6. Procedures Regarding the Preparation and Release of Documents

- 6.1 The procedures in this Section 6 apply to all Directors, Officers, Employees and Contractors.
- 6.2 A “**Document**” means any public written communication, including a communication prepared and transmitted in electronic form:
- (a) that is required to be filed with the OSC, any other securities regulatory authority in Canada, the SEC or the FCA, either on the SEDAR web site at www.sedar.com, on the EDGAR system or on the NSM or published via RNS or otherwise;
 - (b) that is not required to be filed with the OSC, with the SEC, with the FCA or on the SEDAR web site, on the EDGAR system or on the NSM or published via RNS but is so filed or published;
 - (c) that is filed or required to be filed with a government or an agency of a government under applicable law or with any stock exchange or similar institution under its bylaws, rules or regulations; or
 - (d) the content of which would reasonably be expected to effect the market price or value of the securities of the Company.

DISCLOSURE POLICY

- 6.3 A “**misrepresentation**” means:
- (a) an untrue statement of material fact; or
 - (b) an omission to state a material fact that is required to be stated or that is necessary to make a statement not misleading in the circumstances in which it is made.
- 6.4 The Act distinguishes between “core documents” and “non-core documents”. For the purpose of this Policy, the following documents are “**Core Documents**”:
- prospectuses;
 - take-over bid circulars;
 - issuer bid circulars;
 - directors’ circulars;
 - rights offering circulars;
 - MD&A;
 - annual information forms;
 - information circulars;
 - annual financial statements;
 - interim financial statements; and
 - material change reports that contain information not previously disclosed.
- 6.5 Prior to the time that any Document is to be released to the public, filed with the OSC, any other securities regulatory authority in Canada, the SEC, the FCA or filed on SEDAR, on EDGAR or on NSM or published via RNS, the following procedures must be observed:
- (a) the Document must be prepared in consultation with, and be reviewed by, personnel in all applicable internal departments of the Company, and input from external experts and advisors should be obtained as necessary;
 - (b) any Core Document, other than a material change report, must be reviewed by the Disclosure Committee and, to the extent that the Disclosure Committee which considers such Core Document does not include a member of the Material Information Committee, the Material Information Committee;

DISCLOSURE POLICY

- (c) any press release which contains Undisclosed Material Information or any material change must be reviewed by the Material Information Committee;
 - (d) any press release which does not contain Undisclosed Material Information must be reviewed by the Chief Executive Officer or the SVP IR and at least one other member of the Material Information Committee;
 - (e) in the event a report, statement or opinion of any expert is included or summarized in a Document, the written consent of the expert to the use of the report, statement or opinion or extract thereof and the specific form of disclosure shall be obtained if so required by law. In addition, the Disclosure Committee must be satisfied that:
 - (i) there are no reasonable grounds to believe that there is a misrepresentation in the part of the Document made on the authority of the expert; and
 - (ii) part of the Document fairly represents the expert report, statement or opinion;
 - (f) Core Documents, other than material change reports, must be provided to the Directors sufficiently in advance of the time they are to be filed or released to allow the Directors to review and comment on such documents. It is recognized that the requirement to make prompt disclosure of Undisclosed Material Information by way of press releases may make it difficult to have certain press releases and material change reports to be reviewed by the Directors and as such the Directors have delegated authority for these press releases and material change reports to the Material Information Committee for review and approval; and
 - (g) in the case of interim financial statements, annual financial statements and interim and annual MD&A, such documents must be reviewed and approved by the Audit Committee in accordance with the Audit Committee Charter following approval of the Disclosure Committee and prior to submission to the Board as a whole.
- 6.6 In the event that a Document contains any Forward-Looking Information this information must be specifically identified as such and the following additional

DISCLOSURE POLICY

disclosure shall be provided in written form proximate to each place in the Document where the Forward-Looking Information appears:

- (a) reasonable cautionary language identifying the Forward-Looking Information as such;
- (b) identifying the material factors that could cause actual results to differ materially from expected results from a conclusion, forecast or projection in the Forward-Looking Information; and
- (c) a statement of the material factors or assumptions that were applied in the Forward-Looking Information.

7. Procedures Regarding Public Oral Statements

7.1 The procedures in this section apply to all Directors, Officers, Employees, Contractors and Spokespersons and any other person with actual or implied authority to make a public oral statement.

