GoPro Releases Apple Watch Features for the GoPro App, Enabling Cool New Remote Control Functions for GoPro Devices

Updated GoPro Mobile App for iOS and Android Devices Adds More Features, Making it Easier to Enjoy Your GoPro Videos and Photos Moments After They Happen

SAN MATEO, Calif., Dec. 10, 2015 /PRNewswire/ -- GoPro, Inc. (NASDAQ: GPRO) today announced the launch of Apple Watch features in the GoPro App for iOS to enable quick access to the camera's controls right from the wrist. This new app allows users to preview their shot, toggle between capture modes, start/stop record and add HiLight Tags to the best moments of their videos.

In addition to the Apple Watch integration, the latest version of the GoPro App offers a new design and makes capturing and sharing easier by allowing users to grab high-quality still images from videos, filter media by photo, video or HiLighted moments, and continue to use the app's Trim & Share features to produce 5-second, 15-second and 30-second clips.

GoPro App for iOS - Apple Watch Features:

- | Preview shots
- | Start / stop record
- | Change capture modes
- | Add HiLight Tag

GoPro App Updates for both iOS and Android Devices:

- | **Grab photos from videos:** Quickly flip through a video frame-by-frame to find that epic moment and download a high-quality still image.
- | **Find your media faster:** Locate that awesome shot by filtering your media to display only photos, videos, HiLight Tags or clips.

About GoPro, Inc. (NASDAQ:GPRO)

GoPro, Inc. is transforming the way people visually capture and share their lives. What began as an idea to help athletes self-document themselves engaged in their sport, GoPro has become a standard for how people capture themselves engaged in their interests, whatever they may be. From extreme to mainstream, professional to consumer, GoPro enables the world to capture and share its passion in the form of immersive and engaging content.
