TiVo BOLT+ Recognized as CES 2017 Innovation Awards Honoree

2017-01-04

Company Release - 1/4/2017 8:00 AM ET

Unified Entertainment System Bringing More Recording, More Tuners, More to Love

LAS VEGAS--(BUSINESS WIRE)-- TiVo Corporation (NASDAQ: TIVO), a global leader in entertainment technology and audience insights, today announced that the TiVo 4K BOLT+ has been named a CES 2017 Innovation Awards Honoree in the Home Audio/Video Components and Accessories category. Products entered in this prestigious program are judged by a preeminent panel of independent industrial designers, independent engineers and members of the trade media to honor outstanding design and engineering in cutting edge consumer electronics products across 28 product categories.

The TiVo BOLT+ is the shortest distance between you and your entertainment, because it combines all your options into a single box. With a small footprint and features similar to the TiVo BOLT, BOLT+ comes with a new gloss black case, six tuners and 3TB of recording capacity - perfect for the modern multi-room video set up. This unified entertainment system satisfies even the most voracious entertainment appetite with content from TV, available on-demand libraries or streaming apps like Netflix, Amazon Prime, HULU, YouTube and Pandora, among others.

"The TiVo BOLT+ represents the high level of entertainment excellence that you've come to expect from TiVo and we're proud to be publically recognized with this award," said Jim Denney, vice president of product management and strategy, TiVo. "Our focus has always been, and will always will be, to provide the best entertainment experience possible, and all of the unique BOLT+ features help bring this experience to life and support our quest."

Products chosen as CES Innovation Honorees reflect innovative design and engineering in some of the most cutting edge tech products and services coming to market. Entries are evaluated on their engineering, aesthetic and design

qualities, intended use/function and user value, unique/novel features present and how the design and innovation of the product directly compares to other products in the marketplace.

The prestigious CES Innovation Awards are sponsored by the Consumer Technology Association (CTA)TM, the producer of CES 2017, the global gathering place for all who thrive on the business of consumer technologies, and have been recognizing achievements in product design and engineering since 1976.

TiVo will showcase its entertainment technology and audience insights solutions at its private suite during CES.