7.2 A “**public oral statement**” is any oral statement made in circumstances in which a reasonable person would believe that information contained in the statement will become generally disclosed. Examples include speeches, presentations, news conferences, interviews and discussions with analysts where the Company’s business and affairs, prospects or financial condition is discussed. The following procedures should be observed in respect of any public oral statements made by or on behalf of the Company:

- (a) such public oral statements should be made only by the Spokespersons authorized by this Policy to make public oral statements on behalf of the Company;
- (b) any public oral statement referring to a statement, report or opinion of an expert in whole or in part must have the prior written consent of said expert prior to a Spokesperson making a public oral statement related thereto if so required by law;
- (c) the Spokespersons must ensure that any public oral statements on behalf of the Company do not contain a misrepresentation and comply with Section 15 of this Policy and Section 6.6 of this Policy; and

DISCLOSURE POLICY

- (d) the SVP IR shall review any public oral statement made by or on behalf of the Company to ensure that the public oral statement does not contain a misrepresentation. If such public oral statements are found to contain a misrepresentation, the person shall advise the Material Information Committee and the Material Information Committee shall consider if a correcting press release is necessary or appropriate.

- 7.3 Where a public oral statement contains Forward-Looking Information, the Spokesperson must, prior to making such a public oral statement make a cautionary statement indicating that the public oral statement contains Forward-Looking Information, similar to the following:

“I’d like to bring to your attention that some of the commentary on today’s call may contain forward looking statements. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Please refer to the section entitled “Description of the Business – Risk Factors” in Wheaton’s Annual Information Form which is available on SEDAR and in Wheaton’s Form 40-F on file with the U.S. Securities and Exchange Commission. The Annual Information Form sets out the material risk factors that could cause actual results to differ, including the absence of control over mining operations from which Wheaton purchases silver, risks related to such mining operations and the risk of a decline in silver prices.”

8. Disclosure Controls and Procedures

The following disclosure controls and procedures of the Company have been reasonably designed to ensure that information required to be disclosed is recorded, processed, summarized and reported on a timely basis:

- (a) The Disclosure Committee shall assign responsibility to the appropriate individuals to draft the required disclosures in the material public disclosures of the Company and shall develop a timeline to ensure the drafting and review is conducted in a timely manner.
- (b) The Disclosure Committee shall review new developments, key risks and business challenges or areas of concern for special attention during the drafting process.

DISCLOSURE POLICY

- (c) All personnel who are requested to have direct input into the preparation of Core Documents will be provided with instructions and such other additional information as they may require to ensure that they are familiar with the Company's obligations, the importance of compliant and accurate disclosure and the reliance which is being placed upon them.
- (d) The Disclosure Committee shall meet as many times as may be necessary to review the draft, consider all comments raised by members of the Disclosure Committee and other reviewers. Concerns will be addressed with outside counsel and the independent auditors, as necessary.
- (e) Where it considers it necessary or advisable, the Disclosure Committee will have portions of Core Documents reviewed by another knowledgeable person. All financial information shall undergo a second internal review and a review by the auditors.
- (f) To serve as an additional record of the procedures employed, and to emphasize the importance of accurate and reliable information in the Company's material public disclosures, the Disclosure Committee shall ask the appropriate senior executives to provide his or her confirmation that all Material Information has been brought forward to the Disclosure Committee. Each will be asked to provide their certification in a form to be approved by the Disclosure Committee. The timing of the confirmation will occur as of the end of the period covered by a press release in relation to the publication of the relevant Core Document.
- (g) Once the Disclosure Committee has agreed upon a final draft:
 - (i) the Disclosure Committee shall report to the Chief Financial Officer:
 - (A) that it has followed the disclosure controls and procedures;
 - (B) the Disclosure Committee's findings and conclusions regarding the effectiveness of the Company's disclosure controls and procedures;
 - (C) the Disclosure Committee's assessment of the quality of the disclosures made in the Company's Core Documents; and

DISCLOSURE POLICY

(ii) the Disclosure Committee shall meet with the Chief Executive Officer and/or the Chief Financial Officer to discuss any questions, which either may have, and to report in person, upon the request of the Chief Executive Officer and/or the Chief Financial Officer.

(h) If for any reason the Disclosure Committee cannot agree upon their report, it shall meet with the Chief Executive Officer and the Chief Financial Officer to discuss its procedures and the issues which remain outstanding.

