

Canadian Malartic (50% Interest)

Record Monthly Tonnage Milled in August; Commercial Production Declared at Barnat deposit; Exploration Drilling Continues to Infill and Extend East Gouldie Mineralization

Proven & probable gold reserves (million oz)	Measured & indicated gold resources (million oz)	Inferred gold resource (million oz)	Q3 2020 Production ¹ (koz)	Q3 2020 Total Cash ² Costs/oz
2.4	0.4	0.1	76	\$772

*Excludes pre-commercial production from Barnat of 3.1koz in Q4 2019, 3.0koz in Q1 2020, 2.7koz in Q2 2020 and 13.3koz in Q3 2020

- Winner of the prestigious F.J. O'Connell Trophy from the Quebec Mining Association for excellence in health and safety performance in the "surface, transportation and primary metal processing operations" category for 2019
- Mining activities at the Barnat deposit progressed ahead of plan due to strong productivity and commercial production was declared on September 30, 2020
- At the mill, two planned shutdowns were completed in Q3 2020. Despite the shutdowns, the daily throughput was significantly higher compared to the prior-year period, and record monthly tonnage (2.0M tonnes) was milled in August
- The Odyssey project exploration ramp portal was started in August 2020. Ramp development activities are expected to continue for ~ 2 years
- Expanded drill program at East Gouldie Zone extends known mineralization and infills high grade core. The Partnership will prepare a new mineral resource update for year-end 2020 and a PEA on the Odyssey project in early 2021
