FuelCell Energy to Present at the Needham Growth Conference

DANBURY, Conn., Jan. 14, 2013 (GLOBE NEWSWIRE) -- FuelCell Energy, Inc. (Nasdaq:FCEL), a global leader in the design, manufacture, operation and service of ultra-clean, efficient and reliable power plants, today announced participation in the 15th Annual Needham Growth Conference on Wednesday, January 16, 2013. The meeting will include a presentation at 4:10 pm ET by Chip Bottone, President and Chief Executive Officer and Kurt Goddard, Vice President Investor Relations to discuss the Company's results and growth strategy.

A live audio webcast from this conference can be accessed on the FuelCell Energy website, www.fuelcellenergy.com. Listeners should go to the 'events & presentations' section of the 'investor relations' tab at least 15 minutes before the event to download and install any necessary audio software. For those unable to listen to the live broadcast, a replay will be available by accessing the above website address.

About FuelCell Energy

Direct FuelCell® power plants are generating ultra-clean, efficient and reliable power at more than 50 locations worldwide. With more than 300 megawatts of power generation capacity installed or in backlog, FuelCell Energy is a global leader in providing ultra-clean baseload distributed generation to utilities, industrial operations, universities, municipal water treatment facilities, government installations and other customers around the world. The Company's power plants have generated more than one billion kilowatt hours of ultra-clean power using a variety of fuels including renewable biogas from wastewater treatment and food processing, as well as clean natural gas.