9. Timely Disclosure of Material Information

9.1 **“Material Information”** consists of “material facts”, “material changes” and “inside information”. A **“material fact”** means a fact that significantly affects, or would reasonably be expected to have a significant effect on, the market price or value of any of the securities of the Company. A **“material change”** means a change in the business, operations or capital of the Company that would reasonably be expected to have a significant effect on the market price or value of any of the securities of the Company and includes a decision to implement such a change if such a decision is made by the Board or by senior management of the Company who believe that confirmation of the decision by the Board is probable. **“Inside information”** is defined in MAR as “information of a precise nature which has not been made public, relating directly or indirectly, to one or more issuers or to one or more financial instruments, and which, if it were made public, would be likely to have a significant effect on the prices of those financial instruments or on the price of related derivative financial instruments”. Further guidance on how this definition of inside information is interpreted is included in Schedule “G” attached hereto.

9.2 Any person to whom this Policy applies who becomes aware of information that has the possibility of being Material Information must immediately disclose that information to a member of the Material Information Committee. The fact that it may not be clear or certain as to whether the information will have a significant effect on the Company’s share price or is otherwise Material Information, should not delay this notification. The information should then be passed to the other members of the Material Information Committee promptly and, where appropriate, to the Board. Schedule “B” attached hereto provides a non-exhaustive list of examples of Material Information.

DISCLOSURE POLICY

- 9.3 Upon the identification of any information that may constitute inside information, the Material Information Committee, in consultation with such other advisors as it may consider necessary, shall:
- (a) consider whether the information constitutes inside information. If there is any uncertainty over whether information should be categorised as inside information, the Material Information Committee may take advice from its legal advisors, financial advisers, brokers or other advisers;
 - (b) if the information does constitute inside information, maintain an “insider list” of those of its Directors, Officers and Employees who are aware of the inside information and when they became aware of such inside information. The Company is also required to ensure that persons acting on its behalf or for its account (for example advisers) also maintain such lists of people working for them, under a contract of employment or otherwise, who have access to inside information relating to the Company, whether on a regular or occasional basis. The insider list may include a supplementary section for ‘permanent insiders’ i.e. those people who, due to the nature of their position, have access at all times to all inside information within the Company. The insider list must be kept for at least five years;
 - (c) consider whether the Company may delay the public disclosure of inside information under MAR. Further guidance on determining when delayed disclosure is permitted under MAR Art. 17(4-6) and DTR 2.5 is provided in Schedule “H”;
 - (d) keep a record of any decision to delay disclosure of inside information, including the date and time when the information became inside information and when the decision to delay was made. When the inside information is published, the Company must notify the FCA that there was a delay in disclosure using the form available on the FCA’s website and, if requested by the FCA, the Company must be prepared to provide a written explanation of how the relevant conditions allowing delay were satisfied;
 - (e) if the Material Information Committee has decided that the Company may delay disclosure of inside information, prepare a draft holding press release to ensure such release is made in a timely manner in the event of any concern that the confidential nature of the inside information can no longer be maintained;

DISCLOSURE POLICY

- (f) consider publishing a holding press release if an event has occurred which is unclear or uncertain (e.g. where a fraud is alleged or legal action against the Company is threatened) and the Material Information Committee decides more time is needed to consider or clarify the situation before putting out a further press release with the full details at a later time. Any holding press release should detail as much of the subject matter as possible, set out the reasons why a fuller press release cannot be made and include a note to announce further details as soon as possible; and
 - (g) where delayed disclosure is not permitted, circulate a draft press release to the members of the Board and the Material Information Committee to the extent practicable, and ensure such press release is issued as soon as possible in compliance with applicable securities laws.
- 9.4 Upon the occurrence of any change that may constitute a material change, the Material Information Committee, in consultation with such other advisors as it may consider necessary, shall:
- (a) consider whether the event constitutes a material change;
 - (b) if it does constitute a material change, prepare a press release and a material change report describing the material change as required under applicable laws;
 - (c) determine whether a reasonable basis exists for filing the material change report on a confidential basis. In general, filings will not be made on a confidential basis although, in exceptional circumstances and provided delayed disclosure is permissible (such as in relation to a potential acquisition), confidential disclosure may be appropriate;
 - (d) to the extent practicable, circulate the draft press release and material change report to the members of the Board and Material Information Committee together, if applicable, with the recommendation that it be filed on a confidential basis, and ensure such press release is issued on a timely basis in compliance with applicable securities laws; and
 - (e) if applicable, following review by the Material Information Committee, file the material change report on a confidential basis and when the basis for confidentiality ceases to exist, and the event remains material, issue a

DISCLOSURE POLICY

press release and file a material change report in compliance with applicable securities laws, including the Act. During the period of time while a confidential material change has not been publicly disclosed, the Company shall not release a document or make a public oral statement (as defined in Section 7) that, due to the undisclosed material change, contains a misrepresentation.

