

DTS Announces DTS:X Creator Suite

April 24, 2017

CALABASAS, Calif., April 24, 2017 /PRNewswire/ -- [DTS](#), a global leader in high-definition audio solutions and wholly owned subsidiary of [Xperi Corporation](#) (Nasdaq: XPER) ("Xperi"), is pleased to announce the DTS:X Creator Suite. The DTS:X Creator Suite provides professional content creators the ability to mix and deliver immersive DTS audio content for cinema, Ultra HD Blu-ray, Blu-ray, and other premium home formats and services. The DTS:X Creator Suite will be demonstrated by appointment at NAB in Las Vegas, April 24-27.

"The DTS:X Creator Suite is a comprehensive software solution that will provide professional content creators the latest tools to create and deliver compelling immersive audio experiences," said Bill Neighbors, general manager of cinema, digital media and streaming solutions at Xperi. "DTS is committed to providing professionals with the tools that meet their high standards, and with the DTS:X Creator Suite, we are able to ensure the production workflow is efficient, reliable and consistent."

The DTS:X Creator Suite retails for \$3,995 and will be available through [Westlake Pro](#) beginning late May 2017.

The DTS:X Creator Suite includes the following:

MDA Tools: Create object-based, immersive content with highly efficient and flexible solutions for modern, professional audio content production needs. MDA Tools feature full DTS:X ecosystem support and are based on MDA, a royalty-free, open standard audio technology.

DTS:X Encoder Suite: Encode, modify and verify audio bitstreams prior to multiplexing and authoring. Supporting up to 11.1-channel and object-based encoding of DTS:X for Ultra HD Blu-ray, Blu-ray and other premium digital media formats, the DTS:X Encoder Suite provides a critical link in delivering immersive audio content for the consumer market.

DTS Headphone:X Monitor - Home Video: Mix immersive content without height speakers, whether mixing in or delivering an immersive audio experience for headphones as DTS Headphone:X. Combine with MDA Creator to create DTS Headphone:X content for Ultra HD Blu-ray and Blu-ray.
