Like Three Cameras in One: Maximum Stabilized HERO Camera, Versatile Vlogging Camera and Next-Level 360 Camera All in One

SAN MATEO, Calif., Oct. 24, 2019 /PRNewswire/ -- GoPro, Inc. (NASDAQ: GPRO) today announced that MAX is available for immediate delivery from **GoPro.com** and will be available at select retailers around the globe beginning tomorrow, October 25.

"MAX completely redefines what you can do with a camera," said GoPro Founder and CEO Nick Woodman. "We named it MAX because it takes just about every aspect of a GoPro and pushes it to the maximum, be it unbreakable video stabilization, unbelievably wide angle video and photos, or the ultra-creative effects you can achieve with the companion GoPro app. MAX has become my favorite GoPro of all time."

MAX is a waterproof (16 feet / 5 meters) dual-lens GoPro that maxes out on versatility—it's like having three cameras in one. MAX can be used as a maximum-stabilized single-lens HERO camera, dual-lens 360 camera or next-level vlogging camera with its built-in front-facing display and shotgun-mic audio capabilities. No matter how it is used, MAX delivers next-level, unbreakable video stabilization with Max HyperSmooth — GoPro's highest performance stabilization, ever. MAX also features four digital lenses, including the new ultra-wide Max SuperView —GoPro's widest field of view, ever. Additional features include one-click 270-degree PowerPano photos, in-camera 360 video and photo stitching and convenient keyframe-based editing of 360 content in the GoPro app. GoPro MAX is like no other camera in the world—perfect for innovative users looking to take their creativity to the MAX!