- 9.5 Press releases disclosing Material Information will be transmitted to the TSX, the NYSE, the RNS, relevant regulatory bodies and major news wire services that disseminate financial news to the financial press. The Company will, to the extent reasonably possible, release Undisclosed Material Information on all of the TSX, the NYSE and the RNS at the same time.
 - 9.6 Press releases must be pre-cleared by the TSX if issued during trading hours or one hour after trading hours.
 - 9.7 If a press release containing inside information is issued when RNS is open for business, it must also be released through RNS. If the press release is to be issued when RNS is not open for business, then depending on the materiality of the information in the press release and the duration of the delay prior to RNS becoming open for business, the Material Information Committee will consider whether to wait for RNS to open, or instead distribute the press release as soon as possible to: (i) not less than two national newspapers in the United Kingdom; (ii) two newswire services operating in the United Kingdom; and (iii) RNS for release as soon as it opens.
 - 9.8 Under Art.2 of the Commission Implementing Regulation (EU) 2016/1055, press releases containing previously undisclosed inside information must clearly identify this fact.
10. **Internet Chat Rooms, Bulletin Boards and Social Media**
- 10.1 Directors, Officers, Employees and Contractors must not discuss or post any information relating to the Company or any of its subsidiaries or trading in securities of the Company in Internet chat rooms, newsgroups or bulletin boards.
 - 10.2 The only authorized spokespeople on the Company's social media forums are the SVP IR and anyone designated in writing by the SVP IR. All information posted to the Company's social media forums will comply with the rules of this Policy, including, in particular, in relation to Forward Looking Information and the

DISCLOSURE POLICY

disclosure of Material Information. Material Information must not be published on Social Media Forums before it is released in accordance with Sections 9.5 to 9.7 above.

- 10.3 The Company may post photographs of employees on its Social Media Forums taken at Company or Company sponsored events. An employee may request that no photographs of that employee be posted on Social Media Forums by advising the SVP IR.

11. Rumours

- 11.1 The SVP IR will monitor the market for views on the Company and its share price and the elements that help to determine whether information is Material Information or not. The SVP IR will also monitor rumours about the Company. If a rumour relates to Undisclosed Material Information, or is unfounded but is affecting the price of the securities of the Company, or is otherwise considered problematic, it should be brought to the attention of the Material Information Committee as soon as possible. The Material Information Committee will consider the nature and context of the rumour to determine if any response is necessary or advisable (including whether a press release is required).
- 11.2 Generally, the Company shall not comment, affirmatively or negatively, on rumours. Unless otherwise determined by the Material Information Committee, Spokespersons will respond consistently to those rumours, saying “It is our policy not to comment on market rumours or speculation.”
- 11.3 If the TSX, the NYSE, the FCA or any other exchange or securities regulatory authority requests that the Company make a statement in response to a market rumour or take any other action, the Material Information Committee will consider the matter to determine if any response is necessary or advisable and whether a press release is required.

12. Website

- 12.1 The SVP IR is responsible for creating and maintaining the Company’s website. The Company’s website must be maintained in accordance with the following.
- (a) the following information must be included on the website:

DISCLOSURE POLICY

- (i) all Material Information that has previously been Generally Disclosed, including, without limitation, all documents filed on SEDAR, EDGAR or NSM or released via RNS or a link to those documents on SEDAR, EDGAR, NSM or to RNS;
 - (ii) all non-Material Information that is given to analysts, institutional investors and other market professionals (such as fact sheets, fact books, slides of investor presentations, materials distributed at analyst and industry conferences);
 - (iii) web replays of shareholder meetings or analysts' conferences; and
 - (iv) all press releases or a link to those press releases;
- (b) the website must contain an e-mail link to an investor relations contact for the Company to facilitate communication with investors;
 - (c) the website must include a notice that advises the reader that the information was accurate at the time of posting, but may be superseded by subsequent disclosures;
 - (d) inaccurate information must be promptly removed from the website and a correction must be posted;
 - (e) information contained on the website must be removed or updated when it is no longer current;
 - (f) a list of all analysts known to follow the Company may be posted on the investor relations page, but analysts' reports must not be posted on the Company's website or linked to the Company's website;
 - (g) all links from the Company's website must be approved by the SVP IR, and all links must include a notice that advises the reader that he or she is leaving the Company's website and that the Company is not responsible for the contents of the other site; and
 - (h) no links will be created from the Company's website to chat rooms, newsgroups or bulletin boards.

