

Second Quarter Fiscal FY26 Financial Results

August 26, 2025

Forward-looking statements & non-GAAP financial measures

This presentation contains forward-looking statements that involve risks, uncertainties, and assumptions, including statements regarding Box's expectations regarding its growth and profitability, the size of its market opportunity, its investments in go-to-market programs, the demand for its products, the potential of AI and its impact on Box, the timing of recent and planned product introductions, enhancements and integrations, the short- and long-term success, market adoption and retention, capabilities, and benefits of such product introductions and enhancements, the success of strategic partnerships and acquisitions, the impact of macroeconomic conditions on its business, its ability to grow and scale its business and drive operating efficiencies, the impact of fluctuations in foreign currency exchange rates on its future results, its net retention rate, its ability to achieve revenue targets and billings expectations, its revenue and billings growth rates, its ability to expand operating margins, its long-term financial targets, its ability to achieve profitability on a quarterly or ongoing basis, its free cash flow, its ability to continue to grow unrecognized revenue and remaining performance obligations, its revenue, billings, GAAP and non-GAAP gross margins, GAAP and non-GAAP net income per share, GAAP and non-GAAP operating margins, the related components of GAAP and non-GAAP net income per share, weighted-average outstanding share count expectations for Box's fiscal third quarter and full fiscal year 2026, equity burn rate, any potential repurchase of its common stock, whether, when, in what amount and by what method any such repurchase would be consummated, and the share price of any such repurchase.

There are a significant number of factors that could cause actual results to differ materially from statements made in this presentation, including: (1) adverse changes in general economic or market conditions, including those caused by changes in tariffs, sanctions, international treaties, export/import laws and other trade restrictions, the Russia-Ukraine conflict and the conflict in the Middle East, inflation, and fluctuations in foreign currency exchange rates; (2) delays or reductions in information technology spending; (3) factors related to Box's highly competitive market, including but not limited to pricing pressures, industry consolidation, entry of new competitors and new applications and marketing initiatives by Box's current or future competitors; (4) the development of the intelligent content management market; (5) the risk that Box's customers do not renew their subscriptions, expand their use of Box's services, or adopt new products offered by Box on a timely basis, or at all; (6) Box's ability to provide timely and successful enhancements, integrations, new features and modifications to its platform and services; (7) actual or perceived security vulnerabilities in Box's services or any breaches of Box's security controls; (8) Box's ability to realize the expected benefits of its third-party partnerships; and (9) Box's ability to successfully integrate acquired businesses and achieve the expected benefits from those acquisitions. Further information on these and other factors that could affect the forward-looking statements we make in this presentation can be found in the documents that we file with or furnish to the US Securities and Exchange Commission, including Box's most recent Quarterly Report on Form 10-Q filed for the fiscal quarter ended April 30, 2025. In addition, the preliminary financial results set forth in this presentation are estimates based on information currently available to Box. While Box believes these estimates are meaningful, they could differ from the actual amounts that Box ultimately reports in its Quarterly Report on Form 10-Q for the fiscal quarter ended July 31, 2025. Box assumes no obligations and does not intend to update these estimates prior to filing its Form 10-Q for the fiscal quarter ended July 31, 2025.

You should not rely on any forward-looking statements, and Box assumes no obligation, nor do we intend, to update them. All information in this presentation is as of August 26, 2025.

This presentation contains non-GAAP financial measures and key metrics relating to the company's past and expected future performance. You can find the reconciliation of these measures to the nearest comparable GAAP financial measures in the appendix at the end of this presentation. The company has not reconciled certain of the non-GAAP measures in its long term operating model to their most directly comparable GAAP measure because certain adjustments cannot be predicted with a reasonable degree of certainty and the amount recognized can vary significantly. Accordingly, a reconciliation is not available without unreasonable efforts.

