

NEWS RELEASE

NetApp Wins 2025 Google Cloud Infrastructure Modernization Partner of the Year for Storage

2025-04-08

SAN JOSE, Calif. – April 8, 2025 – NetApp® (NASDAQ: NTAP), the intelligent data infrastructure company, today announced that it has received the 2025 Google Cloud Infrastructure Modernization Partner of the Year for Storage award.

NetApp is being recognized for its achievements in the Google Cloud ecosystem, helping joint customers accelerate cloud workloads with intelligent data infrastructure and bring AI to their data with NetApp and Google Cloud.

"Google Cloud's Partner Awards recognize partners who have created outsized value for customers through the delivery of innovative solutions and a high level of expertise," said Kevin Ichhpurani, President, Global Partner Ecosystem, Google Cloud. "We're proud to announce NetApp as a 2025 Google Cloud Partner Award winner and celebrate their impact enabling customer success over the past year."

The Google Cloud Infrastructure Modernization Partner of the Year for Storage award recognizes partners that have helped their customers modernize their infrastructure by leveraging Google Cloud's innovative solutions, resulting in increased agility, scalability, and cost-efficiency. Due to NetApp's partnership with Google Cloud and products such as Google Cloud NetApp Volumes, joint customers are able to more easily adopt an intelligent data infrastructure to meet the needs of modern workloads and prepare for the future.

"NetApp's recognition as a Google Cloud Partner of the Year for first-party cloud storage highlights our leadership in delivering cutting-edge data solutions for AI and modernization of enterprise workloads such as virtualization, databases, and EDA in the cloud," said Pravjit Tiwana, Senior Vice President and General Manager, Cloud Storage at NetApp. "As enterprises scale AI workloads, our frictionless, highly secure, and high-performance storage empowers them to unlock the full potential of their data with efficiency, security, and speed."

This recognition marks another significant milestone in NetApp's successful partnership with Google Cloud, building on three previous Google Cloud Technology Partner of the Year Awards in the last two years. Earlier this year, NetApp achieved the Google Cloud Ready – Regulated & Sovereignty Solutions Designation, demonstrating NetApp's ability to help organizations adopt an intelligent data infrastructure framework that gives them the power to manipulate their data in every environment, even when they need to meet high compliance standards.

About NetApp

NetApp is the intelligent data infrastructure company, combining unified data storage, integrated data, operational and workload services to turn a world of disruption into opportunity for every customer. NetApp creates silo-free infrastructure, harnessing observability and AI to enable the industry's best data management. As the only enterprise-grade storage service natively embedded in the world's biggest clouds, our data storage delivers seamless flexibility. In addition, our data services create a data advantage through superior cyber resilience, governance, and application agility. Our operational and workload services provide continuous optimization of performance and efficiency for infrastructure and workloads through observability and AI. No matter the data type, workload, or environment, with NetApp you can transform your data infrastructure to realize your business possibilities.