DISCLOSURE POLICY

- 12.2 All information on the Company’s website will be retained for a period of six years from the date of issue. All press releases will be available on the Company’s website without amendment or alteration for a period of not less than five years.
- 12.3 If the Company is considering a distribution of its securities, the content of the website must be reviewed with the Company’s corporate counsel before and during the offering to ensure compliance with applicable securities laws.
13. **Confidentiality of Undisclosed Material Information**
- 13.1 **“Undisclosed Material Information”** is Material Information about the Company that has not been **“Generally Disclosed”**; that is, disseminated to the public by way of a press release together with the passage of a reasonable amount of time (one business day, unless otherwise advised that the period is longer or shorter, depending on the circumstances) for the public to analyze the information.
- 13.2 Any person to whom this Policy applies and who has knowledge of Undisclosed Material Information must treat the Material Information as confidential until the Material Information has been Generally Disclosed.
- 13.3 Undisclosed Material Information shall not be disclosed to anyone except in the necessary course of business. If Undisclosed Material Information has been disclosed in the necessary course of business, anyone so informed must clearly understand that it is to be kept confidential, and, in appropriate circumstances, execute a confidentiality agreement. Schedule “C” attached hereto lists circumstances where securities regulators believe disclosure may be in the necessary course of business. When in doubt, all persons to whom this Policy applies must consult with the Chief Financial Officer to determine whether disclosure in a particular circumstance is in the necessary course of business. For greater certainty, disclosure to analysts, institutional investors, other market professionals and members of the press and other media will not be considered to be in the necessary course of business. **“Tipping”**, which refers to the disclosure of Undisclosed Material Information to third parties outside the necessary course of business, is prohibited.
- 13.4 In order to prevent the inadvertent disclosure of Undisclosed Material Information, the procedures set forth below should be observed at all times:

DISCLOSURE POLICY

- (a) Documents and files containing confidential information should be kept in a safe place to which access is restricted to individuals who “need to know” that information in the necessary course of business and code names should be used if necessary;
- (b) Wherever practical, relevant documents should be kept in locked cabinets and IT access to e-mails/documents should be restricted only to those to whom access should be granted;
- (c) Confidential matters should not be discussed in places where the discussion may be overheard and documents containing Undisclosed Material Information should not be read or worked on where they can be read by others and should only be taken off site when necessary;
- (d) Transmission of documents containing Undisclosed Material Information by electronic means will be made only where it is reasonable to believe that the transmission can be made and received under secure conditions (including the use of passwords and/or other forms of encryption where possible) and that the Undisclosed Material Information will only be provided to those who reasonably need to see it; and
- (e) Unnecessary copying of documents containing Undisclosed Material Information must be avoided and extra copies of documents must be promptly removed from meeting rooms and work areas at the conclusion of the meeting and must be destroyed if no longer required.

14. Quiet Period

- 14.1 Each period (1) beginning on the first day of each fiscal quarter and each fiscal year, and (2) ending when the earnings for that quarter or year have been Generally Disclosed by way of a press release, will be a “**Quiet Period**”.
- 14.2 Without limiting Section 9, during a Quiet Period, Spokespersons must not provide any Undisclosed Material Information relating to the applicable quarter or fiscal year, including Earnings Guidance or comments with respect to the financial results for the current fiscal quarter or current fiscal year.
- 14.3 During a Quiet Period, Spokespersons may respond to unsolicited inquiries about information either that is not Material Information or that has been Generally Disclosed.

DISCLOSURE POLICY

15. Avoiding Selective Disclosure

- 15.1 When participating in shareholder meetings, news conferences, analysts' conferences and private meetings with analysts or institutional investors, Spokespersons must only disclose information that either (1) is not Material Information or (2) is Material Information but has previously been Generally Disclosed. For greater certainty, acceptable topics of discussion include the Company's business prospects (subject to the provisions of this Policy), the business environment, management's philosophy and long-term strategy. Any selective disclosure of Undisclosed Material Information, including Earnings Guidance, is not permitted.
- 15.2 To protect against selective disclosure, the procedures outlined in Section 7 should be followed.
- 15.3 If Material Information that has not been Generally Disclosed is inadvertently disclosed, the Material Information Committee should be informed immediately so that the Company can:
- (a) contact the parties to whom the Material Information was disclosed and inform them:
 - (i) that the information is Undisclosed Material Information; and
 - (ii) of their legal obligations with respect to the Material Information;
 - (b) consider whether an announcement should be made to the market;
 - (c) consider whether to conduct an enquiry into the leak; and
 - (d) take such other action as may be necessary or appropriate.

