- (1) Adjusted EBITDA and Adjusted EBITDA margin are non-GAAP measures. We define Adjusted EBITDA as net income (loss) from continuing operations excluding interest income, other (income) expense, net, provision for income taxes, depreciation and amortization, stock-based compensation expense, and restructuring and other one-time costs related to our continuing operations. We define Adjusted EBITDA margin as Adjusted EBITDA divided by net revenue for the period. We consider net loss and net loss margin to be the financial measures computed in accordance with GAAP that are the most directly comparable financial measures to our calculation of Adjusted EBITDA and Adjusted EBITDA margin, respectively. Net loss margin was 0.8% for the three months ended January 31, 2026. Non-GAAP measures are reconciled to the corresponding GAAP measures in the Appendix of this presentation.
- (2) We define Free Cash Flow as net cash flows provided by (used in) operating activities from continuing operations, reduced by purchases of property and equipment that are included in cash flows from investing activities from continuing operations. Non-GAAP measures are reconciled to the corresponding GAAP measures in the Appendix of this presentation.

Financial Commentary

- We delivered two straight quarters of year-over-year revenue growth, when adjusted for the extra week in Q4 2024
- Expanded gross margin 10 bps year-over-year to 44.4%
- Continued cost discipline management (over \$120M of SG&A removed in FY25)
- Expanded Adj. EBITDA margin 170 bps⁴
- Generated \$9.3M of free cash flow⁵
- Ended the year with \$243M of cash, cash equivalents, and investments; and no debt

(1) Discounts, sales tax and estimated refunds are deducted from revenue to arrive at net revenue, which the Company refers to as "revenue" or "net revenue".

(2) Defined as clients who checked out a Fix or were shipped an item using Freestyle in the preceding 52 weeks, measured as of the last day of that period. A client checks out a Fix when he or she indicates which items he or she is keeping through our mobile app or website. We consider each Men's, Women's, or Kids account as a client, even if they share the same household.

(3) Calculated based on net revenue over the preceding four fiscal quarters divided by the number of active clients, measured as of the last day of the period.

(4) Adjusted EBITDA and Adjusted EBITDA margin are non-GAAP measures. We define Adjusted EBITDA as net income (loss) from continuing operations excluding interest income, other (income) expense, net, provision for income taxes, depreciation and amortization, stock-based compensation expense, and restructuring and other one-time costs related to our continuing operations. We define Adjusted EBITDA margin as Adjusted EBITDA divided by net revenue for the period. We consider net loss and net loss margin to be the financial measures computed in accordance with GAAP that are the most directly comparable financial measures to our calculation of Adjusted EBITDA and Adjusted EBITDA margin, respectively. Net loss margin was 2.3% for fiscal year 2025. Non-GAAP measures are reconciled to the corresponding GAAP measures in the Appendix of this presentation.

(5) We define Free Cash Flow as net cash flows provided by (used in) operating activities from continuing operations, reduced by purchases of property and equipment that are included in cash flows from investing activities from continuing operations. Non-GAAP measures are reconciled to the corresponding GAAP measures in the Appendix of this presentation.
