

5280 Solutions Receives Top Global Partner Award From Open Text for Support of Livelink ECM - eDOCS Solutions in 2006

DENVER, Feb 21, 2007 /PRNewswire-FirstCall via COMTEX News Network/ -- 5280 Solutions, a premier software development, consulting and systems integration organization, announced today it has been named "Global Partner of the Year" by Open Text(TM) Corporation, at its Summit 2007 customer and partner conference in Huntington Beach, Calif. The selection of 5280 Solutions was based on the results of successful partner representation of Livelink ECM - eDOCS, formerly Hummingbird Enterprise in 2006. 5280 Solutions provides sales, consulting, integrated products and business solutions based on Livelink ECM - eDOCS.

Open Text(TM) and 5280 Solutions provide Uconnect(TM) for Livelink ECM - eDOCS, which has contributed significantly to 5280 Solutions' success. Uconnect(R) is designed to further extend the value of Livelink ECM - eDOCS by providing bi-directional integration with line of business software such as ERP, CRM, HR and accounting applications. Critical applications such as accounts payables, capital projects, contracts and loan origination require integration between content-enabled and transaction-focused applications; Uconnect(R) provides a variety of quick installation integrations between content and metadata. In addition to supporting complex integrations like bi-directional data transfer, simple integration tasks such as searching for documents directly from a business application can be accomplished with Uconnect(R).

"5280 Solutions is honored to receive this special distinction and encouraged by the growth and acceptance of our business solutions based on Livelink ECM - eDOCS from Open Text," said Mike Randash, Vice President of 5280 Solutions. "Open Text has great product vision and execution for large scale enterprise deployments, allowing us to confidently serve the needs of our client base utilizing Open Text products."

Summit 2007

Held February 11-14, the Summit 2007 conference gave attendees the latest information on ECM technology and Open Text's product strategy. The event included executive keynotes and more than 80 business and technical break-out sessions covering customer case studies and partner demonstrations.
