**PFIZER INC.**  
**Notes to Revenue Table Information**

- 
- (a) Total International represents Developed Europe region + Developed Rest of World region + Emerging Markets region. Details for these regions are described in footnotes (h) to (j) below, respectively.
- 
- (b) Beginning in 2020, Upjohn began managing our Meridian subsidiary, the manufacturer of EpiPen and other auto-injector products, and a pre-existing strategic collaboration between Pfizer and Mylan N.V. for generic drugs in Japan (Mylan-Japan). As a result, revenues associated with our Meridian subsidiary, except for product revenues for EpiPen sold in Canada and Mylan-Japan, are reported in our Upjohn business beginning in the first quarter of 2020. We have reclassified revenues associated with our Meridian subsidiary and Mylan-Japan from the Hospital and Internal Medicine categories to the Upjohn business to conform 2019 product revenues to the current presentation.
- 
- (c) Biosimilars are highly similar versions of approved and authorized biological medicines and primarily include revenues from Inflectra/Remsima and Retacrit.
- 
- (d) Hospital is a business unit that commercializes our global portfolio of sterile injectable and anti-infective medicines. Hospital also includes Pfizer CentreOne(e). All other Hospital primarily includes revenues from legacy Sterile Injectable Pharmaceuticals (SIP) products (that are not anti-infective products) and, to a much lesser extent, solid oral dose products (that are not anti-infective products). SIP anti-infective products that are not individually listed above are recorded in “All other Anti-infectives”.
- 
- (e) Pfizer CentreOne includes revenues from our contract manufacturing and active pharmaceutical ingredient sales operation, including sterile injectables contract manufacturing, and revenues related to our manufacturing and supply agreements.
- 
- (f) On July 31, 2019, Pfizer’s Consumer Healthcare business, an over-the-counter medicines business, was combined with GSK’s consumer healthcare business to form a new consumer healthcare joint venture, of which we own 32%. Upon the closing of the transaction, we deconsolidated our Consumer Healthcare business. Our financial results, and our Consumer Healthcare segment’s operating results, for the second quarter of 2019 reflect three months of Consumer Healthcare segment operations and for the first six months of 2019 reflect six months of Consumer Healthcare segment operations, while our financial results for the second quarter and first six months of 2020 do not reflect any contribution from the Consumer Healthcare business.
- 
- (g) Total Sterile Injectable Pharmaceuticals represents the total of all branded and generic injectable products in the Hospital business, including anti-infective sterile injectable pharmaceuticals.
- 
- (h) Developed Europe region includes the following markets: Western Europe, Scandinavian countries and Finland.
- 
- (i) Developed Rest of World region includes the following markets: Japan, Canada, South Korea, Australia and New Zealand.
- 
- (j) Emerging Markets region includes, but is not limited to, the following markets: Asia (excluding Japan and South Korea), Latin America, Eastern Europe, Africa, the Middle East, Central Europe and Turkey.
-