16. Analyst Reports

- 16.1 When reviewing analysts' reports, comments of Directors, Officers, Employees and Contractors must be limited to identifying factual information that has been Generally Disclosed that may affect an analyst's model and pointing out inaccuracies or omissions with respect to factual information that has been Generally Disclosed.

DISCLOSURE POLICY

- 16.2 Any comments must contain a disclaimer that the report was reviewed for factual accuracy only. No comfort or guidance shall be expressed on the analysts' earnings models or earnings estimates and no attempt shall be made to influence an analyst's opinion or conclusion.
- 16.3 Analysts' reports shall not be posted on or linked from the Company's website.
- 16.4 The Company may from time to time give Earnings Guidance or any other Forward-Looking Information through voluntary disclosure by way of a press release, provided that the cautionary language described in Section 6.6 accompanies the information.
- 16.5 The Company need not correct analysts' published reports, although if, as a result of serious and significant error, there is a widespread and serious misapprehension in the market, the Material Information Committee should consider whether the Company should take any action to correct the error.
17. **Trading of Company Securities**
- 17.1 No person shall Trade while in possession of Undisclosed Material Information and no PDMR may Trade when there exists any matter that constitutes Undisclosed Material Information.
- 17.2 Directors, Officers and those Employees and Contractors who participate in the preparation of the Company's financial statements or who are privy to material financial information relating to the Company (including, for the avoidance of doubt, PDMRs) are prohibited from Trading during the period of time beginning on: (i) the first Trading Day following the end of a fiscal quarter, or fiscal year end, until two Trading Days have elapsed following the time the financial results for a fiscal quarter or fiscal year end have been disclosed by way of press release; or (ii) if longer, the period of 30 calendar days before the disclosure of such press release (the "**Closed Period Blackout**").
- 17.3 All Employees and Contractors who are not subject to the Closed Period Blackout are prohibited from Trading for the period of time beginning on the tenth Trading Day prior to the disclosure of financial results for a fiscal quarter or fiscal year by way of press release until two Trading Days have elapsed following the time of such press release (the "**General Blackout**").

DISCLOSURE POLICY

- 17.4 All Directors, Officers, Employees and Contractors who are so advised by the Material Information Committee, shall be prohibited from Trading during any other period designated by the Material Information Committee (the “**Specific Blackout**”).
- 17.5 Notwithstanding Sections 17.2, 17.3 and 17.4, a Director, Officer, Employee and Contractor may Trade during any blackout period (a Closed Period Blackout, a General Blackout, or Specific Blackout (together, a “**Blackout Period**”) as may be applicable) with the prior written consent of the Chief Executive Officer. The Chief Executive Officer will grant permission to Trade during a Blackout Period only in the case of unusual or exceptional circumstances. Unusual or exceptional circumstances may include the sale of Company Securities in the case of severe financial hardship. Circumstances are ‘exceptional’ only if they are extremely urgent, unforeseen and compelling and where their cause is external to the relevant person and he or she has no control over them. Given the stringent requirements described above, clearance to Trade under this exception is unlikely to be granted except in rare cases. Furthermore, PDMRs will not ordinarily be given clearance to Trade: (i) when there exists any matter which constitutes Undisclosed Material Information; (ii) during the period 30 calendar days prior to the time the financial results for a fiscal quarter or fiscal year end have been disclosed by way of press release; or (iii) where otherwise prohibited by applicable legislation.
- 17.6 The Trading prohibitions in this Section 17 do not apply to the acquisition of the Company Securities pursuant to any dividend reinvestment plan adopted by the Company, where the applicable Director, Officer, Employee or Contractor does not, during the Blackout Period, change instructions with respect to how dividends on Company Securities held by such person are to be treated.
- 17.7 Generally, Directors, Officers, Employees and Contractors should avoid Trading on considerations of a short-term nature, such as acquiring and selling the same Company Securities within a 12 month period.
- 17.8 It is the responsibility of each person undertaking a Trade to ensure that they comply not only with this Policy, but also with all applicable laws particularly in relation to market abuse and insider trading.
18. **Clearance to Trade**

DISCLOSURE POLICY

- 18.1 Restricted Persons must not Trade for themselves or for anyone else, directly or indirectly, in Company Securities without obtaining clearance from the Company in advance in accordance with this Section 18.

