DTS® Headphone:X® Audio Technology Integrated In New LG Notebook PC Models

Expanded Collaboration with LG Delivers DTS Headphone:X Technology To Notebook PCs for the First Time

CALABASAS, Calif., Jan. 6, 2017 /PRNewswire/ -- [DTS, Inc.](#), a wholly owned subsidiary of [Tessera Holding Corporation](#) (NASDAQ: TSRA), and a global leader in high-definition audio solutions, is expanding its collaboration with LG with the integration of [DTS Headphone:X](#) immersive audio technology in several new notebook PCs. The LG Gram series models 13Z970, 14Z970, 15Z970 and 15U470 will be the first notebook PCs to offer DTS Headphone:X technology.

The LG Gram notebook PCs with DTS Headphone:X technology provide an immersive entertainment experience to consumers worldwide, using any pair of headphones. DTS Headphone:X technology accurately recreates sound sources around the listener, providing heightened awareness and an increased sense of realism within games, movies, music and other content.

"We are excited to be expanding our collaboration with LG on a broader range of products to include the Gram notebook PC series," said Geir Skaaden, chief product and services officer, Tessera Holding Corporation. "Providing our customers with the solutions to deliver the highest quality sound is a core objective for DTS, and through this partnership, listeners worldwide will benefit."

"This partnership with LG is a significant step in the continued evolution and global market penetration of our advanced audio technologies," said Jea Yoo, president, DTS Korea.

"We are proud to partner with DTS and provide our customers DTS Headphone:X sound in our new Gram notebook PCs," said Ik Hwan Jang, vice president, LG. "Premium audio is of utmost importance for the full content experience, and is a feature we are pleased to offer."
