Track Record of Delivering on Strategic Goals

GNL undertook a broad set of actions that collectively repositioned the Company – elevating overall quality through a more streamlined portfolio, a materially lower leverage profile, enhanced liquidity and improved credit metrics

Successful Disposition Program

Since launching its disposition program, GNL has completed approximately \$3.5 billion in sales, highlighted by the \$1.8 billion Multi-Tenant Retail Portfolio sale in 2025, which accelerated debt reduction efforts and materially strengthened the balance sheet and portfolio

Significant Leverage Reduction

By strategically deploying proceeds from non-core asset sales toward accelerated debt paydown, GNL reduced its net debt balance by \$630 million, from \$3.0 billion in Q2'25 to \$2.3 billion in Q2'26, significantly strengthening the balance sheet and enhancing financial flexibility

Accretive Share Repurchase Program

GNL deploys a portion of net proceeds from non-core asset sales to accretively repurchase shares, having repurchased 20.9 million shares for \$170 million at a weighted average price of \$8.11⁽¹⁾

1. Represents share repurchases from January 1, 2025 through July 31, 2026.

Track Record of Delivering on Strategic Goals (Cont'd)

GNL Management executed a disciplined strategy designed to reposition GNL's path forward, generate measurable balance sheet and portfolio improvements, and meaningfully expand strategic flexibility heading into the next phase of growth

Achieved 5.6% Renewal Leasing Spread

GNL continued to showcase its strong asset management capabilities through robust leasing activity, achieving a 5.6% renewal spread in Q2'26 by taking a proactive approach with tenants, while further highlighting the mission-critical nature of its portfolio and the attractive mark-to-market opportunities it offers

Refinanced Revolving Credit Facility

GNL successfully executed a \$1.8 billion refinancing of its Revolving Credit Facility, delivering an immediate 35 basis point reduction in interest rate spread, boosting liquidity and extending the Company's weighted average debt maturity, providing greater financial flexibility

Lowered G&A Expense and Capex

Through the \$1.8 billion sale of its Multi-Tenant Retail Portfolio, GNL has successfully repositioned itself in 2025 as a pure-play single-tenant net lease REIT, enabling a reduction in G&A expenses and a material decrease in capital expenditures as operations were streamlined

Financial Definitions

Non-GAAP Financial Measures

This presentation includes various performance indicators and non-GAAP financial measures that we use to help us evaluate our performance, ability to incur and service debt, financial condition and results of operations. These non-GAAP financial measures include Funds from Operations ("FFO"), Core Funds from Operations ("Core FFO"), Adjusted Funds from Operations ("AFFO"), Adjusted Earnings before Interest, Taxes, Depreciation and Amortization ("Adjusted EBITDA"), Net Operating Income ("NOI"), Cash Net Operating Income ("Cash NOI") and Cash Paid for Interest. While NOI is a property-level measure, AFFO is based on total Company performance and therefore reflects the impact of other items not specifically associated with NOI such as, interest expense, general and administrative expenses and operating fees to related parties. Additionally, NOI does not reflect an adjustment for straight-line rent, but AFFO does include this adjustment.

FFO, Core FFO, AFFO, Adjusted EBITDA, NOI and Cash NOI and pro forma presentations of the foregoing are financial measures that are calculated and presented on the basis of methodologies other than in accordance with generally accepted accounting principles in the United States of America ("GAAP"). Definitions of such non-GAAP measures can be found in the Company's Q2 2026 earnings release for the quarter ended June 30, 2026, furnished as exhibit 99.1 to the Current Report on Form 8-K filed by Global Net Lease, Inc. (the "Company" or "GNL") on August 5, 2026. Reconciliations of such non-GAAP measures for Q2 2026 to their nearest comparable GAAP measures can be found in the Appendix found within. Any non-GAAP financial measures used in this presentation are in addition to, and not meant to be considered superior to, or a substitute for, GNL's financial statements prepared in accordance with GAAP. Additional information with respect to the Company is contained in its filings with the SEC and is available at the SEC's website, www.sec.gov, and on the Company's website, <https://www.globalnetlease.com/>.

Caution on Use of Non-GAAP Measures

FFO, Core FFO, AFFO, Adjusted EBITDA, NOI, Cash NOI and Cash Paid for Interest should not be construed to be more relevant or accurate than the current GAAP methodology in calculating net income or in its applicability in evaluating our operating performance. The method utilized to evaluate the value and performance of real estate under GAAP should be construed as a more relevant measure of operational performance and considered more prominently than the non-GAAP measures.

Other REITs may not define FFO in accordance with the current National Association of Real Estate Investment Trusts ("NAREIT") definition (as we do) or may interpret the current NAREIT definition differently than we do or may calculate Core FFO or AFFO differently than we do. Consequently, our presentation of FFO, Core FFO and AFFO may not be comparable to other similarly-titled measures presented by other REITs.

We consider FFO, Core FFO and AFFO useful indicators of our performance. Because FFO, Core FFO and AFFO calculations exclude such factors as depreciation and amortization of real estate assets and gain or loss from sales of operating real estate assets (which can vary among owners of identical assets in similar conditions based on historical cost accounting and useful-life estimates), FFO, Core FFO and AFFO presentations facilitate comparisons of operating performance between periods and between other REITs in our peer group.