 - (c) any sale of common shares sold as part of a group sale of common shares conducted at the sole discretion of the Company including in connection with the conversion of restricted share units (although a commitment or agreement to participate in such sale must not occur during a Specific Blackout or during the period that is 30 calendar days before the public disclosure of the financial results for a fiscal quarter or fiscal year end);
 - (d) the exercise of any stock options where approval for such exercise has been granted through the Company’s stock option approval process and the exercise takes place within five Trading Days (or such longer period as may be approved by the SVP Legal) of receiving approval through this process; or

- 18.3 Applications for clearance to Trade must be submitted to the SVP Legal using the form attached in Schedule “F”, or in such other form that provides the necessary information set out in such form.

DISCLOSURE POLICY

If such person becomes aware of Undisclosed Material Information after they submit an application, that person must inform the SVP Legal as soon as possible and refrain from Trading (even if they have been given clearance). For greater certainty, Restricted Persons must not Trade if they have knowledge of Undisclosed Material Information (or are deemed to have such knowledge) at the time of the Trade (even if they have been given clearance).
- 18.5 The Company will not normally give reasons if they have refused clearance to Trade. Any refusal must be kept confidential and not discussed with any other person.
- 18.6 If a Restricted Person is given clearance, that person must Trade as soon as possible and in any event within five Trading Days of receiving clearance (or such other period as may be approved by the SVP Legal). Clearance to Trade may be revoked without reason upon notice to the Restricted Person.
- 18.7 Clearance to Trade may be given subject to conditions. Where this is the case, these conditions must be observed when Trading.

19.3 No Person in a Special Relationship with the Company shall purchase, sell or otherwise monetize or trade securities of a Disclosing Partner while in possession of Material Information of a Disclosing Partner that has not been Generally Disclosed.

20. Limitations on Certain Financial Instruments

20.1 Directors, Officers and Vice Presidents of the Company are not permitted to enter into financial instruments that are designed to hedge or offset a decrease in the market value of:

- (a) any common share, restricted share unit, performance share unit, stock option, or other security of the Company that has not yet vested (or in the case of restricted share units, for which the restricted period has not yet expired; provided that for greater certainty if the holder has elected to defer receipt until a later date the restricted share unit shall be deemed to have vested for purposes of this section);

Non-exhaustive List of transactions which are Trades

Schedule “E”

- Transactions in derivatives and financial instruments linked to a debt instrument of the Company including credit default swaps.
- Conditional transactions relating to Company Securities. The completion of such transactions upon fulfilment of the conditions (provided no further action is required by the relevant person) does not constitute Trading and therefore does not require clearance, but such completion would be require notification under Section 21.
- The automatic or non-automatic conversion of a Company Security into another Company Security, including the exchange of convertible bonds to shares.*
- Gifts and donations of Company Securities made or received, or an inheritance of Company Securities received.*
- Transactions executed in index-related products, baskets and derivatives transacting in Company Securities.
- Transactions executed in shares or units of investment funds which transact in Company Securities.
- Transactions in Company Securities executed by a manager of an investment fund in which the relevant person has invested.*
- Transactions in Company Securities executed by a third party under an individual portfolio or asset management mandate on behalf or for the benefit of the relevant person.
- Borrowing or lending of Company Securities.

* Note: Certain transactions which fall within these paragraphs may not constitute ‘Trading’ as they are passive transactions over which the relevant person has no control (e.g. the receipt of a gift by such relevant person). However, it would be prudent for the Company to take advice when deciding whether or not a particular passive transaction would constitute ‘Trading’ for the purposes of this Policy. Even if such transaction does not constitute ‘Trading’, it would still require notification pursuant to Section 21.2 and 21.3.

Schedule “G”

Guidance on Determining Inside Information

1. The definition of inside information for the purposes of this Policy is derived from the definition of “inside information” in Article 7 of MAR and is as follows:

“information of a precise nature, which has not been made public, relating, directly or indirectly, to one or more issuers or to one of more financial instruments, and which, if it were made public, would be likely to have a significant effect on the prices of those financial instruments or on the price of related derivative financial instruments”
2. Information is precise if it:
 - 2.1 indicates a set of circumstances that exist or may reasonably be expected to come into existence or an event that has occurred or may reasonably be expected to occur; and
 - 2.2 is specific enough to enable a conclusion to be drawn as to the possible effect on those set of circumstances or that event on the prices of the financial instruments or the related derivative financial instruments.
3. The precise nature of information is to be assessed on a case-by-case basis and depends on what the information is and the surrounding context.
4. The phrase “may reasonably be expected” refers to future circumstances or events from which it appears that there is a realistic prospect that they will come into existence. ESMA considers that in determining whether a set of circumstances exists or an event has occurred, a key issue is whether there is firm and objective evidence for this as opposed to rumours or speculation i.e. if it can be proved to have happened or to exist. When considering what may reasonably be expected to come into existence, the key issue is whether it is reasonable to draw this conclusion based on the information available at the time. It should be noted that ESMA considers that in general, other than in exceptional circumstances or unless requested to comment by the competent regulator, issuers are under no obligation to respond to speculation or market rumours which are without substance.

