The forward-looking statements are based on management's beliefs and assumptions and on information currently available to management. All statements contained in this document other than statements of historical fact are forward-looking statements, including statements regarding our ability to develop, commercialize and achieve market acceptance of our current and

planned products and services, our research and development efforts, and other matters regarding our business strategies, use of capital, results of operations and financial position, plans, objectives for future operations, and the evaluation of our available liquidity to execute on our strategy (including our ability to access our reimbursement based R&D government contributions). The use of certain data derived from cross-study comparisons are not based on any head-to-head clinical trials. Cross-study comparisons are inherently limited and may suggest misleading similarities and differences and are presented for informational purposes. In some cases, you can identify forward-looking statements by the words “may,” “will,” “could,” “would,” “should,” “expect,” “intend,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “project,” “potential,” “continue,” “ongoing” or the negative of these terms or other comparable terminology, although not all forward-looking statements contain these words.

These statements involve risks, uncertainties and other factors that may cause actual results, levels of activity, performance, or achievements to be materially different from the information expressed or implied by these forward-looking statements. These risks, uncertainties, other factors, and definition of our business metrics are described under “Risk Factors,” “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in the documents we file with the Securities and Exchange Commission from time to time. We caution you that forward-looking statements are based on a combination of facts and factors currently known by us and our projections of the future, about which we cannot be certain. As a result, the forward-looking statements may not prove to be accurate. The forward-looking statements in this document represent our views as of the date hereof. We undertake no obligation to update any forward-looking statements for any reason, except as required by law.
