Welcome to the Content Cloud
Forward-looking statements & non-GAAP financial measures

This presentation contains forward-looking statements that involve risks and uncertainties, including statements regarding Box's expectations regarding the size of its market opportunity, its leadership position in the cloud content management market, the demand for its products, the impact of its acquisitions on future Box product offerings, the benefits to its customers from completing acquisitions, the time frame to integrate acquired businesses into Box, the impact of the COVID-19 pandemic on its business, its ability to grow and scale its business and drive operating efficiencies, its ability to achieve its revenue targets and billings expectations, its ability to achieve profitability on a quarterly, annual or ongoing basis, its free cash flow, its ability to continue to grow unrecognized revenue and remaining performance obligations, the timing of recent and planned product introductions, enhancements and integrations, the short- and long-term success, market adoption and retention, capabilities, and benefits of such product introductions and enhancements, planned improvements in sales productivity rates and workforce strategy, the success of strategic partnerships, its revenue, billings, gross margin, GAAP and non-GAAP net income (loss) per share, non-GAAP operating margins and non-GAAP operating expenses for future periods, the related components of GAAP and non-GAAP net income (loss) per share, and weighted-average outstanding share count expectations for Box's fiscal first quarter and fiscal year 2022.

There are a significant number of factors that could cause actual results to differ materially from statements made in this presentation, including: (1) adverse changes in general economic or market conditions, including those caused by the COVID-19 pandemic; (2) delays or reductions in information technology spending; (3) factors related to Box's highly competitive market, including but not limited to pricing pressures, industry consolidation, entry of new competitors and new applications and marketing initiatives by Box's current or future competitors; (4) the development of the cloud content management market; (5) the risk that Box's customers do not renew their subscriptions, expand their use of Box's services, or adopt new products offered by Box on a timely basis, or at all; (6) Box's ability to provide timely and successful enhancements and integrations, new features, integrations and modifications to its platform and services; (7) actual or perceived security vulnerabilities in Box's services or any breaches of Box's security controls; (8) Box's ability to realize the expected benefits of its third-party partnerships; (9) the potential impact of shareholder activism on Box's business and operations; and (10) Box's ability to successfully integrate acquired businesses and achieve the expected benefits from those acquisitions. Further information on these and other factors that could affect the forward-looking statements we make in this presentation can be found in the documents that we file with or furnish to the US Securities and Exchange Commission, including Box's most recent Annual Report on Form 10-K filed for the fiscal year ended January 31, 2021.

You should not rely on any forward-looking statements, and we assume no obligation, nor do we intend, to update them. All information in this presentation is as of April 14, 2021.

This presentation contains non-GAAP financial measures and key metrics relating to the company's past and expected future performance. You can find the reconciliation of these measures to the nearest comparable GAAP financial measures in the appendix at the end of this presentation.
The Opportunity for the Box Content Cloud

We are going after a large market opportunity

With a highly differentiated product

Supported by a repeatable and scalable GTM engine

Driving profitable growth
Driving Growth & Margins At Scale

Note: Box adopted the new revenue recognition standard ASC 606 beginning with its fiscal year 2019 using the modified retrospective transition method. The reported results for years including and subsequent to fiscal year 2019 reflect the application of ASC 606 while the reported results for fiscal years 2016, 2017, and 2018 are not adjusted and continue to be reported under the prior revenue recognition standard ASC 605. A reconciliation of non-GAAP operating margin to the nearest GAAP financial measure can be found in the Appendix of this presentation.
Reduced risk of data leaks and loss of millions of dollars in revenue with watermarked product designs

Reimagined how to connect and engage with customers while empowering its wealth management advisors

Saved $10M in current and future IT costs by migrating 18 million files and eliminating all Windows-based servers
Everything at work has changed

Anywhere
Work happens anywhere, anytime, from any app or device

Digital-first
Every customer, partner, and employee interaction is digital

Secure
Data security, privacy and compliance are critical to collaboration
Content is at the heart of all work
Every tech shift has changed how we manage content

**On-prem file servers**
Centralized network storage

**Enterprise content management**
Lifecycle governance designed for admins, not end users

**Enterprise file sync and share**
Easy access and sharing designed for individual consumers

**Cloud content management**
One secure platform for the entire content journey, integrated into all your apps
Welcome to the Content Cloud

One secure platform to manage the entire content journey
The industry-leading cloud content platform

Integrations
- SalesForce
- Zoom
- Slack
- Microsoft Teams
- Google Workspace
- Office 365
- ServiceNow
- Adobe
- DocuSign
- Custom
  - LOB systems
  - Third-party apps
  - Employee apps
  - Customer apps

APIs

Content services
- Files, folders, metadata
- Secure sharing
- Collaboration
- Workflow
- E-signature
- Search

Security and compliance
- Permissions
- PII scanning
- Classifications
- Threat detection
- Audit trails
- Encryption
- Data residency

Security integrations: Splunk, Okta, Microsoft MIP, Palo Alto Networks, Mobile Iron, AirWatch

Scalable, cloud-native global infrastructure
Our Expanded Product Portfolio Addresses a ~$55B Market

- $6B[^2] ECM
- $15B[^1] Content collaboration

Box Shield

Intelligent, frictionless security for the way you work today

- **Smart Access**
  Prevent data leaks with frictionless content controls

- **Threat Detection**
  Detect potential data theft and malicious content
Box Sign

Simple, secure e-signatures where your content lives

- Included in all Box subscription plans
- Upsell opportunities based on API volume and advanced functionality in higher price tiers
- Connect Box Sign to your workflows
- Extend the power of e-signatures with APIs
Suites Deliver Our Full Content Cloud Capabilities

Continued product innovation - including Box Sign - will build on strong momentum

**Digital Workplace**
Transform your workplace with secure collaboration, workflow, and lifecycle governance

- ~(4%)
Driving Significant Growth in Large Customers

Large customer counts have grown 15-19% over past 2 years

Note: Customer categories based on total account value (TAV)
Multiple Levers Unleash Continued OM Expansion

- **Workforce strategy**: Leverage lower cost locations including secondary Engineering site in Poland
- **Gross margin improvement**: Optimize data center footprint and public cloud, driving hardware and software efficiencies
- **Operational excellence**: ROI-based rigor across all expenses and leverage more automation and digital processes
- **Sales productivity**: Focus on higher performing regions and improve ACV via CCM product portfolio
- **Business model leverage**: Mix shift toward expansion and renewals drive greater operating leverage
Driving Growth and Profitability at Scale
Committed to delivering significant improvements to financial profile
