

TOP 5 REASONS WE'RE BETTER PetPlan

1. WE'RE FAIR WHEN IT COMES TO YOUR DEDUCTIBLE.

Petplan charges the chosen deductible both annually and per-condition. This means, policyholders pay more out of pocket over the lifetime of their pet — and will re-pay deductibles for conditions where they've already been met, year after year after year.

2. WE CAN PAY THE HOSPITAL DIRECTLY.

Trupanion is changing the "reimbursement" game by offering payment directly to the hospital, which means pet owners aren't out of pocket. This also means claims can be closed and paid in as little as 5 minutes.

3. WE DON'T RAISE RATES WHEN YOUR PET HAS A BIRTHDAY.

Petplan utilize "Birthday Pricing", where policyholder's rates increase each year due to their pet aging. These rates grow by 15-18% per year and are in addition to inflation changes.

4. WE PROCESS YOUR PAYOUTS FAIRLY.

Unlike most insurance companies, Petplan applies the co-insurance first, then applies the deductible, which always results in pet owners receiving less money reimbursed.

5. WE DON'T RESTRICT COVERAGE WITH LONG WAITING PERIODS.

Petplan has a 6 month waiting period for any treatment associated with damage or rupture of cruciate ligaments, luxation of the patella, or other soft tissue disorders of the knee.

Comparison based on public-facing information as of July 12, 2016.
Please read Petplan's policy for full details on their coverage.
