

NEWS RELEASE

HD Radio and FEMA Demonstrate Emergency Notification Capabilities

4/8/2019

FEMA will integrate HD Radio's Emergency Alerts feature into FEMA's IPAWS Test and Demonstration facility CALABASAS, Calif.--(BUSINESS WIRE)-- **Xperi Corporation** (Nasdaq: XPER) ("Xperi"), is pleased to announce an agreement with the Federal Emergency Management Agency (FEMA). As part of the agreement, FEMA will integrate HD Radio's Emergency Alerts feature into its Integrated Public Alert and Warning System (IPAWS) test and demonstration center in Maryland. The test facility houses all of the communication technologies used for emergency alerting, and provides education for state emergency responders, politicians, and other government officials. HD Radio's Emergency Alert feature will be on demonstration at NAB Show 2019 in the FEMA/IPAWS booth, located at Central Hall Stand C3330.

"We are excited about this agreement with the Federal Emergency Management Agency," said Ashruf El-Dinary, vice president of radio technology solutions at Xperi. "The integration of HD Radio's Emergency Alerts feature in the IPAWS facility will demonstrate the capabilities of digital radio technology as an advanced emergency notification solution for the public. For the first time FEMA will have the ability to test the Emergency Alert System using commercial HD Radio receivers."

The HD Radio Emergency Alerts feature provides visual as well as auditory notifications to consumers. The digital radio features allow broadcasters to expand public service information in local communities. HD Radio receivers with the Emergency Alerts feature are available in select vehicles, as well as aftermarket and tabletop radios, in the U.S. and Canada.

About Xperi Corporation

Xperi Corporation (Nasdaq: XPER) and its brands, DTS, FotoNation, HD Radio, Invensas and Tessera, are dedicated to creating innovative technology solutions that enable extraordinary experiences for people around the world. Xperi's solutions are licensed by hundreds of leading global partners and have shipped in billions of products in areas including premium audio, automotive, broadcast, computational imaging, computer vision, mobile computing and communications, memory, data storage, and 3D semiconductor interconnect and packaging. For more information, please call 408-321-6000 or visit www.xperi.com.

About FEMA

FEMA's Integrated Public Alert and Warning System (IPAWS) is an internet-based capability that federal, state, local, tribal and territorial authorities can use to issue critical public alerts and warnings.

During an emergency, alert and warning officials need to provide the public with life-saving information quickly. IPAWS is a modernization and integration of the nation's alert and warning infrastructure, and will save time when time matters most, protecting life and property.

Federal, state, local, tribal, and territorial alerting authorities can use IPAWS and integrate local systems that use Common Alerting Protocol (CAP) standards with the IPAWS infrastructure. IPAWS provides public safety officials with an effective way to alert and warn the public about serious emergencies using the Emergency Alert System (EAS), Wireless Emergency Alerts (WEA), the National Oceanic and Atmospheric Administration (NOAA) Weather Radio, and other public alerting systems from a single interface. View a list of IPAWS Organizations with Public Alerting Authority Completed in each state.

Safe Harbor Statement

This press release contains forward-looking statements, which are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements involve risks and uncertainties that could cause actual results to differ significantly from those projected. Material factors that may cause results to differ from the statements made include the plans or operations relating to the businesses of Xperi; market or industry conditions; changes in patent laws, regulation or enforcement, or other factors that might affect Xperi's ability to protect or realize the value of its intellectual property; the expiration of license agreements and the cessation of related royalty income; the failure, inability or refusal of licensees to pay royalties; initiation, delays,

setbacks or losses relating to Xperi's intellectual property or intellectual property litigations, or invalidation or limitation of key patents; fluctuations in operating results due to the timing of new license agreements and royalties, or due to legal costs; the risk of a decline in demand for semiconductors and products utilizing our audio and imaging technologies; failure by the industry to use technologies covered by Xperi's patents; the expiration of patents; Xperi's ability to successfully complete and integrate acquisitions of businesses; the risk of loss of, or decreases in production orders from, customers of acquired businesses; financial and regulatory risks associated with the international nature of Xperi's businesses; failure of Xperi's products to achieve technological feasibility or profitability; failure to successfully commercialize Xperi's products; changes in demand for the products of Xperi's customers; limited opportunities to license technologies due to high concentration in applicable markets for such technologies; the impact of competing technologies on the demand for Xperi's technologies; pricing trends, including Xperi's ability to achieve economies of scale; and other developments in the markets in which Xperi operates, as well as management's response to any of the aforementioned factors. You are cautioned not to place undue reliance on the forward-looking statements, which speak only as of the date of this release.

The foregoing review of important factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included herein and elsewhere, including the Risk Factors included in Xperi's recent reports on Form 10-K and Form 10-Q and other documents of Xperi on file with the Securities and Exchange Commission (the "SEC"). Xperi's SEC filings are available publicly on the SEC's website at www.sec.gov. Any forward-looking statements made or incorporated by reference herein are qualified in their entirety by these cautionary statements, and there can be no assurance that the actual results or developments anticipated by Xperi will be realized or, even if substantially realized, that they will have the expected consequences to, or effects on, Xperi or its business or operations. Except to the extent required by applicable law, Xperi undertakes no obligation to update publicly or revise any forward-looking statement, whether as a result of new information, future developments or otherwise.
