

Conflict Minerals Policy Statement

UQM is committed to sourcing components and materials from companies that share our values around human rights, ethics and environmental responsibility. We expect all of our suppliers to abide by the requirements of our Supplier Code of Conduct, which prohibits human rights abuses and unethical practices. We also require all suppliers to comply with applicable legal standards and requirements.

On August 22, 2012, the U.S. Securities and Exchange Commission (“SEC”) issued the final conflict minerals rule under Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the “Conflict Minerals Rule”). The Conflict Minerals Rule requires publicly traded companies to report annually the presence of conflict minerals (tin, tungsten, tantalum and gold, or “3TG”) originating in the Democratic Republic of the Congo or adjoining countries (“Covered Countries”).

UQM supports the goal of ending violence, human rights violations and environmental devastation in the Covered Countries. We are committed to complying with any requirements applicable to our Company under the Conflict Minerals Rule.

UQM will assist our customers in implementing their conflict minerals programs. We strive to work cooperatively with our customers and supply chain partners in implementing conflict minerals compliance programs.

UQM does not directly source Conflict Minerals but uses refined materials in the manufacture of some of its products. As such, UQM requires all of our suppliers to provide completed conflict minerals declarations as per UQM’s established PU-UD0009 Conflict Minerals Procedure. We may reconsider our willingness to partner with suppliers that fail to comply with this Policy.

Interested parties can report concerns or ask questions regarding this policy by sending an email to: conflict.minerals@uqm.com or by calling 303-682-4900.