DISCLOSURE POLICY

Schedule “G”

5. It is not necessary for a piece of information to be comprehensive to be considered precise. For example, an approach to a target company about a takeover bid can be considered as precise information even though the bidder had not yet decided the price. Similarly, a piece of information could be considered as precise even if it refers to matters or events that could be alternatives. For example, the fact that a company is proposing to launch a takeover bid for one or other of two companies could be considered as precise even though the bidding company had not finally decided which would be its target.
6. Where inside information concerns a process which occurs in stages, each stage of the process as well as the overall process could constitute inside information.
7. In determining the likely price significance of information, the Material Information Committee should assess whether the information in question would be likely to be used by a reasonable investor as part of the basis of his or her investment decisions and would therefore be likely to have a significant effect on the price of the Company’s financial instruments or derivative financial instruments (the “reasonable investor test”). There is no figure (percentage change or otherwise) that can be set when determining a “significant effect”. The Company should have a consistent procedure for determining what information is sufficiently significant for it to be deemed inside information and for the release of that information to the market.
8. In determining whether a significant effect is likely to occur, the following factors should be taken into consideration:
 - 8.1 the anticipated magnitude of the matter or event in question in the context of the totality of the company’s activity;
 - 8.2 the relevance of the information as regards the main determinants of the financial instrument’s price;
 - 8.3 the reliability of the source; and
 - 8.4 all market variables that affect the financial instrument in question (These variables could include prices, returns, volatilities, liquidity, price relationships among financial instruments, volume, supply, demand, etc.).

DISCLOSURE POLICY

Schedule “G”

9. EU guidance is clear that fixed thresholds of price movements or quantitative criteria alone are not a suitable means of determining the significance of a price movement. For example, the volatility of ‘blue-chip’ securities is typically less than that of smaller, less liquid stocks. Large absolute percentage rises in big company stocks are likely to be rare events and do not mean that smaller percentage share price changes should not be seen as significant.
10. There is further guidance relating to the “reasonable investor test” within the DTRs on the type of information that is likely to be considered relevant to a reasonable investor’s decision including significant information relating to the Company’s assets and liabilities, its financial position or its performance or expectation of the performance.

DISCLOSURE POLICY

Schedule “H”

Guidance on Determining Delay of Inside Information

1. The Company may delay the public disclosure of inside information, provided that:
 - 1.1 immediate disclosure is likely to prejudice the legitimate interests of the Company;
 - 1.2 delay of disclosure is not likely to mislead the public; and
 - 1.3 the Company is able to ensure the confidentiality of that information.
2. The guidance on “legitimate interests for delaying disclosure” cite the following as non-exhaustive examples:
 - 2.1 the Company is conducting negotiations and these negotiations would be likely to be affected by public disclosure;
 - 2.2 the financial viability of the Company is in grave and imminent danger;
 - 2.3 the Company has developed a product or an invention and disclosure of this information may prejudice the ability to patent the product or invention or otherwise protect the issuer’s rights; and
 - 2.4 the Company is planning to buy or sell a major holding in another entity but negotiations have not started yet and the conclusion of the deal is very likely to fail with immediate disclosure.
3. The guidance on where delay will mislead the public cite the following as non-exhaustive examples:
 - 3.1 the inside information is materially different from the previous public announcement;
 - 3.2 the inside information relates to the fact that the issuer’s financial objectives are not likely to be met, where such objectives were previously publicly announced; and

DISCLOSURE POLICY

Schedule “H”

- 3.3 the inside information is in contrast with market expectations.
4. Disclosure of negotiations intended to deal with the Company’s financial viability could normally be delayed if immediate public disclosure of the information would seriously prejudice the interests of existing and potential shareholders and could jeopardise the negotiations. However, any deterioration of the Company’s financial position that has led to the current situation would not fall within the exemption and, to the extent that this is inside information, should already have been the subject of a previous press release.
 5. Justifying non-disclosure of information by offsetting negative and positive news is not acceptable.
