FuelCell Energy Solutions to Hold Press Conference at Hannover Messe Hydrogen Fuel Cell Fair

Learn About Efficient and Environmentally Friendly Fuel Cell Power Generation

DRESDEN, Germany, April 8, 2013 (GLOBE NEWSWIRE) -- FuelCell Energy Solutions, GmbH, a provider of ultra-clean, efficient and reliable fuel cell power plants, is hosting a press conference on Tuesday April 9 at the H2FC Fair in Hannover, Germany including insight from Professor Alexander Michaelis, Institute Director, [Fraunhofer IKTS](#), Chip Bottone, President and Chief Executive Officer, [Fuelcell Energy, Inc.](#), and Andreas Froemmel, Vice President Commercial and Business Development, [FCES GmbH](#).

The press conference will begin at 1:00 pm Central European Time, room B66 in Hall 27 of the H2FC Fair followed by a press talk in Exhibitor Lounge 3.

Stationary fuel cell power plants provide continuous on-site power and electric grid support in a highly efficient electrochemical process that is virtually absent of pollutants. Ultra-clean, quiet, and requiring only modest space, fuel cell power plants are easy to site in populated areas.

FCES, with its German manufacturing base, is the sales, manufacturing and service business for the European Served Area for FuelCell Energy, Inc. FCES is a joint venture between Fraunhofer IKTS and FuelCell Energy, Inc. (Nasdaq:FCEL).

About FuelCell Energy Solutions, GmbH

FuelCell Energy Solutions manufactures, sells, installs, and services stationary fuel cell power plants that efficiently and economically generate electricity and usable high quality heat suitable for making steam. Administrative offices are located in Dresden, Germany and manufacturing operations are located in Ottobrun, Germany. Continuous power generated at the point of use with the virtual absence of pollutants supports energy security and power reliability as well as sustainability initiatives. Ultra-Clean baseload distributed generation is attractive to electric utilities, universities, hospitals, government facilities, industrial operations and other locations with significant power needs.
