

NEWS RELEASE

Inovio CEO Selected As 2016 Healthcare Innovator

2016-10-21

PLYMOUTH MEETING, Pa., Oct. 21, 2016 (GLOBE NEWSWIRE) -- Inovio Pharmaceuticals, Inc. (NASDAQ:INO), today announced that its President and Chief Executive Officer, Dr. J. Joseph Kim, has been selected as a 2016 Healthcare Innovator by a panel of scientific and medical experts convened by the Philadelphia Business Journal. The annual award honors the people and companies who are disrupting the healthcare and biotechnology industries and solidifying Greater Philadelphia's reputation as a center for innovation.

Dr. Kim is a pioneer of DNA-based immunotherapies and vaccines which are designed to attack and prevent cancers and challenging infectious diseases. Inovio has an extensive pipeline of clinical-stage cancer immunotherapies highlighted by VGX-3100, which is entering phase III this year for a cervical precancer; and DNA vaccines in development infectious diseases for Zika, MERS and HIV, among others.

Dr. Kim said, "This award recognizes the committed scientists and engineers moving DNA-based medicine towards commercialization. While we accept this award, the real beneficiaries of our technology are the cancer patients that DNA immunotherapies will heal and the millions of people that DNA vaccines will keep from devastating infections."

About Inovio Pharmaceuticals, Inc.

Inovio is taking immunotherapy to the next level in the fight against cancer and infectious diseases. We are the only immunotherapy company that has reported generating T cells in vivo in high quantity that are fully functional and whose killing capacity correlates with relevant clinical outcomes with a favorable safety profile. With an expanding portfolio of immune therapies, the company is advancing a growing preclinical and clinical stage product pipeline. Partners and collaborators include MedImmune, The Wistar Institute, University of Pennsylvania, DARPA, GeneOne Life Science, Plumblin Life Sciences, Drexel University, NIH, HIV Vaccines Trial Network, National Cancer Institute, U.S. Military HIV Research Program, and Laval University. This press release contains certain forward-looking statements relating to our business, including our plans to develop electroporation-based drug and gene delivery technologies and DNA vaccines, our expectations regarding our research and development programs and our capital resources. Actual events or results may differ from the expectations set forth herein as a

result of a number of factors, including uncertainties inherent in pre-clinical studies, clinical trials and product development programs, including the Zika vaccine GLS-5700, the availability of funding to support continuing research and studies in an effort to prove safety and efficacy of electroporation technology as a delivery mechanism or develop viable DNA vaccines, our ability to support our broad pipeline of SynCon® active immunotherapy and vaccine products, the ability of our collaborators to attain development and commercial milestones for products we license and product sales that will enable us to receive future payments and royalties, the adequacy of our capital resources, the availability or potential availability of alternative therapies or treatments for the conditions targeted by the company or its collaborators, including alternatives that may be more efficacious or cost effective than any therapy or treatment that the company and its collaborators hope to develop, issues involving product liability, issues involving patents and whether they or licenses to them will provide the company with meaningful protection from others using the covered technologies, whether such proprietary rights are enforceable or defensible or infringe or allegedly infringe on rights of others or can withstand claims of invalidity and whether the company can finance or devote other significant resources that may be necessary to prosecute, protect or defend them, the level of corporate expenditures, assessments of the company's technology by potential corporate or other partners or collaborators, capital market conditions, the impact of government healthcare proposals and other factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2015, our Form 10-Q for the quarter ended June 30, 2016, and other regulatory filings from time to time. There can be no assurance that any product in Inovio's pipeline will be successfully developed or manufactured, that final results of clinical studies will be supportive of regulatory approvals required to market licensed products, or that any of the forward-looking information provided herein will be proven accurate.
