NetApp Safe Harbor

Each of the 2026 INSIGHT financial analysts tech sessions may contain forward looking statements and projections about our strategies, products (including unreleased offerings), future results, performance or achievements, financial and otherwise. These statements and projections reflect management's current expectations, estimates and assumptions based on the information currently available to us and are not guarantees of future performance or products, services or features. The development, release and timing of any features or functionality for NetApp products and services remain at the sole discretion of Netpp, and are subject to change without notice. Actual results may differ materially from our statements or projections for a variety of reasons including macroeconomic and market conditions, global political conditions, and matters specific to the company's business, such as changes in customer demand for storage and data management solutions and acceptance of our products and services. These and other equally important factors that may affect our future results are described in reports and documents we file from time to time with the SEC, including factors described under the section titled "risk factors" in our most recent filings on form 10-K and form 10-Q available at www.Sec.Gov. The forward-looking statements made in these presentations are being made as of the time and date of the live presentations. If these presentations are reviewed after the time and date of the live presentation, even if subsequently made available by us, on our web site or otherwise, these presentations may not contain current or accurate information. We disclaim any obligation to update or revise any forward-looking statement based on new information, future events or otherwise.
