Forward-Looking Statement

Forward-Looking Statements: This presentation may include estimates or projections that constitute “forward-looking statements” within the meaning of the U.S. federal securities laws. Generally, the words “believe,” “expect,” “intend,” “anticipate,” “project,” “will,” and similar expressions identify forward-looking statements, which generally are not historic in nature. Although the Company believes that the assumptions upon which its forward-looking statements are based are reasonable, it can give no assurance that these assumptions will prove to be correct. Important factors that could cause actual results to differ materially from the Company’s historical experience, and present projections and expectations are disclosed in the Company’s filings with the Securities and Exchange Commission (“SEC”). These factors include, among others, pension plan costs; availability or increase in the cost of packaging materials; our ability to maintain manufacturer/distribution agreements; impact of competitive pricing and product pressures; our ability to implement our strategic initiatives, including executing and realizing cost savings; changes in legal and regulatory requirements, including the regulation of distribution systems; increase in the cost of commodities used in the business; our ability to maintain brand image, reputation and product quality; our ability to maintain good labor relations; changes in our supply chain system; additional impairment charges; the impact of climate change and the availability and quality of water; the ability of MillerCoors to integrate operations and technologies; lack of full-control over the operations of MillerCoors; the ability of MillerCoors to maintain good relationships with its distributors; and other risks discussed in our filings with the SEC, including our Annual Report on Form 10-K for the year-ended December 25, 2010, which are available from the SEC. All forward-looking statements in this press release are expressly qualified by such cautionary statements and by reference to the underlying assumptions. You should not place undue reliance on forward-looking statements, which speak only as of the date they are made. We do not undertake to update forward-looking statements, whether as a result of new information, future events or otherwise.

Reconciliations to Nearest U.S. GAAP Measures: The following presentation includes certain "non-GAAP financial measures" as defined in Regulation G under the Securities Exchange Act of 1934. A schedule is posted on the Company’s website at MolsonCoors.com (in the “Investor Relations” section) which reconciles our results as reported under Generally Accepted Accounting Principles and the non-GAAP financial measures included in the following presentation.

- Japan

Beer Markets:
- Coors Light
- Carling
- Stella Artois
- Heineken
- Grupo Maranhão
- Cobra
- UTB

Molson Coors
• Three components to our M&A strategy

  1. Small “fill-in” acquisitions in current markets
  2. Investing internationally (i.e. China and India JVs)
  3. Larger M&A

• Apply a rigorous, disciplined process to all our cash-use decisions

• Requires a clear view to near-term earnings accretion and building long-term shareholder value.
Stewart Glendinning
Chief Financial Officer
Molson Coors Brewing Company
The above graph compares Molson Coors cumulative total stockholder return with the Standard and Poor’s 500 Index. The graph assumes $100 was invested on December 23, 2005, in Molson Coors Class B common stock and the S&P 500 and, in both instances, assumes reinvestment of all dividends.
Driving Profit in Challenging Times

MCBC Underlying Pretax Income ($mm)

- 2006: $600 million, +18%
- 2007: $800 million, +20%
- 2008: $790 million, -1%
- 2009: $872 million, +12%
- 2010: $959 million, +11%

1st Half 2011 underlying pretax income: $378.3 million, +2%

Non-GAAP underlying income is calculated by excluding special and other non-core items from the nearest U.S. GAAP earnings. See reconciliation to the nearest U.S. GAAP measures on our website. Percentage change is versus comparable prior year period.
Strong Increase in Free Cash Flow

MCBC Underlying Free Cash Flow ($mm)

Underlying free cash flow is defined as operating cash flow, plus asset sale proceeds, less capital spending and one-time cash uses, plus or minus investing cash from/to MillerCoors. See reconciliation to the nearest U.S. GAAP measures on our website.
Substantial Cost Reductions Provide Resources

$897 million of cost savings delivered since 2005
Strengthening Balance Sheet
