the Healthy Paws policy for full details on their coverage.
