

NEWS RELEASE

# FuelCell Energy Announces First Quarter Results Conference Call on March 16, 2020 at 10 A.M. Eastern Time

3/2/2020

DANBURY, Conn., March 02, 2020 (GLOBE NEWSWIRE) -- **FuelCell Energy** (Nasdaq: FCEL), the global leader in molten carbonate fuel cell technology with its purpose being to utilize its proprietary, state-of-the-art fuel cell platforms to enable a world empowered by clean energy, today announced the upcoming release of its first quarter results prior to the Stock Market Open on Monday, March 16, 2020. FuelCell Energy management will subsequently host a conference call with investors beginning at 10:00 a.m. Eastern Time on Monday, March 16, 2020 to discuss the first quarter results for fiscal 2020.

Participants can access the live call via webcast on the Company website or by telephone as follows:

- The live webcast of this call and supporting slide presentation will be available at [www.fuelcellenergy.com](http://www.fuelcellenergy.com). To listen to the call, select 'Investors' on the home page, proceed to the 'Events & presentations' page and then click on the 'Webcast' link listed under the March 16th earnings call event listed, or **click here**
- Alternatively, participants can dial 647-689-4106 and state FuelCell Energy or the conference ID number 3169993

The replay of the conference call will be available via webcast on the Company's Investors' page at [www.fuelcellenergy.com](http://www.fuelcellenergy.com) approximately two hours after the conclusion of the call.

About FuelCell Energy

FuelCell Energy, Inc. (NASDAQ: FCEL) is a global leader in developing environmentally responsible distributed

baseload power solutions through our proprietary molten-carbonate fuel cell technology. We develop turn-key distributed power generation solutions and operate and provide comprehensive services for the life of the power plant. We are working to expand the proprietary technologies that we have developed over the past five decades into new products, markets and geographies. Our mission and purpose remains to utilize our proprietary, state-of-the-art fuel cell power plants to reduce the global environmental footprint of baseload power generation by providing environmentally responsible solutions for reliable electrical power, hot water, steam, chilling, hydrogen, microgrid applications, and carbon capture and, in so doing, drive demand for our products and services, thus realizing positive stockholder returns. Our fuel cell solution is a clean, efficient alternative to traditional combustion-based power generation and is complementary to an energy mix consisting of intermittent sources of energy, such as solar and wind turbines. Our systems answer the needs of diverse customers across several markets, including utility companies, municipalities, universities, hospitals, government entities and a variety of industrial and commercial enterprises. We provide solutions for various applications, including utility-scale distributed generation, on-site power generation and combined heat and power, with the differentiating ability to do so utilizing multiple sources of fuel including natural gas, Renewable Biogas (i.e., landfill gas, anaerobic digester gas), propane and various blends of such fuels. Our multi-fuel source capability is significantly enhanced by our proprietary gas-clean-up skid.