Constant currency information is provided as a framework for assessing how our underlying business performed excluding the effect of foreign currency rate fluctuations. Growth on a constant currency basis and impact from foreign exchange is determined by comparing current period reported results with the current results calculated using the equivalent rates in the prior period.

Revenue growth driven by Suites momentum

Note: \$ values are shown in millions. Box fiscal year ends January 31.

RPO supports enduring growth and revenue visibility

Driven by strong contract durations

Total RPO up 16% YoY
(up 16% in constant currency)

Note: \$ values are shown in millions. Remaining performance obligations (RPO) represent, at a point in time, contracted revenue that has not yet been recognized. RPO consists of deferred revenue and backlog, offset by contract assets. Box does not consider RPO to be a non-GAAP financial measure because it is calculated in accordance with GAAP.

Billings and deferred revenue

Billings up 3%* YoY
(up 6% in constant currency)

Deferred revenue up 9%* YoY
(up 9% in constant currency)

Note: \$ values are shown in millions.

*Reconciliations of billings to revenue, deferred revenue, and contract assets calculated in accordance with GAAP can be found in the Appendix of this presentation.

Delivering leverage through gross margin expansion

Cloud infrastructure strategy delivers long-term gross margin stability

Non-GAAP gross margin
Down 20 bps YoY*

*Excluding the tailwind from data center equipment sales in Q2'25, Q2'26 gross margin would have been up 40 bps year-over-year.

Note: A reconciliation of non-GAAP gross margin to the nearest GAAP financial measures can be found in the Appendix of this presentation.

Delivering strong operating margins

Making strategic investments in key GTM initiatives and our leading ICM platform in FY26

Note: A reconciliation of non-GAAP operating margin to the nearest GAAP financial measures can be found in the Appendix of this presentation.

Cash, cash equivalents, restricted cash, and short-term investments

Note: \$ values are shown in millions.

Share repurchase program

- In Q2, the Company repurchased approximately 1.2 million shares of Box's Class A common stock for approximately \$40 million.
- As of July 31, 2025, the Company had approximately \$112 million of remaining Board-approved buyback capacity under the current plan.

(1) As our business has become consistently profitable, we have released valuation allowances associated with certain deferred tax assets. Accordingly, in fiscal year 2026 we will be recognizing deferred tax expenses. This non-cash expense is reflected in our GAAP and non-GAAP diluted net income per share guidance for the third quarter of fiscal year 2026 and full fiscal year 2026. Within the impacts presented in this table, \$0.14 and \$0.58 represent the deferred tax expenses for third quarter of fiscal year 2026 and full fiscal year 2026, respectively.

Estimated Q3 and fiscal year 2026 preferred share impact summary

	Q3 FY26	FY26
Amortization of preferred share issuance costs	\$0.5M	\$2.1M
Preferred stock dividend	\$3.8M	\$15.0M
Undistributed earnings attributable to preferred shareholders	\$6.0M - \$6.5M	\$24.5M - \$25.0M

The impact from the above items will appear below the net income line in our P&L, and in the Earnings Per Share Note accompanying Box's financial statements.

Key Customer Metrics

Stable net retention rate

Customer stickiness drives low full churn rate of 3%

Quarterly net retention rate

Note: Net retention rate is defined as the net percentage of Total Annual Recurring Revenue (Total ARR) retained from existing customers, including expansion. In calculating our net retention rate, we include only Total ARR associated with those customers who have subscribed to Box for at least 12 months. We calculate our net retention rate by dividing the current period total ARR of these customers by the prior period total ARR.

Customers increasingly adopting Suites

Strong demand for Box AI drives adoption for Enterprise Plus and Enterprise Advanced

Large customer growth demonstrates strength of business model

Steady growth in customers paying more than \$100k annually

Note: Figures are rounded.

The background features a light blue-to-white gradient. Overlaid on this are several large, semi-transparent circles in shades of light blue and lavender. These circles overlap each other, creating a layered, ethereal effect. The word "Appendix" is centered in the middle of the composition.
