Xperi Brings Its Signature Sound, DTS:X, to LG Electronics' New Line of OLED and Premium LCD TVs

1/4/2023

New line of LG TVs to deliver dynamic audio for a transformative listening experience

SAN JOSE, Calif.--(BUSINESS WIRE)-- Xperi Inc. (NYSE: XPER) today announced a partnership with LG Electronics to integrate DTS:X® immersive audio technology into LG's latest OLED and Premium LCD TVs. DTS, Inc., a wholly owned subsidiary of Xperi Inc., is dedicated to making the world sound better through its pioneering audio solutions for mobile, home, cinema and beyond. This announcement represents a significant milestone in DTS's journey to embed DTS:X technology in more devices that create extraordinary experiences for consumers. It also demonstrates LG's commitment to expand the availability of the DTS solution.

DTS provides incredibly high-quality, immersive and engaging audio experiences to listeners everywhere. DTS:X audio technology for TV delivers a cinematic audio experience directly to your living room. With the introduction of LG's newest OLED and Premium LCD TVs featuring DTS:X technology, LG's customers can enjoy larger than life immersive sound from their TV speakers. LG also has a line of DTS:X enabled soundbars designed to be paired with LG TVs to further elevate streaming and ultra-HD Blu-Ray content for an immersive home theater experience.

"DTS is enabling a new level of audio experience, bringing the quality sound consumers expect in a theater to the home," said Jea Yoo, president of Korea at Xperi. "We're excited to help transform the listening experience of LG TV users."

"We are pleased to announce that DTS:X immersive audio technology will be integrated into our latest OLED and Premium LCD TVs," said SP BAIK, A Head of HE Product Planning, LG Electronics. "With DTS:X, we will be able to deliver cinematic experience to our consumers."
