NEWS RELEASE

Lumentum Exhibits at Four Worldwide Commercial Lasers, and Optical Communications Tradeshows in the Next Three Months

2016-01-21

Milpitas, Calif., January 21, 2016

– Lumentum Holdings Inc. (“Lumentum”) announced it would exhibit at four worldwide commercial lasers and optical communications tradeshows in the next three months. Lumentum will be displaying its full complement of advanced products focused on addressing the micro-machining, macro-machining, and the telecom, enterprise, and data center markets. Lumentum’s presence at these shows demonstrates the Company’s continuing commitment to provide leading commercial lasers and optical communications solutions for these dynamic markets.

About the Events

MD&M West 2016 -- February 9 - February 11, 2016, in Anaheim, California at the Anaheim Convention Center -- Booth: #471. The Medical Design & Manufacturing (MD&M) provides the opportunity for attendees to see system demonstrations and attend educational sessions on industry topics.

Photonics West 2016 -- February 16 - February 18, 2016, in San Francisco, California at the Moscone Convention Center -- Booth: #2017 – South Hall. Photonics West is a premier photonics and laser event with more than 1,250 companies exhibiting the latest products, tools, and applications.

Laser World of Photonics China 2016 -- March 15 - March 17, 2016, in Shanghai, China at the Shanghai

New International Expo Centre -- Booth: #5125. Laser World of Photonics China is a leading Asian photonics exhibition. It focuses on innovative photonic products, industrial solutions, and applications.

OFC 2016 -- March 22 - March 24, 2016, in Anaheim, California at the Anaheim Convention Center -- Booth: #2200. OFC is one of the largest global conferences and exhibitions for optical communications and networking professionals. It provides insights and inspiration on the major trends and technology advances affecting the industry.

About Lumentum

Lumentum (NASDAQ: LITE) is a market-leading manufacturer of innovative optical and photonic products enabling optical networking and commercial laser customers worldwide. Lumentum's optical components and subsystems are part of virtually every type of telecom, enterprise, and data center network. Lumentum's commercial lasers enable advanced manufacturing techniques and diverse applications including next-generation 3D sensing capabilities. Lumentum is headquartered in Milpitas, California with R&D, manufacturing, and sales offices worldwide. For more information, visit www.lumentum.com.
