NEWS RELEASE

Lumentum Exhibits at Five Worldwide Laser and Photonics Shows in the Next Two Months

2015-10-12

Milpitas, Calif., October 12, 2015 – (NASDAQ: LITE) Lumentum Holdings Inc. ("Lumentum") today announced that it would exhibit at five worldwide laser and photonics shows in the next two months. Lumentum will be displaying its full complement of laser products focused on addressing the needs of both micro machining and macro machining markets, including Lumentum's: kilowatt class fiber, ultrafast, Q-switched, and low power continuous wave lasers. Presence at these shows demonstrates Lumentum's commitment to providing leading laser solutions to several dynamic markets.

"Our kilowatt class fiber lasers are ideally suited for industrial applications like metal fabrication, and our advanced ultrafast lasers target micro machining environments where precision laser cutting is required," said Alex Schoenfelder, vice president, product line management, Commercial Lasers. "We are excited to engage with customers and showcase our solutions at these worldwide laser events over the next two months."

About the Events

IMID Display Exhibition 2015 – October 14-16, 2015, in Ilsan, Gyeonggi Province, Korea at the Kintex Exhibition Center 1 - Booth #K15 - Hall 1. This is the 15th International Meeting on Information Display (IMID) and one of Korea's premiere technology events.

ICALEO 2015 – October 20, 2015, in Atlanta, Georgia at the Sheraton Atlanta Hotel - Booth #20 -

Georgia Hall. The International Congress on Applications of Lasers & Electro-Optics (ICALEO®) provides the opportunity for attendees to see system demonstrations and hear the latest innovations for the state-of-the-art in laser materials processing, laser microprocessing, and nanomanufacturing.

Blechexpo 2015 – November 3-6, 2015, in Stuttgart, Germany at the Landesmesse Stuttgart Expo Centre in Booth #3608 - Hall 3. Blechexpo is one of the largest shows worldwide targeting the disciplines of sheet metal processing and joining technologies.

MWCS 2015 – Metalworking and CNC Machine Tool Show - November 3-7, 2015, in Shanghai, China at National Exhibition & Convention Center Shanghai in Booth #D175 - Hall 2H. MWCS is the leading international trade fair for metalworking industry in China, and the largest in southeast China.

Fab Tech Expo 2015 – November 9-12, 2015, in Chicago, Illinois at the McCormick Convention Center in Booth #C1508 - Hall C. Fab Tech is the premiere metal forming, fabricating, welding, and finishing event in North America with over 40,000 attendees and more than 1,500 exhibiting companies.

About Lumentum Lasers

Lumentum lasers offer OEM customers a broad range of vibrant solutions for applications in macro materials processing and precision machining, as well as biotechnology, graphics and imaging, plus remote sensing markets. Products include kilowatt fiber, ultrafast, and Q-switched lasers, plus diode, direct-diode, and diode-pumped solid-state laser solutions. In addition, Lumentum's photonic power products include fiber optic-based systems for delivering and measuring electrical power. Lumentum lasers address applications that range in output power from milliwatts to kilowatts and include ultraviolet, visible, and infrared wavelengths.

About Lumentum

Lumentum (NASDAQ: LITE) is a market-leading manufacturer of innovative optical and photonic products enabling optical networking and commercial laser customers worldwide. Lumentum's optical components and subsystems are part of virtually every type of telecom, enterprise, and data center network. Lumentum's commercial lasers enable advanced manufacturing techniques and diverse applications including next-generation 3D sensing capabilities. Lumentum is headquartered in Milpitas, California with R&D, manufacturing, and sales offices worldwide. For more information, visit www.lumentum.com.
